

Flames Drive School Girls Into Street

40 GIRLS FLEE FROM NORMAL SCHOOL FIRE

Students at Framingham Escaped
Without Injury, But Suffered
From Extreme Cold

FRAMINGHAM, Feb. 13.—Forty girls roused from their beds when fire was discovered in Normal hall, a dormitory at the state normal school early today, escaped without injury but suffered severely from the extreme cold. The three story wooden building was destroyed, causing a loss of about \$30,000. The students, who lost their personal effects, were sheltered in another dormitory. Defective heating apparatus is thought to have caused the blaze.

KITCHEN RANGE EXPLODED

Mrs. Susan Blaisdell Struck by
Fragments and Knocked Un-
conscious—Building Saved

Mrs. Susan Blaisdell, of 239 East Merrimack street was struck and knocked unconscious by an oven door about 7:15 o'clock this morning, when the kitchen range in her home exploded and blew the large stove to pieces. All the windows in the room were blown out and considerable damage was done to the furniture and other articles in the kitchen.

had been extinguished by the men who had been aroused by the noise of the explosion. Hundreds of fragments of the stove were scattered over the floor and the kitchen was badly wrecked. A doctor was summoned and Mrs. Blaisdell soon recovered although she was badly bruised and shocked. The building is owned by Mr. Thomas Brennan.

Best music, A. O. H. hall, tonight.

TO HOME RULE CAUSE

IRISH NATIONAL BROTHERHOOD
DONATED \$25 AT LAST NIGHT'S
MEETING

The Irish National Brotherhood Camp 45 has donated \$25 to the home rule fund.

A committee was appointed to arrange for the observance of the Emmet anniversary March 4 with an elaborate program. The camp has 450 members.

A whist party will be held at the rooms a week from next Thursday when a good time is assured to all who attend.

TRAIN KILLS MAINE WOMAN
BOSTON, Feb. 13.—Mrs. Margaret Ross of Presque Isle, Me., mother of James Ross of Division street, Quincy, was struck by a train at the Norfolk Downs railroad station yesterday afternoon receiving injuries from which she died.

The woman, who was 72 years of age, was crossing the New Haven tracks, shielding her face from the wind with her hand. She failed to notice the approach of a train and stepped in front of it.

Mrs. Ross was removed to the City hospital suffering from a broken leg and internal injuries, which resulted in her death a short time later.

DEATH AND SUFFERING IN WAKE OF COLD WAVE

Zero Temperatures Recorded in All
Parts of New England Today, but
Rapid Rise is Promised—Nine Deaths
in New York

BOSTON, Feb. 13.—The second cold wave of the winter which set in on Wednesday night showed signs of breaking today, although below zero temperatures were recorded in all parts of New England except at Nantucket and Block Island.

Northfield, Vt., maintained its place at the head of the low temperature column in the government records with Greenville, Me., a close second. It was said at the weather bureau today that an old fashioned snow storm which was raging this morning in Mississippi would bring warmer weather when it reached New England probably tonight or tomorrow.

The minimum temperatures in some New England points last night were:

Northfield, Vt., 24 degrees below

Greenville, Me., 20 below

Northampton, Vt., 18 below

Knappton, Me., 10 below

Concord, N. H., 8 below
Portland, Me., 4 below
Hartford, Conn., 4 below
Boston, 3 below
Block Island, N. I., 2 above
Nantucket, Mass., 4 above

NINE PERSONS HAVE DIED FROM
THE COLD IN NEW
YORK CITY

NEW YORK, Feb. 13.—New York today was still in the grip of its second cold wave of the winter with its temperature rising slowly at dawn, and predictions that it became much warmer before nightfall. But with the relief from the zero weather, the forecasters sounded warnings of an approaching snowstorm from the southwest, which is hourly expected to envelop the eastern seaboard.

All day yesterday and last night the temperature hovered around zero.

Death and suffering followed in the wake of the cold wave throughout the entire northeastern half of the country. Nine persons in New York city and vicinity have thus far died and many in hospitals are in critical conditions.

In all sections of New York state and even as far down the coast as Norfolk intense cold is reported.

50 FIRES IN GREATER NEW YORK
IN NINE HOURS KEPT
FIREMEN BUSY

NEW YORK, Feb. 13.—Fifty fires in greater New York between the hours of 7 p. m. and 4 a. m. drove hundreds of firemen into the zero weather and gave them one of the busiest nights in the history of the city. No lives were lost, but hundreds of persons are suffering from exposure. A fire in a six-story house containing a Turkish bath establishment and 30 families drove 200 scantly clad tenants into the street. The fire itself was trivial.

MAN FREEZING TO DEATH COLD MODERATES

Fall River Man Found Dying on
Sidewalk With Both Arms and
Feet Frozen Stiff

FALL RIVER, Feb. 13.—With the thermometer several degrees below zero, Napoleon Guimond, 35, of 402 East Main street, was found lying on the sidewalk in front of the Deval mill at three o'clock this morning slowly freezing to death. He had laid there for some hours evidently for both arms and both feet were frozen so that they were black and stiff. He was rushed to City hospital in a dying condition.

\$50,000 DAMAGE SUIT

Courtroom Crowded at Resumption
of Hearing of Charges
Brought Against Sen. Gore

OKLAHOMA CITY, Feb. 13.—T. E. March and on which her suit is based.

The witness gave practically the same testimony as Kirby Fitzpatrick who preceded him on the witness stand, relating that he witnessed the alleged attack on Mrs. Bond.

Robertson, Fitzpatrick, Mrs. Bond and D. J. H. Earg, another witness for the plaintiff yesterday all declared that they were in Washington to secure appointments to federal positions and all failed. It is the contention of Senator Gore's attorneys that the present suit is a result of a political intrigue.

James Jacobs, former democrat in national committee from Indian territory was to be called after Robertson's cross examination is finished. It was in Jacobs' rooms that Mrs. Bond alleges that Senator Gore attacked her.

As on the two preceding days of the trial, the courtroom was crowded today and even standing room was at a premium. Mrs. Gore accompanied the senator to the courtroom and sat beside him throughout the day.

Don't miss the A. O. H. tonight.

EXCITING RUNAWAY CAUSED A WRECK

Turner Centre Cream Scattered
on Bridge Street When Horse
Struck Pole in Wild Gallop

A heavy wagon owned by the Turner Centre Creamery was practically wrecked, several gallons of cream were spilled on the sidewalk, and dozens of cream bottles were broken, this morning about 8:45 o'clock, when the horse attached to the wagon became frightened on Bridge street and ran into a telegraph pole while attempting to turn into First street. The wagon was completely overturned and cream and broken glass covered the street and sidewalk in the vicinity.

The horse was left standing near the corner of Bridge and Paige streets while the driver, Thomas Brown, stepped into a store to leave an order. What caused the horse to start running is not known but it is believed that the noise of the vehicle on the frozen snow frightened the animal and he started at a rapid gallop toward Centralville.

When he reached the corner of Bridge street and Lakeview avenue, a street car conductor stood in the centre of the street with a long stick used to turn the signs on the cars in an attempt to halt the horse but as the entrance to First street was open the animal attempted to turn the corner but slipped on the street and the wagon crashed into the pole in front of Noonan's drug store. Fortunately there was no one on the sidewalk near the corner at the time when parts of the wagon and flying glass were sent in all directions.

Several men who were passing arrived on the scene and unhitched the horse from the wagon and to their surprise learned that he was not seriously injured.

The wheels and axles of the wagon were broken and the top was smashed in while the contents was a complete loss. The Turner Centre Co. was notified and another team was quickly dispatched to the spot where the accident occurred to take away what remained of the load. The wagon was removed to a carriage repair shop.

To the youngsters who came to the scene the waste of cream frozen on the street and sidewalk was the worst feature of the occurrence.

STEAMERS ICE BOUND EXPLOSION OF TORPEDOES

THREE STEAMSHIPS PACKED IN
ICE IN LAKE MICHIGAN WITHIN
SIGHT OF LAND

CHICAGO, Feb. 13.—Passengers and members of the crew of three steamships which became ice bound yesterday in Lake Michigan within sight of Chicago's business district today hoped for a shift in the wind which would blow the packed ice into the lake and allow the vessels to make port.

Two of the steamers, the Kansas and the Arizona, were enroute to Chicago from Milwaukee. They carried 20 passengers and crews numbering 40.

ESCAPED FROM PATROL

BOSTON, Feb. 13.—With seven court officers grouped about the prisoner's cage in the superior criminal court and a half dozen police inspectors sitting a few feet away, as a reminder of their thrilling escape from a municipal court prison was a few weeks ago, Charles Roman, aged 23, and George A. Ward, 23, stood last night in the cage and received a three to four years' state prison sentence for breaking and entering. A jury, out only 15 minutes, had found them guilty of breaking into the homes of Mrs. Edith M. Binney, 133 Marlboro street, and Mrs. Marietta S. Raymond, 91 Huntington avenue, and the theft of \$1300 worth of jewelry and other things.

Among the \$1000 loot secured at Mrs. Binney's was a pin reputed to have been worn by Mary Antoinette. This was among the jewelry recovered by inspectors Killea and Wiso when they arrested Ward and Roman at the latter's room on Shawmut avenue. The inspectors found a loaded magazine gun hanging at the head of the bed the two men were occupying and two more loaded magazine guns beside the men in bed. Guns and the recovered jewelry were exhibited in court.

Roman asked Chief Justice Allen for a chance to avoid state prison.

"I was 15 years old when I went to Concord, your honor," he said, "and all I learned of crime I learned there. I'll go to Deer Island for any number of years cheerfully."

ARMY CANTEN SCANDAL

WARRANTS ISSUED IN LONDON FOR ARREST OF OFFICERS OF LONDON LIMITED

LONDON, Feb. 12.—Sharp action was taken today in connection with the British army canteen scandal, when warrants were issued for the arrest of James Ness, formerly manager of the London Limited at Malta and Archibald Munro, another employee of London Limited, neither of whom appeared to answer to the summonses sent to them when the case opened.

Mr. Ness is believed to be in Canada while Munro is said to be in France. Altogether nine army officers and eight civilians, all of them employees of London Limited, have been charged

with receiving or giving illicit commissions on contracts for army canteen supplies.

KILLED BY A CHICKEN

WERNERSVILLE, Pa., Feb. 12.—

caused the death today of Daniel A. Ney, a poultry fancier of the place. Ney was feeding his chickens when one of them flew up and, escaping open a birdhouse on his forehead, before medical aid arrived he died.

AMUSEMENT NOTES

THE OPERA HOUSE

The Warner features present Miss Gene Gauntier in three roles of truly fascinating Irish drama at the Opera House today. The cast of an aristocratic and the cottage of a peasant

the love of a charming colleen and an English nobleman—intigue, treason, imprisonment and justice—all blended together in a picturesque and intensely realistic Irish love story, makes this feature one of the best that has ever been produced in the Killarney district of Ireland.

In addition to the above feature will be shown for the first time in this city, the new Kalem comedy, "Only One Shill," with a laugh in every foot of it. Ruth Roland, John E. Brennan and George Larkin, the three famous Kalem fun makers are at their very best in the hilarious farce, which must be seen to be appreciated.

spontaneous school actress who seeks a job with the "In the Veins of the Temple" company, and, of course, is an utter failure. How she decides to give up the public profession of acting is told in the piece. Her support is fully adequate. Freeman and Danham, in songs and antics, are about as clean cut youngsters as we have seen here lately. They have made many real friends during their management here. The Monetta Five, in their new musical act, are prime favorites and constitute as dainty a unit as we have ever known here, while Murray and Mason, in a little bit of overacting, are most pleasing. Other good things on the bill are: The Danlows, women gymnasts; Two Afreeds, head-to-head balancers; Vanhook and Louie, oil painters; and the Pathé weekly pictures. Just four more performances remain. The box office phone number is 28.

MERRIMACK SQUARE THEATRE
Anna Eva Fay, the world renowned artiste, will open a week's engagement at the Merrimack Square Theatre next

Monday in a brilliant demonstration of mental telepathy. This will be Miss Fay's first appearance since her return from a tour of the world. She was in Dublin, Ireland, during the great strike last December and at that time gave a special performance for Lord and Lady Aberdeen and she was pronounced an advanced pupil in the supernatural arts of the Mahatmas by them. During the coming week she will give performances for the skeptics. This class is met in every city throughout the world and they go with the expectation of getting a trap for her, but invariably when their names are called and she repeats their questions and answers they admit her wonderful powers to read their innermost thoughts. Miss Fay will appear, matinee and evening, the coming week on an all star vaudeville program which will be interpreted with many excellent motion picture plays.

THEATRE VOYONS
Most people are familiar with the

story of Daniel in the lions' den and the children of Israel in the fiery furnace, but it is now produced by the Vitagraph company of actors and can be seen in motion pictures. This picture will be featured at the Voyons for the next three days and any person who is familiar with the Bible can follow the story from beginning to end as it is being enacted on the screen. The stage settings and detail work are excellent and there is a thrill when Daniel enters and pats the lions in their den; also when the children of Israel enter the fiery furnace with flames bursting all around them. The lesson that you learned when a child and thought funniness, will be made a great deal clearer.

THE ONE THEATRE
A suicide club is formed by a band of well known men in a big city. One young man draws the fatal number and he must die on a certain night. He is in love with a young lady who reproaches the feeling, but she in turn is loved by a much older man, who on

finding out that these young people love each other decides to take his place in the suicide club. This is the plot of "The Fatal Number" in a nutshell. Many intense dramatic moments are therefore gone through in this four act play, and the acting is superb. Don't forget that the "Fatal Girl" is going through her second adventure today and tomorrow, and seeing the success of this special feature we have decided to have this picture shown twice every afternoon and evening to make sure that everyone sees it.

THE RASINO
Kasino skaters always come back. The impulse is irresistible. The music, the skates, the attention given by the instructors, the cornerless surface and the great, well ventilated hall—all contribute to ideal conditions for the exercise. Miller's brass band is making a hit with its up-to-date music. Sessions are held the last three afternoons and evenings of the week.

G.O.P. PLATFORM

Channing Cox Favors
Equal Suffrage Initia-
tive and Referendum

BOSTON, Feb. 13.—Channing H. Cox, republican floor leader of the house, came out for the constitutional convention, equal suffrage, biennial elections, the initiative and referendum and the constitutional tax amendment at the Lincoln club smoker last night.

He revealed a brand new program on the part of the republican leaders with respect to legislation. It means no opposition to several of the most bitterly fought measures of recent years in the legislature.

If the Cox program is carried out there will not even be any waiting for the constitutional convention to consider these things. In that way the program goes a step farther than the suggestions contained in the inaugural message of Governor Walsh.

Former Asst. Atty. Gen. of the U. S. William H. Lewis stated that the republican party is out in the cold and in the minority in this state and in the nation because it has betrayed the principles of Abraham Lincoln and his party.

"You grate and prattle," he said, "about this being a government of the people, for the people and by the people, but in reality it is a government of some of the people, by some of the people, for a few of the people. Where a man is denied a voice in the government there, my friends, is despotism, I don't care by which term you call it—republican or democratic."

Mr. Lewis came out for equal suffrage, and former State Treasurer Elmer Stevens said he stood by Governor Walsh in his advocacy of biennial elections.

ONLY ONE "URONQ QUININE"
To get the genuine, call for full name, LAXATIVE BROAD QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day, 25c.

THE HOUSE OF LORDS

CONTINUES ITS OPPOSITION TO
HOME RULE WITH THE USUAL
MAJORITY

LONDON, Feb. 13.—The house of lords adopted an amendment moved by Baron Middleton to the address in reply to the speech from the throne demanding a general election on the question of home rule for Ireland.

The majority in favor of the amendment was 152, the vote being: For the amendment, 243; against, 55.

The vote followed strict party lines, and showed that the discussion of home rule for Ireland which has lasted 30 years, has not changed the opinion of the tory majority in the upper chamber.

This result was expected and does not disturb the minority in the least.

MEASLY MUTTON

The bureau of animal industry of the United States department of agriculture has called attention quite recently to the extensive occurrence of sheep measles, due to a species of tapeworm derived from sheep dogs.

More than 17,000 of the sheep slaughtered under federal supervision during the year 1912 prior to Dec. 1 were found to be affected with "measles," and we are assured that as the methods of meat inspection become more efficient the number of cases detected will be relatively more numerous.

Theoretically, there is no objection from the hygienic standpoint, according to government information, to passing affected mutton for food after the parasites have been removed. No great harm can be done if a few parasites hidden in the muscles have escaped observation; therefore, the stringent regulations pertaining to the inspection of beef or pork need not apply to mutton.

The esthetic sense of consumers, however, as well as the current temperance in regard to such matters, tends toward the insistence on rigid enforcement of strict inspection and condemnation provisions. The logical way, therefore, to avoid the large monetary losses thereby involved will be to institute more rigid methods of prevention, beginning with the dogs on the sheep ranches.

RIDGWAY'S TEA, 1 lb. for 39c

We have made a special deal with Ridgway (Inc.) England, to take a large amount of their regular No. 1 choice blend of Ceylon and India Tea, owing to the fact that they are changing the style of their package, at a price that enables us to sell it considerably below wholesale cost.

Sale—1-4 lb. pkg 10c, 4 for 37c

You Are Invited

to call at our store and learn about (and try for yourself) two wonderful Pure-Food Products which are now being demonstrated in our grocery department.

MADE WITH Malted Buttermilk

These make the most delicious as well as the most wholesome cakes you ever tasted. Teco Brand Flours are self-raising, and contain a sufficient quantity of Malted Buttermilk (reduced to a powder by the famous Ekenberg process) so that no other milk is required when mixing for use. ADD COLD WATER ONLY, and the cakes are ready to eat in one minute.

We are serving these with butter and real maple syrup, and we shall consider it a favor if you will stop and try them.

"BOOST" BOSTON

Mayor Curley Punishes Bank Which Repudiated Subscription

BOSTON, Feb. 13.—Mayor James M. Curley sprung a sensation in the financial circles of this city yesterday afternoon when he announced that the city's deposits in the State Street Trust company will be withdrawn from that institution.

The mayor stated that he decided to take this action as the result of the repudiation by Allan Forbes, the president of that company, of the \$1000 contribution to the mayor's "Boost Boston" fund which was attributed to Mr. Forbes in the official list of contributors which was issued from the mayor's office.

When Mr. Forbes read yesterday morning that he had been credited with a contribution of \$1000, he wrote the mayor, stating he had not authorized it and asking that his name and the amount be stricken from the list. Mayor Curley, upon receipt of the letter, called Mr. Forbes on the phone and notified him that city funds would be withdrawn from the bank and that no more city funds would be deposited there.

Not only will Mayor Curley withdraw the city's deposits from the State Street Trust company, which aggregate, it is understood, about \$100,000, but the mayor plans to make good an announcement which he made some time ago that he will also withdraw the city's deposits from every bank in this city which he feels will not do its part to develop Boston commercially and industrially.

In all \$3000 was deducted from the fund yesterday because subscriptions were not properly authorized. The fund, however, was swollen by contributions amounting to \$1425, making a total net gain for the day of \$4575. The alleged unauthorized contributions have leaked up quite a fuss.

Not only will Mayor Curley withdraw the city's deposits from the State Street Trust company, which aggregate, it is understood, about \$100,000, but the mayor plans to make good an announcement which he made some time ago that he will also withdraw the city's deposits from every bank in this city which he feels will not do its part to develop Boston commercially and industrially.

INDOOR WORK REDUCES STRENGTH
because confining duties, lack of fresh air and sunshine gradually weaken even a strong constitution, and the enfeebled system readily accepts sickness and disease.
Scott's Emulsion checks such decline. Its pure cod liver oil is nature's grandest medicinal food while its hypophosphites act as a building tonic. It refreshes the body, puts vigor in the blood, strengthens the lungs, upbuilds the nerves and invigorates the whole system.
If you work indoors, Scott's Emulsion after meals will prevent much sickness and loss of time, and often thwarts tuberculosis—it builds up and holds up your strength.
Shun Alcoholic Substitutes and INSIST ON SCOTT'S.

50 INJURED IN CAR CRASH

BIG SEMI-CONVERTIBLE PLUNGED INTO SMALLER CAR AT SALEM LAST EVENING

SALEM, Feb. 13.—Two women passengers and a motorist were seriously injured and 50 others received minor cuts and bruises when a heavy semi-convertible Salem bound car, No. 1212, crashed into the rear of a car ahead on Highland avenue about half a mile from the high school early last evening.

Miss Mary E. Linahan of 25 Highland park, Danbury and Mrs. Mary Shawlow of 4 Blaney street, sustained severe bruises about the head and possible internal injuries. They were removed to their homes.

Motorist William Shuggerly of car 1212 had his leg crushed and was taken to the Salem hospital. The other passengers were transferred to another car. Both cars in the collision were wrecked.

ROOSEVELT FOR GOVERNOR

SUGGESTED AS PROGRESSIVE CANDIDATE IN COMING NEW YORK ELECTION

NEW YORK, Feb. 13.—An entire progressive ticket will be placed in the field at the New York state elections next fall. The state committee of the national progressive party decided upon this unanimously at a meeting yesterday. Theodore Roosevelt was suggested as the progressive candidate for governor.

The former president was not mentioned by name, but was referred to by John S. Van Duser of Elmira, who launched the boom for "the gentleman in South America."

As in everything else, originally counts in hunting jobs. A few years ago a manager for a wholesale saddlery and harness concern lost his job and wanted another. In the same line of work. He placed a page advertisement in a journal largely read by the saddle and harness trade. This advertisement recited the applicant's qualifications, his past record and his experience as to salary. Though the advertisement cost him more than \$75, it gave him his choice of three offers at a compensation 10 per cent. higher than the place from which he had been dismissed.

A street cleaner who had decided to get into something new, made his Indianapolis in the middle of winter looking for a job. He spent two weeks in inquiry that proved fruitless. Then he went to the proper city official and secured a street cleaner's license to work on.

EARNEST JOB HUNTING

As in everything else, originally counts in hunting jobs. A few years ago a manager for a wholesale saddlery and harness concern lost his job and wanted another. In the same line of work. He placed a page advertisement in a journal largely read by the saddle and harness trade. This advertisement recited the applicant's qualifications, his past record and his experience as to salary. Though the advertisement cost him more than \$75, it gave him his choice of three offers at a compensation 10 per cent. higher than the place from which he had been dismissed.

Have You Stomach Trouble? Is Your Liver Out of Order?
Lassitude—undue fatigue—sleepless nights—low spirits—poor appetite—nervousness—a general feeling that there is nothing good or worth while in the world—are indications that your stomach, liver or bowels are not working naturally.
With your system in its present condition you are very apt to be laid low by more serious ills. Now is the time to right the wrong. Now is the time to bring to your aid
Dr. Pierce's Golden Medical Discovery
(In Tablet or Liquid Form)
This wonderful remedy helps to restore stomach to its natural health and strength and to secure proper flow of the digestive juices, a good appetite and full digestion of the food you eat. It invigorates the liver, regulates the bowels and purifies and enriches the blood.
Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. You can take it and be certain you will find it a true blood-maker, tissue-builder, and restorative nerve tonic, and that it will produce no evil after-effect. Thousands—probably many of your own neighbors—are willing to recommend Dr. Pierce's Golden Medical Discovery because it has made them stronger in body, brain and nerve.
You can get Dr. Pierce's Golden Medical Discovery in tablet or liquid form from dealers in medicines—or send 50 cent stamps for a trial box of the tablets.
Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.
Dr. Pierce's Common Sense Medical Adviser—a great doctor book of 1003 pages, cloth bound—answers many important questions regarding sickness. Your free copy will be sent on receipt of 31 one-cent stamps to pay wrapping and mailing charges from Dr. Pierce's Invalids' Hotel, Buffalo, New York.

After 5 Years' Successful Business

At 24 Central St., Lowell

I am Notified by my present Landlord, Mr. Nelson, that I must vacate not later than MARCH 1st. The transformation scene between Mr. Nelson and Mr. Chalifoux announced in last week's papers includes my store as my lease expires February 15, this month.

REMOVAL SALE

I must move and I promise not to carry one yard of my present stock to my future home. Everything must be sold during the next ten days. These goods are all new fall and early spring weights, in grays, browns, fancy mixtures, blues and blacks and all the neutral shades. Not a yard of cloth in stock Feb. 1 will I carry to my new store.

MEN OF LOWELL! Here's something to think about and act upon. Here's a genuine removal sale of good cloth made into custom garments that sets a new record in value giving. Here's a chance to get whatever you want in a suit at a smaller price than you've any right to expect, made any way you want. Three-piece suit, no restrictions on length of coat or size of person ordering—the large man is as welcome as the small.

My doorway will be filled with cuts of these suitings which comprise my stock on hand Feb. 1st, this year. (The price for any style will be

**Suit or Overcoat
To Order**

\$9.00

WILL BE THE FINEST EQUIPPED TAILORING PLANT IN LOWELL. THE LOCATION I CANNOT PUBLISH TILL NEXT WEEK, AS THE PAPERS ARE NOT YET SIGNED. MY LEASE WILL CALL FOR 8 YEARS. LOOK FOR MY ANNOUNCEMENT NEXT WEEK.

LOWELL PLAYERS SIGN UP

Club Rounding Out—Two Positions Remain to be Filled—New Pitcher From Pacific Coast

In spite of the present frosty atmosphere, we beg to inform you fans of the fact that before a couple of months have passed away the pitchers who will form the firing line for Manager Gray this year will be resting right here in this barge of ours, and that the rounding out of the Lowell baseball club will be on. Always provided, of course, that there comes a break in the weather between now and that time.

The pitchers who will report here on the 12th of April and who have already signed up are some of them from the staff of last year but the majority of those who will loosen up their whips at Spaulding park will be seen in action for the first time by the local fans.

Pete Wood Signs

The signed contract of Pete Wood was sent in this week to the club headquarters. Along with the contract came a note from the brother of "Smoky Joe" in which the big fellow alerted that he was sure to burn up this circuit next season. If Pete just forgets for a few minutes that he is the brother of "Smoky Joe" he will do much better work on the mound and perhaps will do it without so much frustration.

He uses his head for the most part and depends upon a slow ball more than upon speed. Maybalm is one grand chap personally, and we hope to see him come back this spring with his warbag full of new tricks.

Memphis Pitcher

Then there is still Memphis to be heard from. The understanding was that Jimmy Gray should have a pitcher in return for Lavigne but that the pitcher must prove satisfactory to the Lowell manager or another one would be forthcoming. Inasmuch as the Memphis club will have to bear the expense of transportation in the event of their man not suiting Gray it is altogether probable that the pitcher sent on at first will be well worth his salt to the Lowell management. If you remember this was the same sort of deal which was made with the Milwaukee club when Elmer Harris was sent to that city. Old Reliable Matty Zieher was sent on here and we all know how Matthew acquitted himself before jumping to the Red Sox.

Shank, the man from Annapolis, Pa., whom Eddie Miller recommended, is highly recommended by the Lowell management. Besides these pitchers mentioned there are several youngsters on the lists who will all be

given a thorough workout in the pre-season games.

The Backstop

Behind the bat Thomas and Waycob will, in all probability, do the bulk of the catching. Waycob wrote on yesterday to Manager Gray from his home in California. Said the former Witchita, Kansas, backstop, "I don't want to go out of the west but suppose I will have to as long as I have been sold to your club. However, I shall play hard baseball for you, Mr. Gray, providing that I determine to go to Lowell. There is just one thing that I want you to do. Your contract is very generous, but I would like to have you send me my expenses for the journey both there and back." Manager Gray sent a letter off posthaste telling Waycob that his conditions would be met.

Kelley For First Base

Kelley, the youngster procured from the New York Americans, is the player who is slated to hold down the initial sack this year. Kelley is said to be a wonder and Arthur Egan, scout for the Yankees, wrote on that if Kelley did not succeed he would return the purchase price to the Lowell club and take up the player. This action certainly shows that the New Yorkers have faith in his ability and it would not be surprising to see him spring a sensation on the "Little Oh" league.

Two Positions Vacant

With DeGroot in right field and Burke, the other man received from Wichita in exchange for Clemens, in center field there remains but two positions which are not certain to be filled by players with a reputation for speed, hitting and fielding ability. It is a club that the Rubs has at least one more good season left in him and from all accounts Burke is a wonder. The latter can play either the infield or outfield.

Therefore left field and second base have got to be taken care of by either some of the promising rookies or by players who Manager Gray will pick

DOPE AROUND CIRCUIT

Federals After Several New England Leaguers—More Umpires Signed—Other Baseball News

Manager Gray of the Lowell baseball club has gone to New York along with the influx of the major leaguers into the metropolis. The Lowell baseball club expects to pick up several promising players who will be left out in the cold when the final lineup of the teams in the two big leagues is decided upon.

Baseball in Lewiston

League games in Lewiston on all days except holidays will be started at 2:15, according to the present plans. The time for calling the game is one of the most important considerations in the policy of the club and has been given serious attention by the baseball committee in their discussion. Taking schedules of the trolley lines, the length of the game which is slightly

under two hours, the management at present believes that time to be the most desirable. The time has not been chosen arbitrarily, however.

Pleper Candidate

Mgr. Louis P. Pleper of the Lawrence team has signed contracts in his possession to feel perfectly at ease—except pitching material, says the Lawrence Tribune. He has but two fingers in line and both are rookies. Three of last year's string have yet to come across, although Fuller sent word a few days ago that his contract would be here in a few days. Bragg and Layster are the other veterans who have not signed up.

have his troubles getting a postscript or the equal of Marlin, but he hopes to secure one from the Boston Red Sox and already he has conferred with President Joseph J. Lannin in regard to the matter.

Of the pitchers, Ripple from New York city, who he worked in the semi-pro ranks, George Egan, also of New York, was recommended by Arthur Schless, Pat Martin recommends Joseph Campbell of Jamaica, N. Y., while Larry Mahoney is sponsor for John Cogan of Cambridge.

Frank Bragg will be behind the bat. Manager Pleper will not use him in the outfield. Galtin and Baxter, who did backstop work here last season, will be back. Leachy and Kelly, two semi-pro boys, are signed. Mr. Pleper expects at least one other backstop candidate. He may also get a receiver from the Montreal club of the International league.

Three More Umps

Secretary Cooper of the New England league, has signed Umpire Doherty of the Eastern association for the coming season. Doherty was one of the umpires who worked in the Lowell Hartford championship series, and with the exception of the first battle, performed satisfactorily. He is well liked in the Eastern association, and it is said that he has been secured by the New-England league because of a better money offer. "Pat" Lannan of Providence, R. I., and John Black of Camden, N. J., formerly of the Tri-State league, are other umpires who have been hooked up.

at shortstop, and in 22 games in the outfield his average was .910.

Kilhullen for Reds

Feed Lake's Pittsburg team is apt to be hit a hard blow by the Federal league if the report from Scranton, Pa., is true. According to reliable information from that section of the country, Joe Kilhullen, who last season caught for New Bedford, will sign up with the Federals. Otto Krabe, manager of the Baltimore team, in the man who would like to have Kilhullen join his team and he has asked Joe to come to Baltimore and talk it over. Kilhullen is reported to have stated that Lake did not treat him right last season and that Lake had a chance to sell him to either Jersey City of the International league or Oakland of the Pacific coast league. Joe must be talking through his hat, or else his friend has got the dope badly mixed, for Lake had nothing to do with the New Bedford team last season. Lake was acting as scout for the Detroit team last season and John O'Brien was manager of New Bedford. Joe must want an excuse to jump.

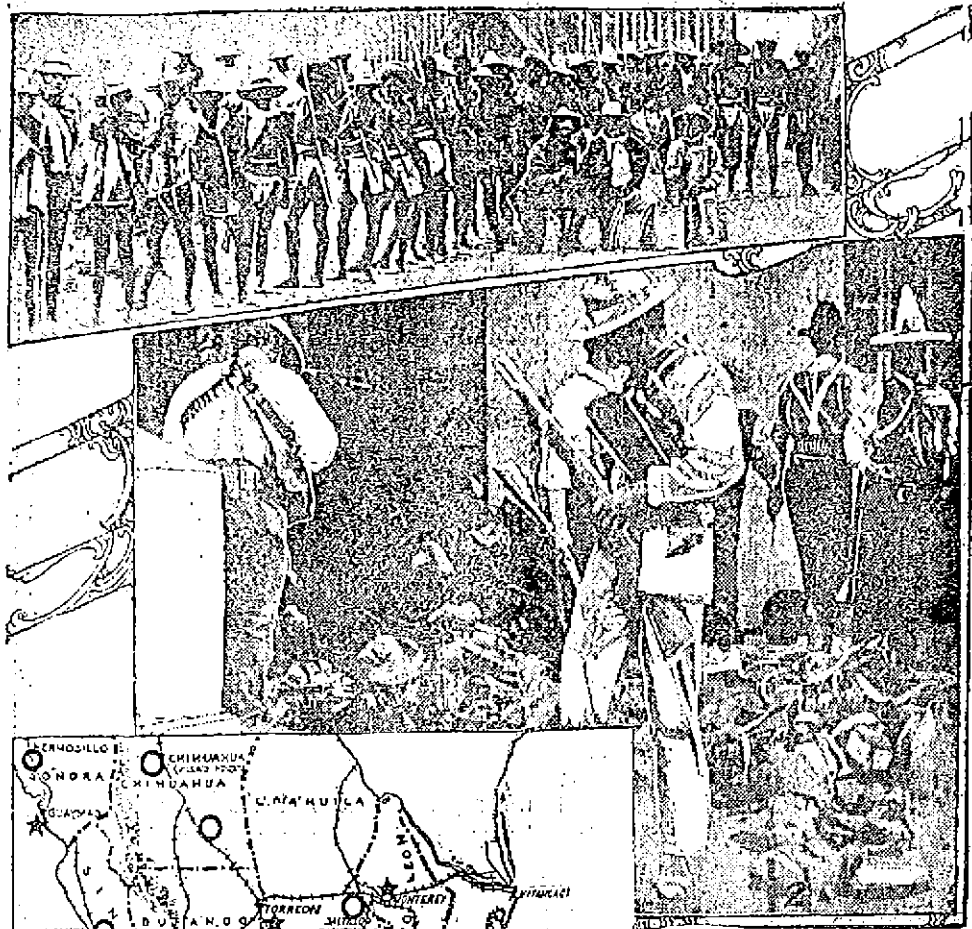

IN SACO-LOWELL LEAGUE

The team standing and the individual averages in the Saco-Lowell bowling league are as follows:

Team standing:			
Team	Won	Lost	P.C.
Shop	24	16	60.0
Draftsmen	21	19	52.5
Pattern Job	20	20	50.0
Shoppers	20	20	50.0
Office	16	24	40.0

Individual averages are as follows: Marlin 72.4, Demers 72.0, Marshall 71.1, Thurber 70.1, Troux 69.8, Monahan 69.1, Murray 68.5, Blount 68.2, Sharps 67.5, Shaw 67.2, Grant 66.9, Silcox 66.5, Lane 66.5, Flannery 66.1, McEltrick 65.5, Woodman 65.6, Hartwell 65.5, Lincoolt 65.1, Woodley 64.5, Forrest 61.6, Conley 61.3, Queenan 61.2, O'Neill 61.1, Baker 61.1, Curry 61.1, Brock 61.1, Judd 60.5, Collins 60.2, Welcome 60.1, Conroy 59.3, Gohart 58.2, Deshautes 58.1, Boardman 58.1, Hammond 57.1, McNulty 56.5, Phaneuf 56.6, Johnson 56.6, Conley 56.6, Soule 73.3, Desmarais 73.3, Taylor 74.3.

SCENES IN WAR TORN MEXICO AND MAP SHOWING CITIES HELD BY RIVAL FORCES

1 TROOP OF YAQUI INDIANS 2 REBELS ARMING THEMSELVES WITH FEDERAL GUNS AND AMMUNITION

MEXICO CITY, Feb. 12.—New complications are arising daily to add to the trouble of President Huerta. On

DIDN'T FORGET THEIR MOTHER
Oil had just been struck on the rough quarter section of Oklahoma farm land which for 10 years had yielded only a scant living for the rugged settler, his wife and their four boys. Now, just about grown. While the mother busied herself with the dinner for the drillers, the father and his sons stood near the

flowing well and indulged in a discussion as to how they should spend the newly acquired wealth.
"I'm a-going to take a trip to Chicago and Niagara Falls," the oldest boy declared.
"I'll take a trip to that horse and buggy Jason was offering for \$200 last week," the speaker doubtless hadn't forgotten the pink cheeked daughter of

els, which was a most serious blow to the federals, comes the announcement that the Yaqui Indians have gone on the warpath in the western section of the country, and, as Carranza's forces are in control of part of the territory threatened by the Indians, the situation is a difficult one for the national government to handle. The Yaquis number many thousands and are relentless slayers when aroused. The illustration shows a group of fighting Yaquis, a scene in Juarez, where Villa's men are shown arming themselves with rifles and clips of cartridges taken from the federals and a map of the war zone indicating what cities are held by the federals and the rebels.

the nearest neighbor.

"Now, boys," the father expostulated. "Boys, don't be forgettin' your maw. Ies, you remember boy she's played for all of us these years. We mustn't forget to provide for her."
"Course we won't forget maw," replied the youngest lad. "We'll provide for her—we'll get her a new ax."—Kansas City Journal.

MIDDLESEX STREET CROSSING

It is well that the board of trade and other interested bodies representing the business and civic life of Lowell should be well represented next Saturday at the hearing to be given in this city before the commission on grade crossings. The commission has been created to hear arguments from those communities that already have petitioned or are about to petition for the abolition of such crossings, as to the reasons for the request, and its members should be given a correct impression of the public view in this regard. Public hearings usually do not always bring out a proper expression of public sentiment and though their failure is not taken as indicative of the merits of the question under consideration, it undoubtedly creates a bad impression, and dampens the enthusiasm of those who are striving to achieve any fixed purpose.

As President Harrington of the board of trade stated at the recent meeting of the commission on municipal affairs, highways, transportation and public utilities, even should the commission be favorably impressed with the arguments put forth by the citizens of Lowell as to why the Middlesex street crossing should be abolished at the present time, it would in all probability be many years before the work would be accomplished. Owing to the present financial embarrassment of the Boston and Maine it will frown at anything involving of unusual expenditure, but its attitude should not be permitted to affect the merits of the case. Were the commission to decide that the crossing should be abolished as soon as possible, the city would not be unreasonable with the railroad, but would take a consistent stand with regard to the time of starting the work of reconstruction that the change of the crossing would necessitate. What is really necessary is that the undesirability of the crossing be brought home to the commission, although on this point no argument would seem to be necessary. What the company has done for Lynn and other cities it should not refuse to do for Lowell.

The arguments for the abolition of the Middlesex grade crossing have been alive so often that they are known to the man on the street, but they will come of themselves to anyone who ponders on the effect of the crossing on that section of the city which has to bear with it. The crossing is out of date and out of keeping with the character of the city; it is dangerous; it impedes traffic; it keeps property values in the vicinity low; it prevents the development of Middlesex street; it is an eyesore from the scenic point of view; it gives a bad impression of Lowell to the thousands who pass through going north or south daily. These arguments and many others are sufficiently important to warrant the commission in favoring its immediate elimination. It is for the best interests of those who regard the abolition of the crossing selfishly or unselfishly to go to the hearing on Saturday and present their arguments forcefully, intelligently and convincingly.

CAR SHOP EMPLOYEES

Lowell has had a great deal to say more or less officially about welcoming the hundreds of workers to the new car shops of the Boston and Maine in North Billerica and making them feel at home in their new surroundings, but it is to be feared that the preparations for them have been rather inadequate. Unfortunately too much was left to the initiative of the workers themselves, and though there were registers of available tenements and other necessities, it has been forgotten that the most complete and scientific lists cannot quite atone for the city's apparent lack of interest. One who has lived in the domestic atmosphere of a New Hampshire community will not make up his mind readily about taking up a home here for his family, and even should he desire to live here immediately, it is impossible for him to decide at a moment's notice in which section he ought to reside. There are many other considerations to be considered besides the mere fact of finding a home. The skilled mechanics who have come here from Keene and Concord are a valuable addition to the community and it will be to the advantage of the city to make suitable arrangements for them and for their families. With the present difficulties of the school department and the inadequate school accommodation for our own children to some quarters, the city will have a little trouble in making suitable arrangements for giving school accommodation to the children of the newcomers. Like the housing problem this school question offers a difficulty that has not been satisfactorily met thus far, and there is room for activity regarding it. Anything done for the accommodation of the fine trained body of men who will make such a notable addition to the population, numerically, socially and industrially, will not be done as a favor but as a debt which Lowell owes to all who come here to swell the ranks of our law-abiding citizens. Railroad men are essentially domestic in their nature and those who

have come to stay will be permanently grateful for any interest which Lowell may show in aiding them to settle here with their families under conditions as favorable as those they leave behind them in New Hampshire.

NATURALIZATION IMPRESSIVE

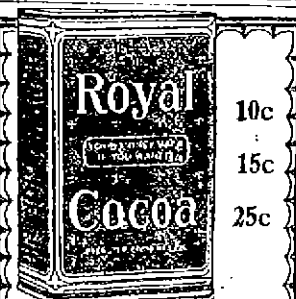

The Lynn News calls attention to the fact that the manner in which citizenship is bestowed upon aliens who have taken the preliminary steps towards naturalization are not much calculated to give them a high regard for the great dignity bestowed on them by the state. Added to the lack of ceremony or dignity is the fact that those who apply for the high privilege are frequently prompted and assisted by wise politicians who make the first consideration of citizenship the ability of him who receives it to vote for his shrewd benefactor. It is not singular that those who thus add themselves to the ranks of American citizens should occasionally regard their acquired dignity too lightly.

In this city there is not only a lack of the dignified formality that should surround the granting of the privilege of citizenship, but the sessions are irregular enough to lead the average man to believe that a naturalization session is squeezed in every little while when other state matters get dull. There is little advertisement of the fact, and poor arrangements are provided for those who apply for first or second papers. It is not unusual for a man to wait several hours round the corridors of the court house in company with others, waiting for the time when the papers are bestowed on him with little ceremony.

If this system is democratic, it is not wisely democratic. There should be some appropriate ceremony surrounding the granting of citizenship papers which would impress on the mind of the applicant that the honor is no light one. In Salem recently fifty men who were eligible to receive their final papers were gathered in the high school hall and were addressed on the privileges and duties of citizenship by former District Attorney White. Following this dignified talk, the papers were presented with appropriate formality. Exercises such as this would go far towards impressing on the mind of the newly made citizen the meaning of the serious ceremony of bestowing citizenship on aliens.

CANNOT FORCE COMPETITION

Arguing that the administration anti-trust program is not drastic enough to be effective in applying the terms of the Sherman act to business, the progressives at Washington are advocating some important changes, embodying differences from the proposed measure in degree rather than in principle. Among the tenets published with a great flourish is that there should be no attempt to force competition. Surely at this stage of the game the government knows only too well that any action to "force" competition must be negative. Competition cannot be forced, and it should not, even if it were possible. If there are monopolists that consciously restrain trade for selfish interest they are opposed to the spirit of the Sherman law and the proposed law sanctioned

by President Wilson, and they should be curtailed or prevented. Competition would naturally follow in many lines, but it cannot be forced. You cannot compel great industries to compete but you can compel them to refrain from killing competition. This is all the government is striving to do, and if it succeeds, it will have worked wonders.

BUSINESS SUPPORTS CURLEY

One of the most remarkable movements started in an important municipality by a new mayor in recent years is the "Boost Boston" movement which Mayor Curley has started on a basis of co-operation that is as inspiring as it is apparently practical. With his characteristic initiative and courage the new executive called a meeting of the heads of Boston's financial, political, industrial and social life together and after pleading for unified effort, he inaugurated a campaign to raise a million dollars for the purpose of making some gigantic improvements and inducing outside industries to locate in Boston. His appeal was responded to generously and in half an hour almost \$50,000 was raised as a nucleus for the fund. The significant thing about the movement is that many of the financial and commercial leaders who have thrown themselves into the movement with enthusiasm were opposed to the new mayor strongly throughout the last campaign. He has already done much to beat down prejudice and to show that he is possessed of the courage of his convictions.

FOR SALE

If one watches the papers closely these times he may be able to get a good bargain in wives or brothers or sons and daughters, for selling off members of families is becoming quite popular. Once a week at least some newspaper advertises the fact—or the newspaper says she does—that she will sell two perfectly good children almost as good as new, to the charitable disposed. A few weeks ago an ambitious woman in Waltham having failed to

SUFFERED SEVERELY WITH ECZEMA

Broke Out in Blisters. Clothes Irritated It. Wanted to be Scratching All the Time. Cuticura Soap and Ointment Cured.

Pine Street, N. Sedgewick, Me.—"I had a little girl baby who suffered severely with eczema when about five months old. She broke out in what looked like blisters as big as a pin-head and then they all ran together. Her clothes irritated it where she rubbed and she kept scratching and made awful sounds when she would scratch her stomach. If she put her little hands on her face and legs the places would also break out just the same way. She wanted to be scratching about all of the time. Her little stomach was all raw soon. She couldn't sleep at times; she would wake up and cry."

"I tried sweet cream and cold cream, talco and I was given some powder to put on her. I began using it and the baby began to cry a good deal of the time. So I happened to read about Cuticura Soap and Ointment and I bought one cake of Cuticura Soap and one box of Cuticura Ointment and they cured her in one month so she is all well." (Signed) Mrs. Bernice Carter, May 7, 1913.

A single hot bath with Cuticura Soap and a gentle anointing with Cuticura Ointment are often sufficient to afford immediate relief in the most distressing cases of skin and scalp diseases when all else fails. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address—Mail-order "Cuticura," Dept. T, Boston.

Get Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverish life and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that fine, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine downy hair—now hair—growing all over the scalp.

Sold everywhere. In boxes, 10c, 25c. No woman should fail to read the valuable directions with every box.

make a boarding-house pay, tried to sell her husband, but strange to say, there were no bargain hunters. And prospective husbands are scarce, too, they say. Being a sensible woman she made the best of the matter by deciding to keep him, so she went back to the boarding-house business. These are great times for the friendless who have money enough to pick up some of the real bargains in slightly damaged families that are advertised from time to time.

The New Haven railroad paid rather a high figure, it seems, for the purpose of "collecting sentiment." The road would find it quite easy to collect sentiment at present, but it would not pay much for it. There's sentiment and sentiment, and the kind that now overstocks the market is not the right variety—from the New Haven's point of view.

If there is anything in the Darwinian theory, the people born a few centuries hence will either have no legs or have them appended as mere ornaments. With the increase of electric cars, automobiles, elevators and other mechanical means of conveyance, legs are becoming unnecessary as means of locomotion.

The citizens of Lowell must not sit back in smug complacency and let the board of trade or other organization do all the work. Civic bodies do their greatest work in showing the rest of the community what they ought to do in order to achieve something.

The one quality that is not lacking in higher political circles these times is courage. If we may take the examples of the president at Washington and the chief executives of Boston and New York as typical.

To the chronic kicker it is well to apply the following old Irish proverb: "The man on the fence, is always the best hurler."

We have heard a few preparatory growls to remind us that March comes in like a lion.

We take our hats off to the ground hog as a weather prophet this time.

Seen and Heard

The state house reporter of the Boston Traveler-Herald pays the following compliment to Rep. John J. Gilbride of this city: "Representative Gilbride of Lowell, as clerk of the committee on election laws, finds that his committee is one of the busiest on Beacon Hill, but he has aroused favorable comment by his colleagues on the committee by the way he 'eats up' work."

Just received a postal from our mutual friend, Donald J. MacDonough. "Chief Clerk" is in Frederickton, N. B., or was a few days ago, and hopes what he had to say about the capital of New Brunswick: "Shedd park has nothing on the streets here for a skating rink. They're so slippery that it's hardly worth one's while getting up one falls so often."

Mr. Frank Duggan, the genial and

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutriment for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by a hot foot, hot water bags, etc., lulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutriment of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia, and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.

trustworthy insurance man, reminds us of the fact that Nathan Crosby who succeeded Joseph Locke and preceded Samuel P. Hadley as justice of the local police court, had the same birthday as Lincoln. Judge Crosby was born in Sandwich, N. H., February 12, 1793 and graduated at Dartmouth college in 1820. He was appointed justice of the Lowell police court in April, 1846 and died in February, 1885.

The following relative to Judge Crosby's appointment to the police court bench, is from Cowley's history of Lowell:

"Since his elevation to our police bench, Judge Crosby has mitigated the asperities of law with the amenities of literature."

The story of the \$100 bank book is known to a few, and it is worth telling to many, particularly young men who are thriftless or who are complaining that there is no chance for a young man to get ahead these days.

This bank book was started in 1891, which was not very long ago as men look back upon time today. It was started by a young man who had a responsible position in a factory. He was paid a salary of \$20 a week, which was a very good salary. But he found that he was no better off at the end of the week than at the beginning. He was spending as fast as he was making.

He made a New Year's resolution to start a savings bank account. He deposited \$10, one half his weekly salary. The next week he deposited another \$10, and the third week \$5. The fourth week he deposited nothing at all, and likewise the fifth, sixth and seventh week. The eighth week he began to draw money from the bank and he continued to draw a little at a time until his balance was reduced to about \$1. Then he once more realized that his money was slipping through his hands like water through a sieve and he once more determined to build up a savings bank account.

This time he added to his determination an ambition to invest his savings in some business enterprise. So he began to save money from his weekly salary once more, and he put his savings into the bank. When he had \$30 he invested it in his first business enterprise, in the very industry in which he was employed, got in any get-rich-quick scheme or something else that he didn't know about. He put his money where he could see it, and control it, and he watched it grow. That \$30 invested has grown into a big business today.

When the young man got well established in business, to look \$100 from his profits, and put the money into the savings bank, and the amount was entered on the book that he started when he was working on a salary, and was trying to save a little money so that he would be better off at the end of the week than at the beginning. He put this book into his safe, and he keeps it there. He looks it over when things look dull, and he gets new courage from it, for he believes that if he struggled through those first hard days of saving he can struggle through any of the difficulties of his business today. When any pessimistic persons stop in his office, and complain that there is no chance for a man with little capital today, he pulls out his bank book, and presents it as material evidence that there is still a chance for the man who is willing to work and to save.

LINCOLN THE MAN OF THE PEOPLE

When the North-Mother saw the whirling wind, the lightning and the thunder, she left the heaven of Herod and came down to make a man to meet the mortal need. She took the tried clay of the common road—Clay warm yet with the genial beat of life of earth. Dashed through it all a strain of prophecy: Tempered the heap with thrill of martyrdom, and leaved it with the sear of loss. Then mixed a laughter with the serious stuff. It was a stuff to hold against the world. A man to match our mountains, and the stars to look our way and honor us.

The color of the ground was in him the red earth; The tang and odor of primal things: The rectitude and patience of the rocks; The gladness of the wind that shakes the corn; The courage of the bird that dares the sea; The justice of the rain that loves all things; The pity of the snow that hides all scars; The loving kindness of the way-side flower; The tolerance and equity of light. That gives us freely to the shrinking weed As to the great oak flaring to the sky. To the grave's low hill as to the Matern-born. That shoulders out the sky.

And he came. From prairie cabin led to capitol. One fair ideal led our chieftain on. For evermore he burned to do his deed With the fine stroke and gesture of a king. He built the rail-pole as he built the state. Tearing his every strength through every blow. The beneficence of him testing every stroke. To make his deed the measure of a man. So came the captain with the mighty heart: And when the step of Earthquake shook the house. Wrenching the rafters from their anchor. He held the ridgepole up, and splined again. The rafters of the home. He held his place. Held the long purpose like a growing tree. Held on through blame and faltered not at praise. And when he fell in whirlwind, he went down. As when a kindly cedar green with boughs. Goes down with a great sigh upon the hills. And leaves a lonesome shape against the sky.

EDITORIAL COMMENT

SPLITTING HAIRS
New Bedford Standard: Governor Walsh is right in insisting that men whom he appoints to the bench must be gentlemen, but there is the reason why he should name himself as being this requirement, since judges appointed by other governors have as a rule been gentlemen, and Mr. Walsh demands the only gentleness he admitted to the practice of law it would have been more to the point.

QUIET NEEDED
Woonsocket Call: The Norris resolution commands the interstate commerce commission to probe the New Haven and extend that if it is declared itself unable to go. What is all this for? What is to be gained? The talk about getting something that the New Haven is doing sounds like a far cry. What the

New Haven needs is a period of quiet, and it needs it badly.

THE GRAPPLERS
Lawson Journal: Col. Goethals' first movement on assuming command of the Panama zone is to suspend men charged with grafting. John Burke, chief of the commissary department was first to be suspended and other men were placed in charge of the various bureaus in that department. The United States attorney at New York has secured evidence and the grafters are to be prosecuted. Let the good work go on.

COST OF LIVING

Lawrence American: Are there not too many middlemen? Do not some of them get more than a fair profit? Is there not an unnecessary multiplication of "in-between" interests? Masses of people are engaged in honest, hard-working livelihood at hand-dling food. To curtail the system would throw many of them out of what they regard as a just occupation. In a sense they may be parasites in that their services could be dispensed with, but as yet no effective method of simplifying the distributive system has been devised.

THE DRUG HABIT

Burlington Free Press: The arrest of the New York manager of Park run,

Davis & Co., for sending heroin through the mails is drastic action. But drastic steps are needed to stop the sale of a drug the ravages of which are said to be appalling.

WHAT SAYS HARMONY
Portland Express: Isn't it about time again for some part of New England to come forward with a first-class ghost story? For a long time now we have had a real good Yankee spook.—Boston Globe.

"Aah!" Thought that windmill story was pretty fair, but if you insist on a ghost yarn guess it can be fixed up all right a little later.

\$8,000 IN GEMS STOLEN

CHICAGO, Ill., Feb. 13.—Unsel diamonds valued at \$8,000 were stolen yesterday from a carriage which stood in front of the store of a West Side jeweler.

The jewels were the property of Bernstein & Co. of New York city. The diamonds were in a valise which was left in the vehicle when S. P. Bernstein, a member of the Eastern firm, entered the retail store.

Two men seized the hand bag and

U. S. SENATOR GORE NOW ON TRIAL, AND HIS WIFE WHO WILL AID HIM

Senator and Mrs. GORE
© BY AMERICAN PRESS ASSOCIATION

OKLAHOMA CITY, Feb. 13.—Trial of the \$50,000 damage suit of Mrs. Minnie Bond of this city against United States Senator Thomas P. Gore of Lawton has been opened here. Mrs. Bond charged that the blind senator seized her hand, broke her glasses and cut her cheek in attempting to force his attentions upon her in a hotel room in which she had received him for a conference regarding a political appointment she wanted for her husband. Senator Gore denies each allegation, and his attorneys have taken depositions which indicate that they will question Mrs. Bond's reputation for veracity. Mrs. Gore, the attractive wife of the blind senator, will be called as a witness for him. She asserts her belief in the senator's innocence and denies the truth of the rumor that she will seek a separation from him at the close of the trial.

TOBACCO PLANTS

Afflicted With Mosaic Disease Should be Removed From Field

A serious disease to tobacco plants, which often greatly damages the crop, has been carefully studied by scientists of the department of agriculture. The department has just issued an extensive report describing the nature and

symptoms of the disease and such methods of control as have been found effective. Careful experiment has shown that certain insects spread this disease, and in greenhouses, plants screened with fine cloth and fumigated with a nicotine paper were kept free from it. In the field, the only method of control at present available seems to be the prompt removal of all plants infected with the disease. Laborers in the operations of weeding, suckering and topping tobacco plants may readily communicate infection from diseased to healthy plants, for if healthy plants are brought in contact with the sap of diseased plants the malarial is apt to develop. This is in addition to the spread of the disease by insects, and as the infection is so readily carried it is evident that infected plants are always infection

Old People Need A Bowel Stimulant

The Ideal One is a Mild Laxative-Tonic That Will Keep the Bowels Gently Active

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to promote digestion. Some help can be obtained by eating easily digested foods and by plenty of exercise, but this latter is likewise most difficult for the elderly. One thing is certain, that a state of constipation should always be avoided, as it is dangerous to life and health. The best plan is to take a mild laxative as often as is deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physics pills and pills be avoided, as they do but temporary good and are so harsh as to be a shock to a delicate system.

A much better plan and one that thousands of elderly people are following is to take a gentle laxative- tonic like Dr. Caldwell's Syrup Pepsin, which acts as nearly like nature as is possible. In fact, the tendency of this remedy is to strengthen the stomach and bowel muscles and so train them to act naturally again, when medicine of all kinds can usually be dispensed with. This is the opinion of many people of different ages, among them Mrs. Mary A. P. Davidson, of University Mount Home, San Francisco, Cal. She is 78 and because of her sedentary habits had continual bowel trouble. From the day she began taking Dr. Caldwell's Syrup Pepsin she has had

MRS. MARY A. P. DAVIDSON
no further inconvenience and naturally she is glad to say kind things of this remedy. A bottle can be bought of any druggist at fifty cents or one dollar. People usually buy the fifty-cent size first, and then, having convinced themselves of its value, they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Elderly persons of both sexes can follow these suggestions with every assurance of good results. Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. H. Caldwell, 115 Washington Street, Monticello, Ill. A postal card with your name and address on it will do.

REMOVE STUMPS

The Problem of Clearing Land—Burning, Blasting and Other Methods

The problem of clearing logged-off land is an important one in New England, and although much of the farming is done upon land formerly occupied by forests, but little information regarding methods and costs of preparing land for the plow has been recorded.

Removing stumps by hand has proven a slow and costly method, and the principal up-to-date methods are burning, blasting and pulling, or some combination of these. Burning is considered the best way of removing pine

stumps, which have a large amount of turpentine, as this greatly assists in the process. The common method of burning, which is rather slow and may be hastened by boring a slanting hole through the stump from the opposite side of the fire hole, is to dig a hole about 12 inches deep with spade or post-hole digger on one side of the stump, as close as possible, and to use this as a furnace for firing the stump. In digging these holes it is necessary that the dirt be removed from as much of the surface of the stump as possible, so as to allow the fire to come in direct contact with the side of the stump for at least six inches. Special machines, known as stump augers, are provided for boring.

Other methods of burning are to split the stump with a charge of powder and then, kindle a fire in the hole thus made, and charring or picking. The latter, which consists essentially of keeping a smoldering fire around the base of the stump, is reported to be very economical for large stumps. One authority states that removing stumps by boring and burning is decidedly cheaper than by any other method, and as it requires only a small expenditure for machinery, practically no repair bills, and can be operated by a single

individual, it ought to appeal strongly to the smaller farmers of New England.

Scarcely anyone undertakes to clear even a small tract of land without the use of explosives. The common method is to bore a 11-2 inch hole from the surface of the ground diagonally downward for 10 to 20 inches and to insert in this from one-fourth to one pound of dynamite. This amount will shatter the general run of stumps and makes the cost of this part of the work from 5 to 20 cents per stump.

After loosening and shattering the stumps by blasting it is necessary to gather them into a pile for burning. This is usually done by means of a capstan or donkey engine. Another type of puller is the vertical derrick, which has the advantage of applying the pull in the best direction for stumps having long tap roots, but it is objected to on account of having to be moved for each stump.

It is evident that the method to be used should be governed by the character of the stumps, the number on a given area and also by the value of the land, more costly methods being justified for very valuable land.

OUT AGAIN, IN AGAIN
"Mr. Lane called again this morning," said the new office boy, as Mr. Stuart entered the office.
"Did you tell him I'd gone to Europe," as I told you to, Edward?" asked Mr. Stuart.
"Yes, sir," answered the boy. "I told him you started this morning."
"That's a good boy," said Stuart. "And what did he say?"
"He wanted to know when you'd be back," replied Edward, "and I told him 'After lunch,' sir,"—Harper's Monthly.

TRENTON, N. J. WILMINGTON, DEL.

Our Corner Stone of Success

centers so long as they remain in the field.

The methods of fumigation tried in the neighborhood experiments proved so successful that the question of their application to the seed bed is now under consideration by the department. The keeping of the "mosaic" infection from the seed-bed seems a most important means of controlling its introduction and spread in the field. In so far as outbreaks of the disease may occur directly in the field the matter of successful control probably will be found to be exceedingly difficult. This is a matter still being investigated by the department's scientists.

The development of the mosaic disease, commonly spoken of as "calico," in tobacco plants produces very noticeable changes in their appearance. The blossoms of the plant are often distorted; the leaves may be dwarfed, distorted and blistered and are always more or less mottled; frequently the entire plant is dwarfed. In very young plants at the two-leaf or three-leaf stage, and in much larger plants, in the rosette stage, the first visible symptom of the disease usually appears as a slight downward curling and distortion of the smallest, innermost leaves.

The disease is known locally in many sections by different names. In the tobacco sections of Kentucky and Tennessee "calico" is often used. The disease has also been termed "chlorosis," "mottled-top," "calico," etc. The new bulletin regarding this disease can be had free on application to the department of agriculture at Washington, D. C. The bulletin is No. 40, of the department series and is entitled "The Mosaic Disease of Tobacco."

FOREST NOTES
Receipts from the use of national forest resources were greatest in Arizona last year.
Dr. C. D. Marsh of the federal bureau of plant industry is delivering a series of illustrated lectures to stockmen in the west on the subject of plant poisonings to stock.
The Baltimore forest school, established in 1898, and therefore the oldest forest school in America, has been discontinued. Dr. C. A. Schenck, its director, has returned to his home in Germany.
The forest service is compiling a new volume table for calculating the board contents of standing western yellow pine trees in the southwest. It is based on actual measurements of 6000 trees.
In trying to find uses for blight-killed chestnut it has been found that it cannot be utilized for crating staves; quarry owners say that chestnut wood leaves an indelible stain on the marble or granite.
Railroads caused nearly half the forest fires in Colorado and Wyoming last year, and almost one-sixth were set by lightning. In California lightning started more than half, with railroads a comparatively insignificant cause.

FOR RIVERS AND HARBORS

WASHINGTON, Feb. 12.—The rivers and harbors appropriation bill, carrying a grand total of \$43,000,000 for waterway improvements throughout the country was formally made public today. Chairman Sparkman of the house rivers and harbors committee will report it to the house in a few days and press it to speedy passage, if possible.

Last year's rivers and harbors bill carried appropriations aggregating about \$48,000,000.

The bill in addition to the large number of appropriations for continuing work already in progress in many states, provides for many new projects, chiefly the New York harbor, for which \$13,400,000 is provided, as the maximum cost for developing the east river and removing Hell gate and other obstructions that threaten navigation; purchase of the Chesapeake &

Delaware canal between Chesapeake and Delaware bays, for \$1,000,000, and its development and enlargement to accommodate ocean commerce and \$7,000,000 straight appropriation for improvement of the Mississippi from its mouth to Rock Island.

The bill does not provide for the proposed waterway from the Delaware bay to New York, upon which the way department had adversely reported. The project is part of the ultimate scheme of intra-coastal waterway from Boston to Beaufort, N. C. Both the army engineering board and the rivers and harbors committee agreed that the time was not yet ripe for an appropriation for the proposed waterway.

Among the immediate appropriations to carry on work in the east are: Maine—Portland harbor, \$105,000; St. Croix river, \$84,000.

Massachusetts—Boston harbor 35 four channel \$300,000; Pollock Rip channel \$125,000; New Bedford and Fairhaven harbors \$67,000.

WOMAN SUES SEN. GORE

OKLAHOMA CITY, Okla., Feb. 12.—Mrs. Minnie Bond, who is suing United States Senator Thomas P. Gore for \$50,000 damages for an alleged assault in a Washington hotel, took the witness stand this afternoon and told her version of her meeting with Senator Gore in Washington. The courtroom was crowded, mostly with women.

At the time of the alleged assault the witness said she had telephoned to Senator Gore to come to her hotel, saying she did not like to wait in his office, where there were so many men.

In the talk, she said, the senator asked many personal questions and tried to hold her hand.

She alleged the senator took hold of her and tried to pull her toward him and that her glasses were broken in the struggle, cutting her in the face.

At this juncture, the witness said, T. E. Robertson of Oklahoma entered the room, together with James Jacobs and Kirby Fitzpatrick.

She declared the senator followed her and told her to tell the men present there was nothing wrong.

HONOR LINCOLN RAILROAD RULES

Patriotic Exercises in R. I.—Oration by the Lieutenant Governor

Duty of Officials to Know Whether the Rules Are Observed

PROVIDENCE, R. I., Feb. 12.—Although not a legal holiday in this state, Lincoln's birthday was observed throughout the state by patriotic exercises in the schools and meetings of various organizations. The general assembly recognized the anniversary by meeting in grand committee and listening to an oration by Lieut. Gov. Roswell Burdard. Representative John Sullivan of Newport read the Gettysburg address and the regular business was suspended in honor of the event.

WASHINGTON, Feb. 12.—That it is not sufficient for a railroad to have good rules but "it is the duty of the officials to know whether the rules are observed," was declared today in a report to the interstate commerce commission by H. W. Belknap, chief inspector of safety appliances, and was adopted on the Central Vermont railway near Georgia, Vt., on Nov. 18 last when one fireman and one trespasser were killed and two employees were injured.

SCHOOL DESTROYED BY FIRE
CARIBOU, Me., Feb. 12.—Overheated stoves were responsible for the burning of a two room grammar school building at Stockholm, valued at \$3600, and three potato houses of L. P. Larsson & Co. and E. O. Hedmann at Hatteland, which were nearly full of potatoes. The loss on the potato houses was estimated at not over \$10,000. The temperature was 30 below.

BABY BURNED TO DEATH
CHILD PERISHED IN FIRE IN A BROCKTON BOARDING HOUSE TODAY

BROCKTON, Feb. 12.—Joseph Mixon, eight months old son of Mrs. Anita Mixon, was burned to death this afternoon at a fire in a lodging and boarding house at Campello. The fire started in a bed room, where the baby was sleeping while the mother, a kitchen maid, was helping serve dinner to all or more boarders. The fire gained such headway and the boarders were forced to flee from danger.

STEAMERS STUCK IN ICE
CHICAGO, Feb. 12.—Two passenger steamers, the Kausa of the Northern Michigan Navigation Co. and the Judson of the Grand Trunk, were stuck in the ice about two miles off the mouth of the Chicago river today.

RAIN PREVENTED BASE BALL GAME
ROME, Feb. 12.—Incessant rain today prevented the playing of the baseball games which had been arranged by the visiting American teams.

COLD AT PITTSFIELD
PITTSFIELD, Feb. 12.—Thermometers in this city and vicinity registered nine degrees colder during the night than during the cold wave of a month ago. The mercury stood at 20 below in most of the city and at the Country club the lowest temperature was recorded when the thermometer reached 35 below zero.

PROZEN TO DEATH
ISLAND FALLS, Me., Feb. 12.—Albert McLaughlin, a farmer, was frozen to death here today while driving to town.

32 BELOW ZERO
LEWISTON, Me., Feb. 12.—The coldest temperature reported here today was 32 below at Barkerville, a suburb.

MONROE WRECK

Captain Johnson Resumed His Testimony Today

PHILADELPHIA, Feb. 12.—Captain E. E. Johnson resumed his testimony today at the investigation into the collision on Jan. 20 of his steamer Monroe of the Old Dominion line with the Nantuxet of the Merchants & Minors line, in which 41 lives were lost. He said that, judging by the sound of her whistle in the fog, the Nantuxet was about 1000 feet off the starboard bow of the Monroe. Under international rules a vessel meeting another on the starboard bow must give the other vessel the right of way. Under this rule, the Nantuxet should have kept her course and speed. Captain Johnson was unable to say whether the Nantuxet conformed to this regulation.

CHARGES UNFOUNDED

CHICAGO, Feb. 12.—The Federal grand jury investigating charges connecting government officials with the flight of Jack Johnson, the negro pugilist, to France, concluded yesterday with the announcement from the assistant district attorney in charge of the jury that the charges had not been substantiated.

For days the names of Federal officials had been referred to as having profited in various ways from the negligence of Johnson. Many witnesses were heard by the jurors before the inquiry was closed.

"The action of the jury in voting no bill," said Asst. Dist. Atty. Stansbury, "is a complete vindication of Charles F. De Woody, formerly Chicago head of the department of justice, and of Harry A. Pugh, assistant district attorney, as well as of all other federal officials who have been mentioned. All of the charges have been found to be without foundation."

FIVE CHILDREN

TAYLORSVILLE, Ky., Feb. 12.—Five children, three boys and two girls, were born today to Mrs. Bertha Drury, wife of a Spencer county farmer. The two girls died.

NEW HAVEN LOST MONEY

VICE PRESIDENT SAYS CANCELLATION OF TRAINS DUE TO CHAS. A. PROUTY'S RECOMMENDATIONS

BOSTON, Feb. 12.—In a statement read at a hearing before the public service commission today, Benjamin Campbell, a vice president of the New Haven road, said that the cancellation of train service between Hopkinton, Ashland and Boston was due to recommendations of Charles A. Prouty, former interstate commerce commissioner, coupled with the fact that operation was maintained at a financial loss. The hearing was on the petition of residents and commercial organizations of Newton Highlands and Needham for a restoration of service.

Mr. Campbell said that the service was maintained by agreement with the Boston & Albany railroad and was abandoned when Commissioner Prouty recommended the annulment of the agreement. In 23 months, Mr. Campbell said, the New Haven company lost \$163,000 in operating the branch.

Telegraphic Brevities

WORCESTER, Feb. 12.—Standard thermometers registered 16 below in Worcester today.

SPRINGFIELD, Feb. 12.—Miss Sarah McGill, 70, was found frozen to death in the kitchen of her home this morning.

WATERBURY, Feb. 12.—Charles Suisman, aged seven, and his five-year-old brother, Joseph, were seriously injured, the former perhaps fatally, by the explosion of the water front in the kitchen range at their home today.

STEBURVILLE, O., Feb. 12.—Thos. Needham resigned as director of public safety of Steubenville and announced he would return to Chicago, where he will play as catcher in the Chicago National league club.

LONDON, Feb. 12.—Premier Asquith again refused today British official participation in the Panama-Pacific exposition at San Francisco when asked in the house of commons by Waldorf Astor to reconsider the matter.

DENVER, Colo., Feb. 12.—A direct charge that George Belcher, a detective, was murdered in Trinidad by the United Mineworkers of America at the instigation of an organizer of the union, was made today by A. C. Felte, superintendent of a detective agency.

WASHINGTON, Feb. 12.—Democrats of the house immigration committee again prevented discussion of the Asiatic exclusion bills by remaining away from the meeting. Secretary Wright had asked the committee not to agitate the question by discussion while diplomatic negotiations were pending.

SUPPLIES TO POTOMAC
NEW CURTAIN, N. F., Feb. 12.—Food supplies were rushed across the ice today to the imprisoned naval tug Potomac. Although her release was not regarded as probable until there should be a moderation in the weather and a change in the wind, the supplies were sent out to the tug by men and horses from Rocky Harbor. The tug was in some distance beyond the Potomac was very firm and a heavy gale was blowing directly on shore from the Gulf of St. Lawrence.

At Bay of Islands the cargoes of frozen herring in the three ice-bound schooners were unloaded today and will be shipped to Gloucester by way of Port Aux Basques.

Athletes and Athletics

The Lowell high school hockey team defeated the Howe school of Billerica at Shedd Park yesterday afternoon, scoring five goals while the visitors were blanked. Asa Hart and Littlefield were featured for the high school. Evidently the boys are going to revive hockey this year and give the followers of the puck chasing sport an opportunity of seeing a few games here in town.

The newly formed basketball league at the Y. M. C. A. should be productive of many good contests ere the season closes. The games will be played every Wednesday night on the floor of the gym and will tend to greatly develop the basketball calibre of the association five.

Yale turned the tables on Harvard last night in their second hockey game of the season. The blue seven got the jump on their crimson rivals in the first period and hung to the Harvard forwards in the second period which kept them from overcoming the three goals Yale edged in the first few minutes of play. The score was Yale 3, Harvard 1.

Matty Baldwin gave Frankie Mack a severe lacing for ten rounds last night in his effort to once more show the boxing fans that he still had the kick in his gloves. Baldwin was lost, however, after Mack got going in the eleventh round and from then on the Charleston boxer was outclassed. He received the decision for his great showing early in the fight. The bout went fifteen rounds at the Marlborough A. C. of Providence.

If Johnny Evers goes to the Federals the latter will gain another big boost in prestige. If Evers and Tinker should join hands in Chicago the Cubs would have a poor chance of drawing paying expenses at their gate during the coming season. Murphy will not have any easier path with fewer than he did with Lynch, according to present indications.

POLICE COLLAPSED FROM COLD
BARKER, Vt., Feb. 12.—George Carle, a policeman, collapsed from cold during the night and was found unconscious today with his arms and legs badly frozen. Physicians held out no hopes for his recovery.

Trades and rumors of trades are still coming in from the Federal league managers. They all realize that they have only a short time longer to grab off the pick of the unsigned players of the majors and Class AA teams and are straining every nerve to rounding out their respective teams. As no less a personage than Eddie Collins says, "the majors are still scared blue over the prospects confronting them for the coming season."

Trotting and pacing upon the Merchants has certainly gotten quite a hold on the local sporting public when several hundred people will turn out on a day as cold as this yesterday to witness a card. The wind swept down the river in gusts which will high look the breath from the horses and drivers, but the faithful hung to their positions and few left before the last heat had been decided.

Dartmouth and Columbia were scheduled to cross sticks today in their annual hockey game at the Harvard rink. This game is one of the features of the Dartmouth winter carnival. The Green team has recovered from its injuries and will tackle the Columbians in its condition.

The Kid McCoy—George Carpenter scrap over in Paris is certain to draw a big crowd despite the fact that it looks like a free from this side of the Atlantic. Whatever chance the Kid has got with the French heavyweight we can't see. If he should win there would be a critic in the country who has credit for it. Carpenter, on the other hand, will gain no reputation by defeating a man who has been out of the game for as long a time as McCoy, and is sure to receive a few good wallops himself in the mill. However, the purpose is there, and that is all as fighters care about after all.

PENDING AN OPERATION
William Griffin, manager of the bowling alley at 411 Middlesex street, is at the Lowell hospital pending an operation for appendicitis. Mr. Griffin was taken to the hospital Monday evening.

MEMORIAL TO LINCOLN HANDS OFF EVERS

GROUND BROKEN IN WEST POTOMAC PARK, WASHINGTON, FOR STATUE OF PRES. LINCOLN

WASHINGTON, Feb. 12.—The national capital today joined in the national celebration of the 165th anniversary of the birth of Abraham Lincoln. The celebration here was marked by the breaking of ground in West Potomac park for the construction of a marble memorial to the martyred president, which, when completed, is to cost \$2,000,000.

The celebration found deeper significance than usual in Washington because this was the last Lincoln's birthday which will see standing two of the most historic of the landmarks connected with the life and death of the Great Emancipator. They are Ford's theatre, where Lincoln was assassinated, and "Lincoln's toystop," where Lincoln with his little son, Tad, sought relief from the cares of the Civil war in play with lead soldiers.

Because of the needs of the government and the march of commerce, the building inspectors has decreed the passing of those two buildings. Both have been condemned and will be torn down.

One-half of congress halted its grind of business today to pay homage to Lincoln's memory.

In the house the chaplain referred to the martyred president in his opening prayer, and time was set aside for memorial addresses by Representatives Russell of Missouri and Fess of Ohio.

In the senate the Great Emancipator's birthday passed unrecognized.

ATTENTED LARCINY
BOSTON, Feb. 12.—The receipt by the J. B. Henry Sons Co. at Lincoln, N. H., of several cartloads of merchandise and liquors, which they never ordered, is believed to have been explained when John Mahoney of Somerville was given a hearing in court today on the charge of attempted larceny.

"According to the testimony," John Mahoney, a wholesale merchant here, visited many wholesale merchants here and placed liberal orders for goods to be shipped to the Henry Co. at Lincoln. Police Sergeant Anderson testified that apparently all Mahoney received as a result of his big ordering were frequent invitations to dine with the man with whom he did business. John was held for a continued hearing.

Federals Will Not Try to Get Deposed Cub Manager

NEW YORK, Feb. 12.—A new angle developed in the baseball situation here today when the Federal league promoters announced that it would not bid for the services of Johnny Evers, deposed manager of the Cubs. C. H. Weeghman, the leading backer of the Federal league, stated that his organization, considered Evers under contract with the National league and conforming with the new league's announced policy would make no effort to obtain Evers.

Weeghman further stated that the fact that Joseph Tinker had arrived here from Chicago in time for an early morning conference with President Gilmore and himself had no bearing on the Evers situation.

"Tinker came to New York," said Weeghman, "at my telegraphic request, bringing some important papers which were needed."

Immediately after making this statement, Weeghman, Gilmore and Tinker left their quarters and it was reported they were again viewing possible sites for a baseball park for 1916, if not for this year.

President Gaffney of the Braves reported that he could not find Evers, although he had been looking for him.

The National league and its board of directors were late in entering into executive session and it was reported they were again viewing possible sites for a baseball park for 1916, if not for this year.

Charles Murphy, president of the Cubs, denied that he had any intention of retiring from professional baseball or that he knew of any move to force him out of the National league. He said:

"I'm in the game to stay. It has become the national pastime to kick Murphy out of baseball at least four times a year and I'm getting used to it."

"As for Evers, I did what I thought was best for the club. He is temperamental and unfit to manage a team—quite aside of the very valuable man."

AMATEUR BASEBALL
CHICAGO, Feb. 12.—An effort to organize a national amateur baseball championship series will be made in this city on Feb. 21 at a meeting of delegates from eastern and middle western cities.

CIVIL SERVICE EXAMINATIONS

The present work will go down as the latter week for civil service examinations at city hall. Two but yesterday that 72 applicants for clerical positions took an examination and that, according to the records at city hall, was the largest class ever to take a civil service examination.

Today both the afternoon and evening sessions were again devoted to civil service examinations and no less than 74 took the different examinations. Thirty-six able-bodied young men took the examination for the police department; eight as great applicants of rank as one would meet in a day's travel took the examination for a permanent fireman; one big strapping fellow was all alone in the call waiting list; five men honest enough in appearance to influence a fellow to ask them to watch his grip and other things while he bought a ticket, and last but not least, twenty-four applicants for the position of deputy mayor. Many a word have we to say about the appearance of these "two dozen" applicants.

It is rather interesting, however, to note the number of applicants for a position of such recent creation. The office of the state seal of weights and measures sent a representative to Lowell some time ago to investigate the work of the department of seal of weights and measures in this city. The man sent here from the state board's headquarters in Boston reported that in order to attend to the work as it should be attended to here it would be necessary to engage the services of an older deputy seal. He said there were two men sent here from the state board's headquarters in Boston. Mr. Cummings was directed to engage a man, temporarily, and he engaged Charles W. Gallagher, who had been connected with the local street railway for several years and was secretary of the Street Railway Men's union for about ten years. Mr. Gallagher went to Boston and talked with the civil service commission, and Mr. Cummings was satisfied with the appointment of Mr. Gallagher, and that he would fill the position until such

time as the commission could arrange for the examination. The examination is being held today and Mr. Gallagher is one of the twenty-four to take it.

The examiners today were Dennis A. Dooley and Frank Karbaum. An examination for sewer foreman was also scheduled for today. It did not take place because of the fact that not enough of applicants put in an appearance to warrant it.

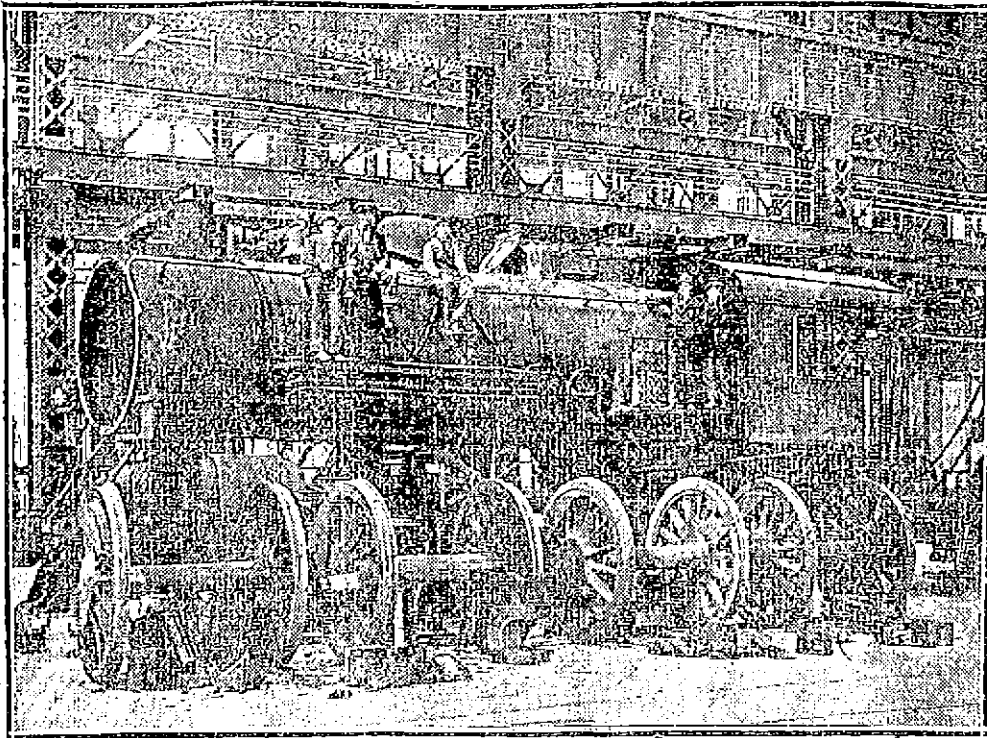

Civil Service
Tomorrow there will be an examination for janitors and 51 applicants have already signified their intention to take the examination. City Messenger Monahan allows this is the banner civil service examination week.

Committee on Education
The legislative committee on education will come to this city this evening for the purpose of visiting the textile school. The committee will leave Boston at 5 o'clock. The committee is made up as follows: Senators—Langelier of Norfolk, Clark of Plymouth and Sheehan of Hampden; House committee—Armstrong of Somerville, Wilson of Boston, Kimball of Milton, Phillips of Melrose, Cross of Roxbury, Sawyer of Ware, Fremont of Garfield and Glenison of Cambridge.

Parks and Playgrounds
Park Commissioner Henry Carr was called at city hall this morning and Henry is nothing if not optimistic so far as parks and playgrounds are concerned—especially playgrounds. He said he collected \$300 right in city hall, money collected for playgrounds, according to Mr. Carr's plan, will be expended under the direction of the mayor, the commissioner of public property, the park commission, superintendent of parks and superintendent of schools.

Commissioners in Boston
The work of whitening the estimates was not resumed by the members of the municipal council today because of the fact that a majority of the council is in Boston. The only members on deck at city hall this morning were the mayor and Commissioner Brown. It was learned that Commissioner Morse and Newell F. Putnam, superintendent of streets, were attending a meeting of the Food Roads Assn., or something of that kind, while Commissioner Carmichael and Fire Chief Saunders are attending a meeting having to do with fire fighting and prevention.

MAY HIRE 300 MEN STATE INSPECTOR ORDERS CHANGES

VIEW OF A BIG LOCOMOTIVE WITH TRUCKS ASSEMBLED FOR REPAIRS AT THE B. & M. REPAIR SHOPS IN BILLERICA.

Although the break in the steam pipe at the Boston & Maine car shops in Billerica has not as yet been entirely repaired, and despite the fact that the thermometer registered many degrees below zero this morning, the employees at the shops were not at all disturbed by the weather. The large Murphy stoker boilers which are in operation in the boiler house were kept working from the early morning and the result was that the men were comfortable. It was feared a few days ago that if the weather got colder the men

of the shops would not be able to work, but the heating plant proved to be all right.

Last night when it was seen that the mercury was going down all precautions were taken to avoid a freeze up in the big plant and the result was very flattering, for although the shop is quite exposed the place was kept warm and this morning all was in tip top shape.

Twenty more men from Concord, N. H., arrived at the shops this morning and they were immediately put to work. These new recruits consist of laborers and helpers as well as a few machinists. Assistant Supt. Nowell in

State Inspector J. J. Carey has called the attention of Commissioner James E. Donnelly to changes that must be made in the high school, high school annex and Memorial hall building in order to have these buildings comply with the provisions of the statutes of the commonwealth. The inspector has addressed the following communications to the commissioner:

Commissioner James E. Donnelly,
City Hall, Lowell, Mass.
Dear Sir: In compliance with the provisions of the statutes of the commonwealth, chapter 555, acts of 1913, relating to the inspection of public buildings, on the 26th day of January, 1914, I inspected the high school building, located on Anne and Kirk streets, Lowell, and you are directed to open outwardly windows leading to fire escapes and provide steps leading to said windows.

In connection with the high school hall, when hall is seated, floor cleats or other approved device must be provided for securing seats.

As a matter of further precaution in case of fire, I would suggest that a partition be erected at portion of corridor, second floor, at front of teachers' toilet room. This would allow the pupils on the north side of the building to pass from rooms to fire escapes without entering the corridor of the building.

Hand rails must be provided on both sides of all stairways.

Respectfully,
J. J. Carey,
State Inspector of Buildings.

are directed in banquet hall to open outwardly door between main room and kitchen and main door of hall, and to equip the same with approved hardware. Provide "exit" signs to indicate all means of egress.

In Memorial hall open outwardly door in rear partition leading from rear room to room where exit leads to fire escape, and main egress doors east side of building, first floor. Equip all egress doors with approved hardware and place "exit" signs to indicate all means of egress. When hall is seated, floor cleats or other approved device must be provided for securing seats.

Respectfully,
J. J. Carey,
State Inspector of Buildings.

High School Annex
Commissioner James E. Donnelly,
City Hall, Lowell, Mass.
Dear Sir: In compliance with the provisions of the statutes of the commonwealth, chapter 555, acts of 1913, relating to the inspection of public buildings, on the 26th day of January, 1914, I inspected high school annex, Paige and John streets, Lowell, and your attention is called to the fact that the egress from drill shed or gymnasium is not sufficient for seating capacity. The law requires one seat for every square foot of floor space, and also requires that 20 inches of egress be provided for every seat. The egress from this hall on west side is five feet, and on the east side it is seven feet, making a total of 14 inches. Pending a decision of the attorney general a certificate cannot be issued for seating capacity according to egress. Portion of lunch counter bench obstructs egress.

On day of inspection I noticed that "banks" of running track were placed in such a position that they obstructed egress passages, east side of building. Said running track "banks" should be placed in such a manner that sufficient width of egress will be maintained.

Respectfully,
J. J. Carey,
State Inspector of Buildings.

Memorial Hall Building
Commissioner of Lands and Buildings, City Hall, Lowell, Mass.
Dear Sir: In compliance with the provisions of the statutes of the commonwealth, chapter 555, acts of 1913, relating to the inspection of public buildings, on the 17th day of January, 1914, I inspected Memorial hall and banquet hall in Memorial hall building, Merrimack street, Lowell, and you

since I was up north. I now weigh only 151. I am very weak and cannot walk twenty feet. I am writing this in bed.

"I have a nurse with me all the time and a doctor comes to see me three times a week. He says I probably will be better when warmer weather comes."

EARTH TREMORS FREIGHT RATES

Supposed to Have Been Caused by Frost Crack Felt at Cambridge

CAMBRIDGE, Feb. 12.—An earth tremor, supposed to have been caused by a frost crack, was recorded on the seismograph at the Harvard geological museum at 2:55.28 today, nearly two hours before the jar was felt at Pittsfield. Frost cracks in the earth's surface, it was explained, at the museum, are not uncommon during low temperatures.

TWO SHOCKS AT PITTSFIELD
PITTSFIELD, Feb. 12.—Two distinct earthquakes were felt in this city early this morning.

45 INDICTMENTS

BANGOR, Me., Feb. 12.—Forty-five indictments, not including those for the violation of the prohibitory law, were reported by the grand jury at the February (criminal) term of the supreme court here today.

TRUST PROGRAM

WASHINGTON, Feb. 12.—Sharply divergent views on the administration's trust program was expressed today at the second annual convention of the chambers of commerce of the United States, the whole day being given over to debate upon this subject.

Secretary McCall of the department of commerce was the first speaker and was followed by others who have given much thought to the trust problems.

Vigorous objections to the initiative anti-trust bills on the ground that insufficient study had been given the subject was voiced by Frederick D. Fish, former president of the American Telephone & Telegraph Co. Concluding a lengthy review of the uses and abuses of trust combinations, he said the whole question in one of companies. We must deal with our industries in such a way as will best promote our prosperity even if some but not too great sacrifice of current profit is involved.

BANK PRESIDENT ARRAIGNED
MEMPHIS, Tenn., Feb. 12.—J. H. Ralston, president of the Mercantile bank, which closed its doors Monday as a result of alleged defalcations of the president, estimated to reach \$28,000, entered a plea of not guilty when arraigned in criminal court today. Ralston previously had pleaded guilty when arraigned on a bench warrant charging embezzlement.

Allowances by R. R. to Shippers Discussed by Interstate Board

WASHINGTON, Feb. 12.—Allowances made by the railroads to certain shippers declared to aggregate annually many millions of dollars and one of the most important phases of the interstate commerce commission's hearings on the proposal of the 52 eastern railroads to increase their freight rates have per cent was the subject of a conference at the commission today.

Representatives of the railroads and of both the big shippers who are said to have been reaping advantage of the allowances and the little shippers who are affected adversely were ready to testify when the hearing, conducted by Louis D. Brandeis as counsel for the commission was opened. The conference will continue for three days.

Mr. Brandeis who declared that information received by the commission showed that the railroads annually perform many millions of dollars worth of free service expected "to produce evidence that the advance rates which would add about \$30,000,000 to the railroads revenue would not be necessary if some of the free service were discontinued."

It was estimated that the eastern railroads continually have between 300,000 and 400,000 "empty" private spoor trucks for which no charge is made.

SNOW STORM COMING

WASHINGTON, Feb. 12.—The coldest weather of the season—in some localities the coldest in many years—developed the entire east today and is expected to be succeeded by a snow storm from Texas during the next 24 hours.

Real winter weather is with the snow storm, the weather bureau said today and it was predicted that flakes would be falling over the middle Atlantic and southern New England states by tonight or tomorrow, if nothing interrupts the Texas blizzard on its way.

The weather bureau issued a special forecast, heralding the coming of the storm.

More drops in the already falling mercury will attend it from New England westward to the upper Mississippi valley. Bisk northeast winds are waiting the new weather hurriedly on its way.

PAINTED INJURY
While working in the Lawrence section of the Tremont & Suffolk mills about 11:10 o'clock this forenoon a young girl who gave her name as May Campas, caught the index finger of her right hand in a machine and sustained a severe injury. The ambulance was called and she was taken to the Lowell hospital.

VICTIM OF BURNS

John Arthur, 360 Broadway, died at the Lowell hospital, aged 55 years. The body was removed to Weinbeck's on Market street. He died as result of burns sustained in one of the local mills.

EXPENSES OF NEW HAVEN
BOSTON, Feb. 12.—Cornelius J. Fitzgerald, president of the corporation publishing the Republic, a local weekly, declared at the investigation by the public service commission of the publicly expenses of the New Haven road today that the road owes his paper \$1,140 for advertising. Mr. Fitzgerald is a brother of ex-Mayor Fitzgerald.

ALDERMAN BROWN'S LETTER
Alderman Brown has taken it upon himself to write to Agent Parkin of the Boston and Maine to inquire whether a train for leave Lowell for Billerica at 6:30 or 6:45 in the morning can be run for the accommodation of the employees of the big car shops. The depot is quite a distance from the shops.

LARCENY OF SHAWNEE
NEW BEDFORD, Feb. 12.—Under a law dating back to 1811, that "The owner of property bounded by the sea is the owner of the land between high water mark and low water mark for 100 rods," George H. Wilbur was found guilty in district court of larceny of seaweed and trespass on the shore property of the Davis heirs in Westport. The cases were filed.

FUNERALS

ARSENAL—The funeral of Joseph Arsenault took place this morning from his home, 70 Ludlum street. Solemn high mass of requiem was celebrated at St. Louis church at 9 o'clock. Rev. J. B. Labossiere officiating, assisted by Rev. L. C. Bedard and Rev. J. J. Comeau as deacon and sub-deacon. The bearers were Alfred, Henri, J. Auguste and Arthur Arsenault, Delphis and Hector Sansoucy. Burial was in the family lot in St. Joseph's cemetery in charge of Undertaker Joseph Albert.

O'BRIEN—The funeral of Martha O'Brien took place this morning from her late home, 32 Pleasant street, at 10 o'clock and was largely attended by relatives and friends. The corpse was carried to the Immaculate Conception church where a solemn high mass of requiem was celebrated at 10 o'clock. Rev. Lawrence J. Tighe, Rev. Owen McQuaid, deacon, Rev. John O'Brien sub-deacon. Seated in the nave.

Catarrhal Jelly

BLANKETS

We have just bought about 600 pairs, which we believe are better bargains than anything we have offered for a long time. We give the details below. These Blankets will not be advertised in the Boston papers until Saturday night, so you will have Friday and Saturday to make advance selections if you wish to. If you know that you will want any Blankets, of this grade, during the next six months, you cannot afford to miss this opportunity. If for any reason you cannot come to the Sale, and care to send your order by mail, we will fill it carefully (as long as the goods last). When you receive the Blankets, if they do not please you in every way, you may return them and we will refund the money, provided they are returned at once and in good condition.

About 600 pairs of one grade of Blankets, in two sizes—60x80 and 70x82. These blankets were made to retail for \$4 and \$5, and we doubt if they have ever been sold much less than \$4 and \$5. This is a great opportunity for individuals as well as for Hotels, Institutions, Boarding Houses, Camps, etc.

Size 60x80. Per pair.....\$2.75
Size 70x82. Per pair.....\$3.75

If you have not a charge account with us, it will be well worth your while to make yourself known to our Credit Department with a view to opening such an account.

In ordering by mail please mention this paper.

BOSTON

DEATHS

BERUBE—Adelard, aged 1 year, 8 months and 10 days, died today at the home of the parents, Joseph and Dolma Berube, 470 Suffolk street.

WELCH—William Welch, a well known resident of St. Michael's church and a member of the Holy Name society of the same parish died today at his home, 10 West Fourth street at the age of 11 years. Deceased is survived by a wife, seven children, John, Annie, Monte, Irene, Alice, William and Katherine, a brother, Peter and a sister, Mrs. Mary Morgan, both of Milford, Mass.

FUNERAL NOTICES

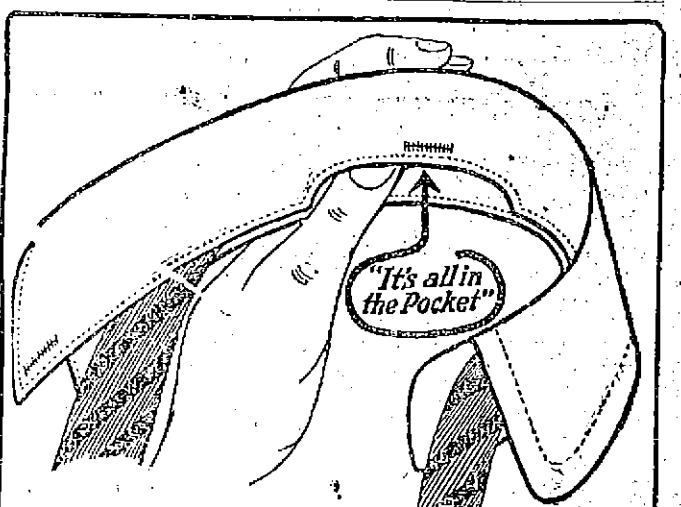

WELSH—The funeral of Mrs. Mary Welsh will take place Saturday morning at 9 o'clock from the home of her daughter, Mrs. Edward McInnis, 15 Shaw street. A requiem mass will be celebrated at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery under the direction of Undertakers Higgins Bros.

McNAB—The funeral of Michael P. McNab will take place Saturday morning at 8 o'clock from the funeral chapel of Charles H. Molloy. A General high mass will be celebrated at St. Peter's church, time to be announced later. Burial will take place in St. Peter's cemetery under the direction of Undertaker Charles H. Molloy.

WELCH—The funeral of William Welch will take place Saturday morning from his late home, 40 West Fourth street at 9 o'clock. A General high mass will be celebrated at St. Michael's church, time to be announced later. Burial will take place in St. Peter's cemetery under the direction of Undertaker Charles H. Molloy.

RUBE WADDELL AND IN
SUPERIOR, Wis., Feb. 12.—Rube Waddehl, one of the best pitchers that ever worked in the majors, will not pitch another game. The admission came from Rube Waddehl, who has returned his assigned contract to "Red" Taylor of Superior, manager of the Virginia Minn. club in the Northern league.

"I am sending back the contract because," wrote Rube frombourne, Texas, "I would like to play but never could get in shape. I might as well admit the fact about 8 o'clock. A hopeless condition. I have lost 54 pounds."

EVERY MAN IN LOWELL

Will be interested in the demonstration of

"LOOSCARF" COLLARS

which takes place in the windows of

A. G. POLLARD CO.

On Thursday, Friday and Saturday, Feb. 12, 13 and 14

We're going to show what a wonderful improvement we have made in men's collars and how, by a simple device, we have eliminated all the trials and troubles the average man experiences when he puts on his collars.

DON'T FAIL TO SEE THE DEMONSTRATION!

MONEY TO LOAN

You Can't Buy Happiness HEALTH or good looks with money. They are mostly nature's gifts. But money goes a long way toward promoting happiness and contentment.

THIS PROBLEM is everyone does not have a bank account, and consequently they have no way to overcome temporary financial troubles without appealing to friends, which is more or less humiliating.

WHY NOT OPEN AN ACCOUNT WITH US?

LOCAL NEWS

Best printing; Tobin's, Asso. Bldg. Telephone 1260.
Dr. Constantinou, 253 Central St. Best dental work in city. Tel. 1211.

The many friends of Mr. Charles J. McLaughlin, of the Lowell school, will be pleased to hear that he is confined to St. John's hospital, on account of serious illness.

Master Arthur Wiley of the First Methodist church choir will be the soloist at the Memorial Congregational church of Quincy, Mass., on Sunday, Feb. 15.

Fred C. Church carried the insurance on the contents of the dwelling of S. C. Blaisdell, 253 East Merrimack street, damaged by fire this morning.

Miss Eva Dupuis, a popular young woman of West Centralville, conducted

a successful whist party at St. Louis school hall last evening for the benefit of the church. Miss Dupuis presided and at the close of the whist a varied musical program was rendered.

While being driven near the corner of Branch and Middlesex streets early yesterday morning, a horse owned by O. W. Peabody, slipped on the icy street and broke its leg. Agent Gilmore of the Humane society was summoned and found it necessary to shoot the animal.

A birthday party was held last evening at the home of Mr. and Mrs. George S. Howard of 129 Midland street, in honor of their two children, Charles and Esther, whose birthdays occur only two days apart. Twenty-two young people were present and during the evening games were played and a musical program furnished.

A largely attended whist was held last night at Notre Dame de Lourdes parochial school hall, the affair being given under the auspices of Laval council, C. St. J. D. A. The affair was successful and netted a substantial sum for the reserve fund of the society. Joseph Lussier presided, and an entertainment program was rendered by the following: Louis Boudreau, Yvonne Martin, Romeo Couture and Henri Guerin. Interesting remarks were also made by the chairman, Rev. J. H. A. Barrette, O. M. L.

The Men's club of the Grace Universalist church last night listened to an address on "Hereditary" by Mr. Phineas W. Whiting of Roslindale. He spoke at some length on the effects of heredity, and referred often to the works of Mendel, the Austrian monk, whose discovery of the sex in plants and whose works relative to plant life are now the subject of study throughout the world of science. Mr. Whiting is a former Lowell boy and is now studying at Harvard, where he has already obtained his A. B. and Master of Science degrees. New members were taken into the club at the meeting last night.

A supper and minstrel show constituted the attraction at the First Universalist church last evening. On the supper committee were Mrs. George Alexander, Mrs. Douglas, Mrs. A. S. Martin, Mrs. Frank Adams, Mrs. Harry A. Thompson, Mrs. L. E. Walton, Mrs. C. L. Roberts, Mrs. James Mills, Mrs. George Peck, Mrs. John Mills, Mrs. A. Bradford, Mrs. Archie McLean, Mrs. Eva Olney, Mrs. Mary Bartlett, Mrs. Frank Dow, Mrs. J. H. Jones, Mrs. Harry Newman, Mrs. Gilmore, Mrs. Wainwright and Mrs. Charles Perlman. Following the supper came the minstrel show, the intelluctor being Dr. A. S. Macleod, while the end men were Oliver Lane, Albert Deluche, Jack Crawford and J. C. Crawford. Miss Harriet Mansur was the accompanist of the evening.

The members of the Mathew Temperance Institute entertained the St. Charles Temperance association of Woburn last night in their rooms in Central street; the affair being a return welcome to the hospitality shown the local organization by the Woburn society a few weeks ago. More than half a hundred of the out-of-town society were present.

The evening was whittled away by pool, card games and a bowling match between teams representing the two temperance organizations. The local bowlers proved a little too strong for their guests on the alley and won the bowling contest by the score of 1251 to 1211. The Mathews took two of the three stihaga rolled. O'Neil was high man.

In the pool games the visitors took three points from the local cue handlers. The scores of these games are as follows:

Butler and O'Dea, 12; H. Porgy and Armstrong, 44; H. Porgy and J. Connors, 46; McCarron and Murray, 59; Toland and Murphy, 59; Gooch and McDonald, 50.

The result of the games tournament was a victory for the visitors who won from the local members 5 to 4. The defeat came as a surprise to the Mathew players, who had defeated Woburn on the occasion of the recent visit.

Woburn turned the tables in the whist tourney, taking three out of a possible four points. McVey and Shea, Toland and Connolly, Alward and McGovern and Deehan and Spender were the winners at whist. At forty-five, S. Toland and S. Flaherty of Woburn defeated Dexter and Steadfast of Lowell but at cribbage the Lowell player retaliated by taking both games.

When the tournament was over, the main hall was cleared and dancing was engaged to the music of Doyle's orchestra.

The committee in charge included William Ryan, James Armstrong, James O'Neil, Gayton Welch, Edward Welch, Harold Forger, Leo Mandile, James Gaudin, William Carey and Patrick Carroll.

The match was as follows:

Lowell: Marlowe, 25; O'Neil, 27; McLaughlin, 25; Hogan, 24; Hildreth, 27; totals, 121.

Woburn: Halloran, 25; Dolan, 27; Griffin, 24; Howard, 27; McGuire, 26; totals, 121.

LIGHT ON OUR CHARTER IS SOUGHT BY OTHERS

Various Bodies Interrogate Mayor Murphy — Worcester Boosts Tax Rate—City of Lowell May do Likewise

Worcester, the city of homes, has raised her tax limit from \$12 to \$15 and Worcester has a valuation of \$177,000,000 and by raising the tax limit to \$15 on the thousand she will have somewhere in the vicinity of \$530,000 more to spend than under the old \$12 limit. Increasing the tax limit to \$15 will push Worcester's tax rate up to about \$23 a thousand. It is none of our affair, but it is mentioned only because of the fact that Lowell's tax limit is likely to be boosted, too. The old limit of \$12 has been taken off, and now the sky is the limit. It is almost safe to state that a majority of the municipal

LIQUOR SQUAD REPORTS

To Mayor Murphy Concerning Visits to Hotels and Places Holding First Class Licenses

Liquor inspectors Alexander Duncan, Gilbert W. Sheridan, Thomas H. Jessiman and Philip D. Murphy have reported to Mayor Murphy the results of visits made by them on February 6th, to certain holders of licenses of the first class. The mayor has returned the reports over to the license commission and the dealers named in the reports will be given hearings next Tuesday night. The mayor's communication to the commissioners and the reports of the liquor inspectors are appended:

The Mayor's Letter.
To John J. Mulvaney, Esq., Chairman of the License Commission, and to the Members of the Commission.
Sirs: I hereby submit, for your action, the enclosed reports submitted to me by the liquor inspectors, containing the results of visits made by them on February 6th, last, to certain holders of licenses of the first class. Trusting you will give the matter contained in these reports your earliest attention, I beg to remain, Sincerely yours,
Dennis J. Murphy, Mayor.

Duncan and Sheridan's Report.
Lowell, Mass., Feb. 6th, 1914.
Reports of visits made to the following holders of licenses of the first class, on the above date:
Edward F. Sien & Co., 73 East Merrimack street. In the cellar we found two (2) barrels of empty half pint flasks, and one and a half (1½) barrels of empty pint flasks.
J. H. Callahan & Co., 405 Lawrence

street. Behind the bar we found two empty half pint flasks, and in a drawer behind the bar it was full of corks to fit pint and half pint flasks.
D. F. Sullivan & Co., 2 Andrews street. In a storeroom leading from the bar room we found one cask of pint flasks of whiskey, and one cask of half pints of whiskey.
F. W. Barrows & Co., 646 Gorham street. In the cellar we found one and a half (1½) barrels of empty pint flasks, and five crates of empty quart bottles.
Washington Hotel, 194 Central street. In the cellar we found three (3) barrels of empty half pint flasks, three (3) barrels of empty pint flasks, and behind the bar there was a drawer full of small corks.

Respectfully submitted,
Alexander Duncan,
Gilbert W. Sheridan.

Headlin's and Murphy's Report.
Lowell, Mass., Feb. 6th, 1914.
Reports of visits made to the following holders of licenses of the first class, on the above date:
D. J. Gannon & Co., 291 Moody street. In the cellar we found one (1) barrel of empty two (2) quart jugs, two (2) barrels of empty quart bottles, two (2) barrels of empty pint flasks, and two (2) barrels of empty half pint flasks.
Pierre, Bourgeois, 363 Moody street. In the cellar we found one and a half (1½) gross of empty quart bottles and five hundred (500) empty two ounce flasks.

Respectfully submitted,
Thomas H. Jessiman,
Philip D. Murphy.

THE LEADING MEN AT B. & M. CAR SHOPS

Left to right: B. F. Blythe, L. Morgan (general foreman locomotive shop), W. H. Datten, J. W. Perley, C. H. Nutter, Albert Blythe, H. T. Nowell (assistant superintendent), J. E. Ferrin, R. L. Nutter, H. P. Calvert, H. L. Leighton, G. E. Stevens, Oscar Knoeghtner.

Many of Them Have Attained Distinction in Various Lines of Construction — Who They Are and From Whence They Came

Much has already been said and published about the Boston & Maine car shops in Billerica, but very little has been mentioned about the men who are in charge of this immense plant, and it may be of interest to many to know where they came from and what experience they have had in this particular line of work.

A reporter of The Sun called at the car shops yesterday afternoon and, after being cordially received by Asst. Supt. H. T. Nowell, he was given a permit to go wherever he pleased about the premises and gather what information he could. The Sun photographer was also on the job and he got busy with the officials of the plant and after all had gathered in the office of the company in the administration building, the above photograph was taken. Unfortunately, the superintendent of the shops as well as some of the foremen and assistant foremen were not present.

The paymaster was around yesterday afternoon and for nearly an hour it was a general procession from the various buildings to the locomotive shop, where the pay was distributed. The men were called to the office by means of different signals given out by a large whistle on the power house. All men wore a happy smile for it is understood that they are well paid for their services.

The entire shop is now in charge of Asst. Supt. H. T. Nowell, who will have full charge until March 1, when the superintendent, Thomas Jennings, will take up his new duties. Mr. Jennings is a resident of Concord, N. H., where for the past two years he has held the position of superintendent of the large plant of the Boston & Maine. This gentleman has had considerable railroad experience. For a number of years he was connected with the Central Vermont and in 1889 he accepted the position of superintendent of the car shops of the old Fitchburg railroad, which later combined with the Boston & Maine. Some years ago he was appointed superintendent of the car shop at Keene, N. H., a position he held until three years ago when he was transferred to the Concord plant. Mr. Jennings has also had railroad experience on the Erie railroad. He will come to Billerica on March 1, when the shop at Keene, N. H., will be closed, and his assistant, Mr. Nowell, will be taken up by the superintendent of the Keene shop.

Asst. Supt. H. T. Nowell is also a resident of Concord, N. H., but he is soon to make his home in this city. He started work for the Boston & Maine in 1901 in the shops at Concord, where he learned the business. Three years ago he was transferred to the Billerica plant where he was put in charge of the tool equipment. He is a very young man and very capable. It was he who picked out all the machine tools for the large Billerica plant, and two months ago the officials of the com-

pany recognized in Mr. Nowell a very efficient and capable worker and his reward for faithful service was his promotion to assistant superintendent of the largest plant of its kind in New England. He is constantly on duty and until the arrival of the superintendent he has full swing.

The general foreman of the locomotive plant is L. Morgan, who for a number of years has held the position of foreman of the engine house of the Boston & Maine at Fitchburg. When the Billerica shop is running full force Mr. Morgan will have about 700 men to look after, and although he has been on the job but two weeks the men think a lot of him, for he is a "fellow" as the employees term it.

D. H. O'Neill of Concord has charge of the erecting shop, with about 300 men in his employ. He has been with the Boston & Maine for the past ten years and about 18 months ago he was appointed assistant foreman of the Concord plant.

The boiler makers, who will number about 150, will be in charge of Oscar Knoeghtner, who comes from Manchester, N. H., where for the past 30 years he has been in charge of the Manchester Locomotive Works. He took up his new duties last Monday.

The machine shop with about 250 men is in the care of Roy L. Nutter of Concord. Mr. Nutter has been in the employ of the company for the past ten years as machinist, toolmaker and assistant foreman. He came to Billerica last August and it was under his direction that the machinery was installed.

Albert Blythe of Keene, N. H., has been appointed foreman of the blacksmith shop and his force will consist of about 100 men. Mr. Blythe learned the business with Superintendent Jennings on the Central Vermont railroad and from there he went to the Keene shop as foreman.

G. L. Copp of Concord is the boss palmer and he will have supervision over about 75 men. For the past 10 years Mr. Copp has been connected with the B. & M. and up to the time of his transfer to the Concord shop he was located at the Lawrence plant of the company. He will start on his new duties in April.

The car department with a force of about 350 men will be in charge of D. H. Pine, who a short time ago was appointed general foreman. For the past three or four years Mr. Copp has held the position of general place work inspector and his home is in Fitchburg. He will assume his new duties on April 1st.

H. T. Nowell will have charge of the blacksmiths in the locomotive shop, about 50 in number. Mr. Nutter was assistant foreman of the blacksmith shop at Concord and has had 12 years' experience in this particular line of work.

The car shops boarded an electric car at High street, Billerica, with about 50 employees of the shop, who make their homes in this city, and all but two were reading The Sun, and words of praise could be heard for Lowell's greatest newspaper from all the passengers. They especially commented on the photo of the large locomotive which appeared on the front page of yesterday's issue of The Sun, and the few men who were photographed on the large machine, changed to be among the group in the car and they immediately expressed their admiration of the excellent picture. The men are all intelligent and high class workmen but many of them are somewhat disappointed at the conditions under which they have to live at present but this is to be expected as they came here at the worst time of the year. When the weather is milder and the spring opens things will be very much different.

EXPLOSION KILLS FIVE

POWDER WORKS AT KENVILLE, N. J. WRECKED—TONS OF POWDER BLEW UP

KENVILLE, N. J., Feb. 13.—Five employees of the Hercules Powder works were killed in an explosion which last night destroyed the packing house of the plant where tons of powder were ready for shipment to Mexico. So complete was the destruction that none of the officials of the plant would even guess at the cause of the explosion. Practically all the inhabitants of this place are employees of the powder works.

BANKER COMING

Members of Board of Trade Will Hear Talk on Income Tax Law

Olaf Olsen, cashier of the First National bank of Boston, said to be an expert in income tax matters, will address the members of the Lowell board of trade in their rooms in the Central block Friday evening, Feb. 13, at 7:30 o'clock, and tell them how the income tax law affects the men of today.

Olsen was delegated by the First National bank to make a special study of the new law and his talk will undoubtedly be of great interest to the members of the local board of trade. The meeting, next Friday night, is the second in a series of business men's lectures which are being held under the auspices of the executive committee of the board.

CABARET PERFORMER

MADE THINGS LIVELY

For Highway Experts — Gladys Lloyd Hugged Capt. Sullivan and Made Goo-goo Eyes at Charlie Morse

Commissioner Charlie Morse and his street superintendent, Nowell F. Putnam, attended a meeting of the Massachusetts Highway association at the American house, Boston, yesterday, and they enjoyed it immensely. Charlie allows that meetings of the kind in question do not do a fellow any harm and Charlie smiled when he made this statement for he was thinking of something very pleasant.

It wasn't Charlie's fault that Gladys attended the meeting, and if she attended to kiss Charlie it was simply because Charlie looked good to her. Somebody said that Gladys kissed Jas. H. Sullivan, superintendent of streets of Boston. Not only that, but she sang love songs to Jimmie, including that very "Believing" ballad, "Love Me While the Loving is Good."

They do tell that while Jimmie's back was turned Gladys hugged Charlie, but Charlie says, "Not, tut, man, there's nothing to it—but she was quite a stunner, just the same." Now it's the day's best bet that you want to know who Gladys is. Well, her full name is Gladys Lloyd and she's a cabaret performer and the highway men invited her to the luncheon yesterday.

Charlie Morse says it was a caution the way Gladys hugged Jimmie Sullivan. It seems that Supt. Sullivan is the retiring president of the association. He has a ruddy complexion by nature, which Charlie says was heightened for the time being when Gladys playfully placed her arms about his neck, snuggled her face down close to his and warbled the ditty about loving. Charlie says there was a burst of hearty applause from the assemblage of New England highway experts, 200 strong, when this part of the program was being enacted.

Among those who were at the head table were Col. William D. Sohier, the newly elected president of the association; George C. Warren, president of the Warren Bros. company; Street Supt. Charles Morse of Lowell; Ross of Newton, Jones of Waltham and others.

The Beautiful Gladys.
The luncheon had not been in progress long before Miss Lloyd entered. She walked about the tables, singing and then, at the suggestion of some members of the association, proceeded to the head table where she did, or did not salute Superintendent Sullivan with a kiss or kisses.

Later other young women appeared and sang, pausing now and then at tables to give their music better effect. Others who had a part in the vocal program included George Whitaker, Councilman William H. Doyle (Malden), Edna Quinn, superintendent of streets of Cambridge; Frank McDough, and others.

Moving Picture Show.
After the dinner had been thoroughly discussed and the cabaret girls had gone their way, moving pictures were shown to illustrate the method of laying bitulthor pavements throughout the country. George Warren, president of the Warren Brothers company, delivered the lecture that described the method in detail, and Mr. Morse says it was the finest illustration of its kind that he has ever seen.

The election of officers resulted as follows: President, Colonel William D. Sohier of Boston; Vice president, Louis Bourke, commissioner of public works, Boston; secretary, John M. McCarty, Natick; directors, Richard A. Jones of Waltham, Edward W. Quinn, of Cambridge.

Colonel Didn't See Gladys.
Commissioner James H. Carmichael was in Boston yesterday, too, but he didn't see Gladys Lloyd. The colonel and Chief Saunders of the highway department attended a meeting of the Massachusetts Fire Chiefs' association at Clark's hotel. If the colonel had attended the meeting of the highway association the chances are that Miss Lloyd would have had any eyes for Messrs. Sullivan and Morse.

The colonel, however, had the honor of being elected an honorary member of the Fire Chiefs' association and he was called upon for a speech. Chief Saunders is authority for the statement that Commissioner Carmichael

made a pronounced hit. He enlivened his remarks with anecdotes that kept the fire chiefs in uproarious laughter and they extracted from him a promise that he would strain a point to attend the monthly meetings of the association. There were remarks by a number of the chiefs present. No papers were read.

Grade Crossing Hearings.
The special commission on grade crossings will come to Lowell tomorrow for the purpose of hearing arguments, pro and con, on the abolition of the grade crossings in Middlesex and Fletcher streets. The Lowell board of trade will be represented and the representatives will present arguments as to why the crossings should be abolished. The hearing will begin at 10 a. m.

Visit to Hospital Sifts.
Members of the state board of health will also visit Lowell tomorrow for the purpose of looking over plans for contagious hospitals. They are expected to arrive here about 10 o'clock and members of the municipal council will accompany them to the various sites offered for a contagious hospital.

ANOTHER STRIKE

Carders of Fall River Mill Quit for Second Time in Two Weeks

FALL RIVER, Feb. 13.—The card room help in the Pocasset mill went out on strike this morning in consequence of a change in working conditions and falling off in pay. This is the second strike of carders within two weeks, the strikers claiming that the mill officials failed to remedy conditions as they had promised. About 50 carders left their work and unless a settlement is arrived at least 1000 hands will be affected.

WARM WEATHER COMING

PREDICTION FROM THE WEATHER BUREAU AT WASHINGTON FOR NEW ENGLAND STATES.

WASHINGTON, Feb. 13.—Snow and cold today and tonight, and warmer tomorrow was today's prediction from the weather bureau for New England.

Ask Your Doctor

And why not? Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world cannot do this. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you.

ARMY CANTEN SCANDAL

WARRANTS ISSUED IN LONDON FOR ARREST OF OFFICERS OF LIPTON LIMITED

LONDON, Feb. 13.—Sharp action was taken today in connection with the British army canteen scandal when warrants were issued for the arrest of James Ness, formerly manager of Lipton Limited at Minto and Archibald Minto, another employee of Lipton Limited, neither of whom appeared to answer to the summonses sent to them when the case opened.

Mr. Ness is believed to be in Canada while Minto is said to be in France. Altogether nine army officers and eight civilians, all of them employees of Lipton Limited, have been charged

with receiving or giving illicit commissions on contracts for army canteen supplies.

KILLED BY A CHICKEN

WERNERSVILLE, Pa., Feb. 13.—A scratch by one of his fancy chickens caused the death today of Daniel A. Ney, a poultry fancier of this place. Ney was feeding his chickens when one of them flew up and scratched open a birthmark on his forehead. Before medical aid arrived he bled to death.

AMUSEMENT NOTES

THE OPERA HOUSE

The Warner features present Miss Gene Bauntler in three reels of truly fascinating Irish drama at the Opera House today. The cable of an aristocrat and the cottage of a peasant

—the love of a charming colleen and an English nobleman—intigue, treason, imprisonment and justice—all blended together in a picturesque and intensely realistic Irish love story, makes this feature one of the best that has ever been produced in the Killarney district of Ireland.

In addition to the above feature will be shown for the first time in this city, the new Kalem comedy, "Only One Shillee," with a laugh in every foot of it. Ruth Roland, John E. Brennan and George Larkin, the three famous Kalem fun makers are at their very best in the rip-roaring farce, which must be seen to be appreciated.

KEITH'S THEATRE

"The Understudy," by Una Clayton, just pushes you up to the very highest pitch of laughing, for while it is ridiculous, it holds certain signs of being pretty nearly the real thing. It is the feature act at the Keith theatre, this week, and it exploits one of the most capable of the younger actresses on the legitimate stage, Miss Mabel Page. She plays the part of the cur-

spondence school actress who seeks a joy with the "In the Tolls of the Temptress" company, and, of course, is an utter failure. How she decides to give up the noble profession of acting is told in the plot. Her support is fully adequate; Freeman and Dunham, in songs and antics, are about as clean cut youngsters as we have seen here lately. They have made many real friends during their engagement here.

The Monette Five, in their new musical act, are primo favorites and constitute as dainty a turn as we have ever known here, while Murray and Mason, in a little bit of everything, are most pleasing. Other good things on the bill are: Five Dianas, women gymnasts; Two Alfreds, head-to-head, balancers; Vandyke and Louie, oil painters; and the Pathé weekly pictures. Just four more performances remain. The box office phone number is 23.

MERRIMACK SQUARE THEATRE

Ann Eva Fay, the world renowned artiste, will open a week's engagement at the Merrimack Square Theatre next

Monday in a brilliant demonstration of mental telepathy. This will be Miss Fay's first appearance since her return from a tour of the world. She was in Dublin, Ireland, during the great strike last December and at that time gave a special performance for Lord and Lady Aberdeen and she was pronounced an advanced pupil in the supernatural acts of the Mahatmas by them. During the coming week she will give performances for the skeptics. This class is met in every city throughout the world. Many go with the expectation of setting a trap for her, but invariably when their names are called and she repeats their questions and answers them correctly, they one and all readily admit her wonderful powers to read their innermost thoughts. Miss Fay will appear, matinee and evening, the coming week on an all star vaudeville program which will be interspersed with many excellent motion picture plays.

THEATRE VOYONS

Most people are familiar with the

story of Daniel in the Lion's Den and the children of Israel in the fiery furnace, but it is now produced by the Vitagraph company of actors and can be seen in motion pictures. This picture will be featured at the Voyons for the next three days and any person who is familiar with the Bible can follow the story from beginning to end as it is being enacted on the screen. The stage settings and detail work are excellent and there is a thrill when Daniel enters and pats the lions in their den; also when the children of Israel enter the fiery furnace with flames bursting all around them. The lesson that you learned when a child and thought improbable, will be made a great deal clearer.

THE OWL THEATRE

A suicide club is formed by a band of well known men in a big city. One young man draws the fatal number and he must die on a certain night. He is in love with a young lady who reproaches the feeling, but she in turn is loved by a much older man, who on

finding out that these young people love each other decides to take his place in the suicide club. This is the plot of "The Fatal Number" in a nutshell. Many intense dramatic moments are therefore gone through in this four act play, and the acting is superb. Don't forget that the "Mutual Girl" is going through her second adventure today and tomorrow, and seeing the success of this special feature we have decided to have this picture shown twice every afternoon and evening to make sure that everyone sees it.

THIS KASINO

Kasino skaters always come back. The impulse is irresistible. The music, the skates, the attention given by the great well ventilated hall—all contribute to ideal conditions for the exercise. Minor's brass band is making a hit with its up-to-date music. Sessions are held the last three afternoons and evenings of the week.

Overhead Showers

Substantial, complete outfit: 7-in. electric rain head, white duck curtain, 24-inch nickel ring, rubber tub, hold-fast faucet, chain and hook. Value \$6.00. Special 4.89

Prices range from 70c to \$6.00

For this week we will allow 10% reduction from our regular low prices.

"BOOST" BOSTON

Mayor Curley Punishes Bank Which Repudiated Subscription

BOSTON, Feb. 13.—Mayor James M. Curley sprung a sensation in the financial circles of this city yesterday afternoon when he announced that the city's deposits in the State Street Trust company will be withdrawn from that institution.

The mayor stated that he decided to take this action as the result of the repudiation by Allan Forbes, the president of that company, of the \$1000 contribution to the mayor's "Boost Boston" fund which was attributed to Mr. Forbes in the official list of contributors which was issued from the mayor's office.

When Mr. Forbes read yesterday morning that he had been credited with

a contribution of \$1000, he wrote the mayor, stating he had not authorized it and asking that his name and the amount be stricken from the list. Mayor Curley, upon receipt of the letter, called Mr. Forbes on the phone and notified him that city funds would be withdrawn from the bank and that no more city funds would be deposited there.

Not only will Mayor Curley withdraw the city's deposits from the State Street Trust company, which aggregate, it is understood, about \$100,000, but the mayor plans to make good an announcement which he made some time ago that he will also withdraw the city's deposits from every bank in this city which he feels will not do its part to develop Boston commercially and industrially.

In all 1900 was deducted from the fund yesterday because subscriptions were not properly authorized. The fund, however, was swelled by contributions amounting to \$4325, making a total net gain for the day of \$48,676. The alleged unauthorized contributions have kicked up quite a fuss.

SALEM, Feb. 13.—Two women passengers and a motorman were seriously injured and 50 others received minor cuts and bruises when a heavy semi-convertible Salem bound car, No. 1312, crashed into the rear of a car ahead on Highland avenue about half a mile from the high school early last evening.

Miss Mary E. Linahan of 28 Highland park, Peabody and Mrs. Mary Shaw of 4 Haney street, sustained severe bruises about the head and possible internal injuries. They were removed to their homes.

Motorman William Shugger of car 1312 had his leg crushed and was taken to the Salem hospital. The other passengers were transferred to another car. Both cars in the collision were wrecked.

The cars were extra returning to Salem with employees of the General Electric company in town. Just as the

first car rounded a curve the trolley came off, throwing the car into darkness. Conductor William McSwiggan hastened back a red lantern in his hand to warn the motorman of the car behind. The wind blew the lantern out.

Motorman Shugger did not see the car ahead in the darkness in time to stop his car. The big semi-convertible crashed into the rear vestibule of the forward car and ploughed ahead nearly six feet through it. Pieces of glass and fragments of timber were thrown among the passengers.

The two women who were injured seriously were riding in the forward car.

NEW YORK, Feb. 13.—An entire progressive ticket will be placed in the field at the New York state elections next fall. The state committee of the national progressive party decided upon this unanimously at a meeting here yesterday. Theodore Roosevelt was suggested as the progressive candidate for governor.

The former president was not mentioned by name, but was referred to by John S. Van Duser of Elmira, who launched the boom for "the gentleman in South America."

BARNSTON JOB HUNTING As in everything else, originality counts in hunting jobs.

A few years ago a manager for a wholesale saddlery and harness concern lost his job and wanted another in the same line of work. He placed a page read by the saddle and harness trade. This advertisement recited the applicant's qualifications, his past record and his expectation as to salary. Though the advertisement cost him more than \$15, it gave him his choice of three offers at compensation 10 per cent. higher than the place from which he had been dismissed.

A street-faker who had decided to get into something less nomadic than Indianapolis in the middle of winter looking for a job. He spent two weeks in inquiry that proved fruitless. Then he went to the proper city official and secured a street-faker's license to work on a certain street.

By following his faking tactics, he soon had plenty of hearers. But instead of trying to sell anything, he asked everybody who listened for a job. The first day didn't net him anything, but before noon of the second day he had been offered employment

INDOOR WORK REDUCES STRENGTH

because confining duties, lack of fresh air and sunshine gradually weaken even a strong constitution, and the enfeebled system readily accepts sickness and disease.

Scott's Emulsion checks such decline. Its pure cod liver oil is nature's grandest medicinal food while its hypophosphites act as a building tonic. It refreshes the body, puts vigor in the blood, strengthens the lungs, upbuilds the nerves and invigorates the whole system.

If you work indoors, Scott's Emulsion after meals will prevent much sickness and loss of time, and often thwarts tuberculosis—it builds up and holds up your strength.

ROOSEVELT FOR GOVERNOR

SUGGESTED AS PROGRESSIVE CANDIDATE IN COMING NEW YORK ELECTION

NEW YORK, Feb. 13.—An entire progressive ticket will be placed in the field at the New York state elections next fall. The state committee of the national progressive party decided upon this unanimously at a meeting here yesterday. Theodore Roosevelt was suggested as the progressive candidate for governor.

The former president was not mentioned by name, but was referred to by John S. Van Duser of Elmira, who launched the boom for "the gentleman in South America."

BARNSTON JOB HUNTING As in everything else, originality counts in hunting jobs.

A few years ago a manager for a wholesale saddlery and harness concern lost his job and wanted another in the same line of work. He placed a page read by the saddle and harness trade. This advertisement recited the applicant's qualifications, his past record and his expectation as to salary. Though the advertisement cost him more than \$15, it gave him his choice of three offers at compensation 10 per cent. higher than the place from which he had been dismissed.

A street-faker who had decided to get into something less nomadic than Indianapolis in the middle of winter looking for a job. He spent two weeks in inquiry that proved fruitless. Then he went to the proper city official and secured a street-faker's license to work on a certain street.

By following his faking tactics, he soon had plenty of hearers. But instead of trying to sell anything, he asked everybody who listened for a job. The first day didn't net him anything, but before noon of the second day he had been offered employment

observed that if anybody was attracted by the bell ringing his next move would be to read the menu, which was chalked on a small blackboard propped up against the building.

From this, the boy evolved a plan to better himself. He won the confidence of a sign painter and had a sign painted which read: "I'm a country boy, out of work. Who will give me a job?"

He took this sign and after lunch he stood on the curb and rang it. Passersby noticed the boy and the sign and it wasn't long until a deliveryman had given the youth employment.

Have You Stomach Trouble? Is Your Liver Out of Order?

Lassitude—undue fatigue—sleepless nights—low spirits—poor appetite—nervousness—a general feeling that there is nothing good or worth while in the world—are indications that your stomach, liver or bowels are not working naturally.

With your system in its present condition you are very apt to be laid low by more serious ills. Now is the time to right the wrong. Now is the time to bring to your aid

Dr. Pierce's Golden Medical Discovery

(In Tablet or Liquid Form)

This wonderful remedy helps to restore stomach to its natural health and strength and to secure proper flow of the digestive juices, a good appetite and full digestion of the food you eat. It invigorates the liver, regulates the bowels and purifies and enriches the blood.

Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. You can take it and be certain you will find it a true blood-maker, tissue-builder, and restorative nerve tonic, and that it will produce no evil after-effect. Thousands—probably many of your own neighbors—are willing to recommend Dr. Pierce's Golden Medical Discovery because it has made them stronger in body, brain and nerve.

You can get Dr. Pierce's Golden Medical Discovery in tablet or liquid form from dealers in medicines—or send 50 one-cent stamps for a trial box of the tablets. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Common Sense Medical Adviser—a great doctor book—a family book of 1000 pages, cloth bound—answers many important questions regarding sickness. Your free copy will be sent on receipt of 31 one-cent stamps to pay wrapping and mailing charges from Dr. Pierce's Invalids' Hotel, Buffalo, New York.

After 5 Years' Successful Business

At 24 Central St., Lowell

I am Notified by my present Landlord, Mr. Nelson, that I must vacate not later than MARCH 1st. The transformation scene between Mr. Nelson and Mr. Chalifoux announced in last week's papers includes my store as my lease expires February 15, this month.

N. B.—

MR. BELSON, my designer, by far the highest priced custom designer employed by any tailor in Lowell and only second to one in New England, is at your disposal; he has pleased the high-brows of New York. Two months ago he signed a three year contract as head designer for my Lowell store. Mr. Belson is a young man of high ideals, possessing a broad sense of the tastes and wishes of the trade. Remember, your suit is fitted to you by Mr. Belson. Under his experienced eye we can guarantee a perfect fit or a new garment for the asking.

MITCHELL.

REMOVAL SALE

I must move and I promise not to carry one yard of my present stock to my future home. Everything must be sold during the next ten days. These goods are all new fall and early spring weights, in grays, browns, fancy, mixtures, blues and blacks and all the neutral shades. Not 1 yard of cloth in stock Feb. 1 will I carry to my new store.

MEN OF LOWELL! Here's something to think about and act upon. Here's a genuine removal sale of good cloth made into custom garments that sets a new record in value giving. Here's a chance to get whatever you want in a suit at a smaller price than you've any right to expect, made any way you want. Three-piece suit, no restrictions on length of coat or size of person ordering—the large man is as welcome as the small.

My doorway will be filled with cuts of these suitings which comprise my stock on hand Feb. 1st, this year. The price for any style will be

**Suit or Overcoat

LOWELL PLAYERS SIGN UP

Club Rounding Out—Two Positions Remain to be Filled—New Pitcher From Pacific Coast

In spite of the present frosty atmosphere, we beg to inform you fans of the fact that before a couple of months have passed away the pitchers who will form the firing line for Manager Gray this year will be resting right here in this burgh of ours, and that the rounding out of the Lowell Baseball club will be on. Always provided, of course, that there comes a break in the weather between now and that time.

The pitchers who will report here on the 12th of April and who have already signed up are some of them from the staff of last year but the majority of those who will loosen up their whips at Spalding park will be seen in action for the first time by the local fans.

Pete Wood Signs
The signed contract of Pete Wood was sent in this week to the club's headquarters. Along with the contract came a note from the brother of "Smoky Joe" in which the big fellow stated that he was sure to burn up this circuit next season. If Pete just forges for a few minutes that he is the brother of "Smoky Joe" he will do much better work on the mound and perhaps will do it without so much procrastination.

Neger and Maybom have both signed their contracts for the coming season. Neger is not looked upon as a mainstay by any means, although he can be used as a filler-in when necessary. Neger displayed poor judgment in the majority of his contests last season and would not profit by the coaching of his catcher. That he has a great breaking "splitter" and plenty of speed cannot be denied but a slacker who is steady in a pinch and does not use his gray matter is always an uncertain quantity to a team and therefore a drawback.

Maybom will probably have another season as good as that of last year.

He uses his head for the most part and depends upon a slow ball more than upon speed. Maybom is out grand chap personally, and we hope to see him come back this spring with his warbling tail of new tricks.

Oakland, Cal., Pitcher
Manager Gray has received the contract of a new pitcher by the name of Lohman, who played last year with the Oakland team of the Pacific Coast league. Lohman is considered to be a comer, and his release was bought outright by the Lowell manager. He worked in 25 games last season with the Oakland club but was only credited with 13 in the percentage column.

Lohman won six games and lost seven but every contest that he lost was by a close score. Two of these games were 1-0 affairs, and the most that any club touched him up for was 1-0.

Memphis Pitcher
Then there is still Memphis to be heard from. The understanding was that Jimmy Gray should have a pitcher in return for Lavigne but that the pitcher must prove satisfactory to the Lowell manager or another one would be forthcoming. Inasmuch as the Memphis club will have to bear the expense of transportation in the advent of their man not suiting Gray it is altogether probable that the pitcher sent on at first will be well worth his salt to the Lowell management. If you remember this was the same sort of deal which was made with the Milwaukee club when Fluharty was sent to that city. Old Reliable Mitty Zoser was sent on here and we all know how Matthew acquitted himself before jumping to the Red Sox. Shenk, the man from Annapolis, Pa. whom Eddie Miller recommended so highly is another boxman who looks good on paper. Besides these pitchers mentioned there are several youngsters on the list who will all be

given a thorough workout in the pre-season games.

The Infielders
Behind the bat Thomas and Waycob will, in all probability, do the bulk of the catching. Waycob wrote on yesterday to Manager Gray from his home in California. Said the former Witchita, Kansas, backstop, "I don't want to go out of the west but suppose I will have to as long as I have been sold to your club. However, I shall play hard baseball for you, Mr. Gray, providing that I determine to go to Lowell. There is just one thing that I want you to do. Your contract is very generous but I would like to have you send me my expenses for the journey both there and back." Manager Gray sent a letter off posthaste telling Waycob that his conditions would be met.

Jarsik is also another catcher who will probably put in a strong bid for a regular berth. There are several more big mitt artists who will attempt to break in with Lowell but the contest will doubtless lie between these three men.

Kelley For First Base
Kelley, the youngster procured from the New York Americans, is the player who is slated to hold down the initial sack this year. Kelley is said to be a wonder and Arthur Irwin, scout for the Yankees, wrote on that if Kelley did not succeed he would return the purchase price to the Lowell club and take up the player. This action certainly shows that the New Yorkers have faith in his ability and it would not be surprising to see him spring a sensation on the "little old league." Kelley can grab any kind of a thrown ball, can hit hard and often and is very fast on the bases. That is, reports say all these nice things about him.

"Shorty" at Short
"Shorty" Doe will probably be seen at shortstop this season. Although "Shorty" had a very successful season at the hot corner last year Eddie Carr, the boy who Tom Daly picks as a doer, is a third baseman and, as Doe has had experience as a shortstop, Carr will be placed at third base.

Two Positions Vacant
With DeGraft in right field and Burke, the other man received from Wichita in exchange for Clemens, in center field there remains but two positions which are not certain to be filled by players with a reputation for speed, hitting and fielding ability. It is a clinch that the Cubs has at least one more good season left in him and from all accounts Burke is a wonder. The latter can play either the infield or outfield.

Therefore left field and second base have got to be taken care of by either some of the promising rookies or by players who Manager Gray will pick

DOPE AROUND CIRCUIT

Federals After Several New England Leaguers—More Umpires Signed—Other Baseball News

Manager Gray of the Lowell baseball club has gone to New York along with the influx of the major leaguers into the metropolis. The Lowell baseball pilot expects to pick up several promising players who will be left out in the cold when the final lineup of the teams in the two big leagues are decided upon.

This is the manner in which many minor league teams are "made." One of the majors will pick up a good youngster but, on account of the fact that he has not had experience enough, he is turned over to some minor league team or sold outright. Gray reckons many of the major managers on his list of friends and the probabilities are strong that he will return to Lowell with several signed contracts in his possession.

Baseball in Lewiston
League games in Lewiston on all days except holidays will be started at 3:15, according to the present plans. The time for calling the game is one of the most important considerations in the policy of the club and has been given serious attention by the baseball quartet in their discussion. Talking schedules of the trolley lines, the length of the game which is slightly

up before the beginning of the 1914 season.
From the way the teams dope out on paper it looks now as though Lowell had the bulge on the seven teams who will struggle for the New England league pennant and the honor of defeating the league title against the challengers from the Eastern Association ladder top. If half of Manager Gray's players turn out as well as their sponsors state there is no reason why the local club cannot clean up the circuit again in 1914.

under two hours, the management at present believes that time to be the most desirable. The time has not been chosen arbitrarily, however.

Joe Burns and his secretary, Tim Leonard left Lewiston Friday morning for Boston. Any lingering doubt the owner may have had in his mind concerning the degree of fan Lewiston supported has been strangled and laid to rest. Burns left with optimism to the ninth degree, pleased with the reception of the fans, the encouragement of the business men.

He assured the Lewiston Journal that the name of the manager would be announced within a few days and that as fast as the contracts were signed the names would be given out.

Bill Carrigan and Mike McDonough went to Boston to attend the D. A. A. games Saturday night—Lewiston Journal.

Pleper Confident
Mgr. Louis F. Pleper of the Lawrence team has enough signed contracts in his possession to feel perfectly at ease—except pitching material, says the Lawrence Tribune. He has sent two fingers in the air and both are rookies. Three of last year's string have yet to come across, although Fuller sent word a few days ago that his contract would be here in a few days. Bruggy and Luyster are the other veterans who have not signed up. Of the 25 players who, at the present time, constitute the Lawrence roster, 18 have signed, one has accepted terms which is the equivalent, and seven have not signed. Of the seven unsigned, five are pitchers, one a catcher and one an outfielder. All seven unsigned are not holdouts, although in the cases of one or two there may be slight differences to settle. The seven pitchers whom Manager Pleper has in his list, two signed and five unsigned, are right handers. He has no southpaw to take up the burden where Pat Martin left off. He may

have his troubles getting a "porsider" the equal of Martin, but he hopes to secure one from the Boston Red Sox and already he has conferred with President Joseph J. Lannin in regard to the matter.

Of the pitchers, Rippe from New York city, where he worked in the semi-pro ranks, George Egan, also of New York, was recommended by Adrian Schless, Pat Martin recommends Joseph Campbell of Jamaica, N. Y., while Larry Mahoney is a sponsor for John Coggin of Cambridge.

Frank Bruggy will be behind the bat. Manager Pleper will not use him in the outfield. Galvin and Baxter, who did backstop work here last season, will be back. Leahy and Kelly, two semi-pro boys, are signed. Nigr, Pleper expects at least one other backstop candidate. He may also get a receiver from the Montreal club of the International league.

Harry Freymutter will not wear a Lawrence uniform in 1914. If not traded or sold, he will be released. The same is true of Billy Phoenix. Both have received contracts, but it was a sort of protection for the local club in case there was a chance to use either or both of them in a trade. Neither will play here.

Of the first basemen, Anderson was here last season. Sprague comes from Assinippi and is to be given a trial on the say-so of Larry Mahoney. Schless recommends Carey of New York. For second, Johnson, whose terms have been accepted was with New London a part of last season. He was recommended by Sam Kennedy. Billy Luyster recommends Malloy. Altek Pearson says Rittelman, a play third and tipped Pleper off. Rittelman comes from Pittsburgh. Malloy lives in Jersey City. Johnson lives in North Grosvenordale, Conn.

Jack Stafford's find, Cunningham, of Somerville, will try out for short and be a rival for Ted of West Falmouth, Vt., discovered by Treasurer D. A. Noonan.

In the outfield, O'Connell and Luyster are from last year's team. For the position vacated by Bruggy, there will be Gallagher of Clark Summit, N. J., recommended by Hugh Jennings; Dwyer of Brooklyn, recommended by Pat Martin; Thompson of Wilkesbarre, Pa.

The Lynn New England league baseball club has secured Ocean park for another year. The directors of the club and the owners of the park met and an agreement was signed which gave the Lynn baseball men control of the park. A communication was received at the headquarters of the club while the directors were in session from L. E. Williams, who was purchased from Chattanooga of the Southern association, that he would not join the team as he intended to give up baseball. Williams hit for .222 in 93 games and fielded for .639 in 47 games

at shortstop, and in 32 games in the outfield his average was .940.

Kilhullen for Feds

Fred Lake's Fitchburg team is apt to be hit a hard blow by the Federal league if the report from Scranton, Pa., is true. According to reliable information from that section of the country, Joe Kilhullen, who last season caught for New Bedford, will sign up with the Federals. Otto Knabe, manager of the Baltimore team, is the man who would like to have Kilhullen join his team and he has asked Joe to come to Baltimore and talk it over. Kilhullen is reported to have stated that Lake did not treat him right last season and that Lake had a chance to sell him to either Jersey City of the International league or Oakland of the Pacific coast league. Joe must be talking through his hat, or else his friend has got the dope badly mixed for Lake had nothing to do with the New Bedford team last season. Lake was acting as scout for the Detroit team last season and John O'Brien was manager of New Bedford. Joe must want an excuse to jump.

Three More Umps

Secretary Cooper of the New England league, has signed Umpire Doherty of the Eastern association for the coming season. Doherty was one of the umpires who worked in the Lowell Hartford championship series, and with the exception of the first battle, performed satisfactorily. He is well liked in the Eastern association, and is said that he has been secured by the New England league because of a better money offer. "Fat" Langan of Providence, R. I., and John Black of Camden, N. J., formerly of the Tri-State league, are other umpires who have been hooked up.

IN SACO-LOWELL LEAGUE

The team standing and the individual averages in the Saco-Lowell bowling league are as follows:

Team standing:	Won	Lost	P.C.
Shops	24	15	60
Draftsmen	21	19	52.5
Pattern Job	20	20	50.0
Shoppers	20	20	50.0
Office	16	24	40.0

Individual averages are as follows:
Martin 97.4, Demers 92.0, Marshall 91.1, Thurber 90.1, Proux 89.6, Monahan 89.1, Harral 88.6, Bibeault 88.1, Shapiro 87.6, Shaw 87.2, Grant 86.9, Silcox 86.8, Lane 86.6, Finnerty 86.1, McKitterick 85.5, Woodman 85.5, Harwell 85.5, Lincoln 85.1, Woodies 84.9, Farrell 84.6, Conley 84.5, Queenan 84.5, O'Neil 84.1, Baker 84.1, Curry 84.1, Brock 84.1, Judd 83.8, Collins 83.7, Welton 83.7, Conney 83.4, Goulet 82.2, Deslauries 82.0, Boardman 82.0, Hammond 81.1, McNulty 80.6, Phaneuf 80.6, Johnson 78.5, Capt. Soule 75.3, Desmarais 75.3, Taylor 74.5.

DEATH AND SUFFERING IN WAKE OF COLD WAVE

Zero Temperatures Recorded in All Parts of New England Today, but Rapid Rise is Promised—Nine Deaths in New York

BOSTON, Feb. 13.—The second cold wave of the winter which set in on Wednesday night showed signs of breaking today, although below zero temperatures were recorded in all parts of New England except at Nantucket and Block Island.

Northfield, Vt., maintained its place at the head of the low temperature columns in the government records with Greenville, Me., a close second.

It was said at the weather bureau today that an old fashioned snow storm which was raging this morning in Mississippi would bring warmer weather when it reached New England probably tonight or tomorrow.

The minimum temperatures in some New England points last night were:

Northfield, Vt., 24 degrees below
Greenville, Me., 20 below
Hartford, Ct., 10 below
Barnstable, Mass., 10 below

Coucord, N. H., 5 below
Portland, Me., 4 below
Hartford, Conn., 4 below
Boston, 3 below
Block Island, R. I., 2 above
Nantucket, Mass., 4 above

NINE PERSONS HAVE DIED FROM THE COLD IN NEW YORK CITY

NEW YORK, Feb. 13.—New York today was still in the grip of its second cold wave of the winter with its temperature rising slowly at dawn, and predictions that it became much warmer before nightfall. But with the relief from the zero weather, the forecasters sounded warnings of an approaching snowstorm from the southwest which is hourly expected to envelop the eastern seaboard.

All day yesterday and last night the temperature hovered around zero.

Death and suffering followed in the wake of the cold wave throughout the entire northeastern half of the country. Nine persons in New York city and vicinity have thus far died and many in hospitals are in critical condition.

In all sections of New York state and even as far down the coast as Norfolk intense cold is reported.

50 FIRES IN GREATER NEW YORK IN NINE HOURS KEPT FIREMEN JUMPING

NEW YORK, Feb. 13.—Fifty fires in greater New York between the hours of 7 p. m. and 4 a. m. drove hundreds of persons into the zero weather and gave firemen one of the busiest nights in the history of the city. No lives were lost, but hundreds of persons are suffering from exposure. A fire in a six-story house containing a Turkish bath establishment and 30 families drove 200 scantily clad tenants into the street. The fire itself was trivial.

AN EXCITING RUNAWAY

Turner Centre Cream Scattered on Bridge Street When Horse Struck Pole in Wild Gallop

A heavy wagon owned by the Turner Centre Creamery was practically wrecked, several gallons of cream were spilled on the sidewalk, and dozens of cream bottles were broken, this morning about 8:45 o'clock, when the horse attached to the wagon became frightened on Bridge street and ran into a telegraph pole while attempting to turn into First street. The wagon was completely overturned and cream and broken glass covered the street and sidewalk in the vicinity.

The horse was left standing near the corner of Bridge and Fifth streets while the driver, Thomas Brown, stepped into a store to leave an order. What caused the horse to start running is not known but it is believed that the noise of the vehicle on the frozen snow frightened the animal and he started at a rapid gallop toward Centralville.

When he neared the corner of Bridge street and Lincolnton avenue, a street car conductor stood in the centre of the street with a long stick used to turn the signs on the cars in an attempt to

halt the horse but as the entrance to First street was open the animal attempted to turn the corner but slipped on the street and the wagon crashed into the pole in front of Norman's drug store. Fortunately there was no one on the sidewalk near the corner at the time when parts of the wagon and flying glass were sent in all directions.

Several men who were passing arrived on the scene and unhitched the horse from the wagon and to their surprise learned that he was not seriously injured.

The wheels and axles of the wagon were broken and the top was smashed in while the contents was a complete loss. The Turner Centre Co. was notified and another team was quickly dispatched to the spot where the accident occurred to take away what remained of the load. The wagon was removed to a carriage repair shop.

To the youngsters who came to the scene the waste of cream frozen on the street and sidewalk was the worst feature of the occurrence.

KITCHEN RANGE EXPLODED

Mrs. Susan Blaisdell Struck by Fragments and Knocked Unconscious—Building Saved

Mrs. Susan Blaisdell of 232 East Merrimack street was struck and knocked unconscious by an oven door about 7:15 o'clock this morning when the kitchen range in her home exploded and blew the large stove to pieces. All the windows in the room were blown out and considerable damage was done to the furniture and other articles in the kitchen.

The explosion was caused by the thawing out of pipes connected with the stove and Mrs. Blaisdell was the only one in the kitchen at the time. After being struck by the heavy door she shouted for help and other men-

bers of the family rushed to her assistance but found her unable to give information relative to the accident.

Fire had started in several places on the kitchen floor and a telephone alarm was sent to the fire department but before the members arrived the blaze had been extinguished by the men who had been aroused by the noise of the explosion. Hundreds of fragments of the stove were scattered over the floor and the kitchen was badly wrecked.

A doctor was summoned and Mrs. Blaisdell soon recovered although she was badly bruised and shocked. The

building is owned by Mr. Thomas Brennan.

Fire on Lawrence St.

Attempting to heat up the house was undoubtedly responsible for a fire in the home of John F. Bredy, at 57 Lawrence street about 7:44 o'clock this morning. A telephone alarm summoned the members of the protective to the scene and the blaze was quickly extinguished, no damage being done. The fire caught from an overheated fireplace.

FIRE ON STEAMER WAVE

CAUSED CONSIDERABLE EXCITEMENT AT NEWPORT, R. I. TODAY

NEWPORT, R. I., Feb. 13.—Fire on the Steamer Wave, the ferry and fireboat attached to the naval torpedo station here caused considerable excitement at the government landing today. The blaze broke out in the pilot house just as the clerk was boarding the boat to go to the station. Overheated steam pipes were responsible.

MORE TROUBLE AT HAITI

NEW PRESIDENT TO PROCEED AGAINST GEN. THEODORE, WHO IS DETERMINED TO FIGHT

PORT AU PRINCE, Haiti, Feb. 13.—General Orestes Zamor, the newly chosen president of Haiti decided today to proceed against General Theodore, who is determined to fight with his rebels.

The president's army began its march on Cape Haitien today and at the same time three small government war vessels were ordered to proceed to the same destination.

DANCING CARNIVAL

Under the Auspices of the Warnetta Campers at Associate Hall Tonight

A dancing carnival, under the auspices of the Warnetta Campers will be conducted in Associate hall this evening and all desirous of a good time should take in the carnival. Features include one of the most successful dancing parties ever held in Lowell. On that occasion a "Battle of Music" was the feature, and this was the first time that such a diversion was given here. Since that time several similar parties have been given, so in order to maintain their reputation of fun, the Warnetta Campers are giving a banner program for tonight and Associate hall should be crowded to the doors.

MATRIMONIAL

The marriage of Mr. Peter Kearney to Miss Mary Dillon took place Wednesday afternoon at St. Peter's rectory. Rev. W. George Mullin officiating. They were attended by Miss Theresa Gargan, niece of the bride, and Mr. George Clark. The bride was gown in white champagne and carried bride's roses; the bridesmaid wore yellow chambray and carried yellow roses. A reception was held at the home of the bride, 121 Lawrence street, after which the couple left on the 3:59 train for Boston and New York. They will be at home to their friends after March 31st at 20 Bowden street.

The flag presented to the Ames School yesterday afternoon was the gift of the Ladd and Whitney circle. No. 5, Ladies of the G. A. R. and not the relief corps, as was stated yesterday.

If you want help at home or in your business, try The Sun "Want" column.

HAVE PRETTY HAIR

Soft, Fluffy, Abundant—Use Parisian Sage. It Stops Falling Hair and Itching Scalp.

If your hair is not as soft and heavy as that of some friend, do not despair—do as she does—give it daily attention. Beautiful hair is largely a matter of care. If it is too thin, make it grow. If it is harsh and brittle, soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage and all dandruff disappears.

Parisian Sage, sold in fifty cent bottles at drug and toilet counters, is just what you need. It quickly stops itching head, cleanses the hair of dust and excessive oil; takes away the dryness and brittleness, makes it seem twice as abundant, and beautifies it until it is soft, fluffy and lustrous.

You cannot be disappointed in Parisian Sage. Always sold on money back if not satisfied plan.

RADICAL STEPS

In Elections to Academic

Senior Secret Societies at Yale

NEW HAVEN, Feb. 13.—Radical steps for the elimination of alleged objectionable features of the present method of announcing elections to the academic senior secret societies at Yale are proposed by members of the Junior class, as the result of a discussion last night at a meeting attended by about 100 Juniors, practically a third of the class. Too much publicity, it is claimed, has been given to the tap day exercises, while the spirited contests which have taken place in public between the societies for desirable men has given the societies an undue importance in undergraduate eyes. To curtail the publicity, it is proposed that the place for holding the annual ceremonies be Berkeley oval, a more restricted spot, instead of the traditional corner of the college yard under the spreading maple trees. To eliminate the contests it is proposed that the societies, previously agreed among themselves as to men and to aid in their choice it is further proposed that there be submitted to them a list of seventy members of the Junior class, after it has been approved by some responsible person as the choice of the class of those worthy of senior society membership.

CALLS FOR WOMEN SUFFRAGE

TULSA, Okla., Feb. 13.—Oklahoma republicans in state convention here today endorsed the action of the national committee in charging the basis of representation in national convention. The platform adopted calls for women suffrage, a modified recall of judicial decisions, and a workman's compensation law.

"Personally Conducted" Trips to California Combine Comfort and Economy

Of course you have planned to take a California trip, but possibly you have been waiting until you thought you could better afford it. If that is the case, I have some good news for you.

Our Personally Conducted Parties to California are especially planned to meet just your requirements. Our parties travel on extra low fare tickets and have comfortable quarters in clean and attractive Pullman Tourist sleeping cars. Your pleasure is looked after all the way by a chosen representative of the "Burlington Route" whose first duty is to relieve you of care and detail, make you feel "at home" and point out and explain each of the thousands of points of interest along the way.

The cost of it all is surprisingly low. If you will write, or drop in at the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" parties.

Alex. Stocks, New England Passenger Agent, C. B. & Q. R. R., 281 Washington st., Boston.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

MIDDLESEX STREET CROSSING

It is well that the board of trade and other interested bodies representing the business and civic life of Lowell should be well represented next Saturday at the hearing to be given in this city before the commission on grade crossings. The commission has been created to hear arguments from those communities that already have petitioned or are about to petition for the abolition of such crossings, as to the reasons for the request, and its members should be given a correct impression of the public view in this regard. Public hearings usually do not always bring out a proper expression of public sentiment and though their failure is not taken as indicative of the merits of the question under consideration, it undoubtedly creates a bad impression, and dampens the enthusiasm of those who are striving to achieve any fixed purpose.

As President Harrington of the board of trade stated at the recent meeting of the commission on municipal affairs, highways, transportation and public utilities, even should the commission be favorably impressed with the arguments put forth by the citizens of Lowell as to why the Middlesex street crossing should be abolished at the present time, it would in all probability be many years before the work would be accomplished. Owing to the present financial embarrassment of the Boston and Maine it will grow at anything savoring of unusual expenditure, but its attitude should not be permitted to affect the merits of the case. Were the commission to decide that the crossing should be abolished as soon as possible, the city would not be unreasonable with the railroad, but would take a consistent stand with regard to the time of starting the work of reconstruction that the change of the crossing would necessitate. What is really necessary is that the undesirability of the crossing be brought home to the commission, although on this point no argument would seem to be necessary. What the company has done for Lynn and other cities it should not refuse to do for Lowell.

The arguments for the abolition of the Middlesex grade crossing have been aired so often that they are known to the man on the street, but they will come of themselves to anyone who ponders on the effect of the crossing on that section of the city which is out of date and out of keeping with the character of the city; it is dangerous; it impedes traffic; it keeps property values in the vicinity low; it prevents the development of Middlesex street; it is an eyesore from the scenic point of view; it gives a bad impression of Lowell to the thousands who pass through going north or south daily. These arguments and many others are sufficiently important to warrant the commission in favoring its immediate elimination. It is for the best interests of those who regard the abolition of the crossing selfishly or unselfishly to go to the hearing on Saturday and present their arguments forcefully, intelligently and convincingly.

CAR SHOP EMPLOYEES

Lowell has had a great deal to say more or less officially about welcoming the hundreds of workers to the new car shops of the Boston and Maine in North Billerica and making them feel at home in their new surroundings, but it is to be feared that the preparations for them have been rather inadequate. Unfortunately too much was left to the initiative of the workers themselves, and though there were registers of available tenements and other necessities, it has been forgotten that the most complete and scientific life cannot quite atone for the city's apparent lack of interest. One who has lived in the domestic atmosphere of a New Hampshire community will not make up his mind readily about taking up a home here for his family, and even should he desire to live here immediately, it is impossible for him to decide at a moment's notice in which section he ought to reside. There are many other considerations to be considered besides the mere fact of finding a home. The skilled mechanics who have come here from Keene and Concord are a valuable addition to the community and it will be to the advantage of the city to make suitable arrangements for them and for their families. With the present difficulties of the school department and the inadequate school accommodation for our own children in some quarters, the city will have a little trouble in making suitable arrangements for giving school accommodation to the children of the newcomers. Like the housing problem this school question offers a difficulty that has not been satisfactorily met thus far, and there is room for activity regarding it. Anything done for the accommodation of the fine trained body of men who will make such a notable addition to the population, numerically, socially and industrially, will not be done as a favor but as a debt which Lowell owes to all who come here to swell the ranks of our law-abiding citizens. Railroad men are essentially domestic in their nature and those who

have come to stay will be permanently grateful for any interest which Lowell may show in aiding them to settle here with their families under conditions as favorable as those they leave behind them in New Hampshire.

NATURALIZATION IMPRESSIVE

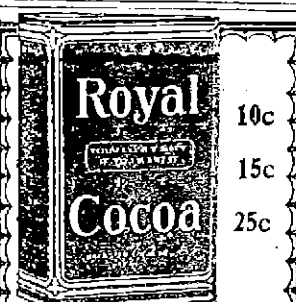

The Lynn News calls attention to the fact that the manner in which citizenship is bestowed upon aliens who have taken the preliminary steps towards naturalization are not much calculated to give them a high regard for the great dignity bestowed on them by the state. Added to the lack of ceremony or dignity is the fact that those who apply for the high privilege are frequently prompted and assisted by politicians who make the first consideration of citizenship the ability of him who receives it to vote for his shrewd benefactor. It is not singular that those who thus add themselves to the ranks of American citizens should occasionally regard their acquired dignity too lightly.

In this city there is not only a lack of the dignified formality that should surround the granting of the privilege of citizenship, but the sessions are irregular enough to lead the average man to believe that a naturalization session is squeezed in every little while when other state matters get dull. There is little advertisement of the fact, and poor arrangements are provided for those who apply for first or second papers. It is not unusual for a man to wait several hours round the corridors of the court house in company with others, waiting for the time when the papers are bestowed on him with little ceremony.

If this system is democratic, it is not wisely democratic. There should be some appropriate ceremony surrounding the granting of citizenship papers which would impress on the mind of the applicant that the honor is no light one. In Salem recently fifty men who were eligible to receive their final papers were gathered in the high school hall and were addressed on the privileges and duties of citizenship by former District Attorney White. Following this dignified talk, the papers were presented with appropriate formality. Exercises such as this would go far towards impressing on the mind of the newly made citizen the meaning of the serious ceremony of bestowing citizenship on aliens.

CANNOT FORCE COMPETITION

Arguing that the administration anti-trust program is not drastic enough to be effective in applying the terms of the Sherman act to business, the progressives at Washington are advocating some important changes, embodying differences from the proposed measure in degree rather than in principle. Among the tenets published with a great flourish is that there should be no attempt to force competition. Surely at this stage of the game the government knows only too well that any action to "force" competition must be negative. Competition cannot be forced, and it should not, even if it were possible. If there are monopolies that consciously restrain trade for selfish interest they are opposed to the spirit of the Sherman law and the proposed law sanctioned

by President Wilson, and they should be curtailed or prevented. Competition would naturally follow in many lines, but it cannot be forced. You cannot compel great industries to compete but you can compel them to refrain from killing competition. This is all the government is striving to do, and if it succeeds, it will have worked wonders.

BUSINESS SUPPORTS CURLEY

One of the most remarkable movements started in an important municipality by a new mayor in recent years is the "Boost Boston" movement which Mayor Curley has started on a basis of co-operation that is as inspiring as it is apparently practical. With his characteristic initiative and courage the new executive called a meeting of the heads of Boston's financial, political, industrial and social life together and after pleading for unified effort, he inaugurated a campaign to raise a million dollars for the purpose of making some gigantic improvements and inducing outside industries to locate in Boston. His appeal was responded to generously and in half an hour almost \$50,000 was raised as a nucleus for the fund. The significant thing about the movement is that many of the financial and commercial leaders who have thrown themselves into the movement with enthusiasm were opposed to the new mayor strongly throughout the last campaign. He has already done much to beat down prejudice and to show that he is possessed of the courage of his convictions.

FOR SALE

If one watches the papers closely (these times he may be able to get a good bargain in slaves or brothers or sons and daughters, for selling off members of families is becoming quite popular. Once a week at least some poor mother advertises the fact—or the newspaper says she does—that she will sell two perfectly good children almost as good as new, to the charitably disposed. A few weeks ago an ambitious woman in Waltham having failed to

SUFFERED SEVERELY WITH ECZEMA

Broke Out in Blisters. Clothes Irritated It. Wanted to be Scratching All the Time. Cuticura Soap and Ointment Cured.

Pine Street, N. Sedgewick, Me.—"I had a little girl who suffered severely with eczema when about five months old. She broke out in what looked like blisters as big as a pea and then they all ran together. Her clothes irritated it where she'd rub and she kept scratching and made awful cries when she would scratch her stomach. If she put her little hands on her face and left the places would also break out just the same way. She wanted to be scratching about all of the time. Her little stomach was all raw sore. She couldn't sleep at times; she would wake up and cry.

"I tried sweet cream and cold cream, salve and ointment, and I was given some powder to put on her. I began using Cuticura Soap and Ointment and I bought one of Cuticura Soap and Ointment and one box of Cuticura Soap and Ointment and they cured her in one month so she is all well." (Signed) Mrs. Bernice Carter, May 7, 1913.

A single hot bath with Cuticura Soap and a gentle anointing with Cuticura Ointment are often sufficient to afford immediate relief to the most distressing cases of skin and scalp diseases when all else fails. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine downy hair—new hair—growing all over the scalp.

What is

Cocoonia Violente

It is no unimportant laxative and a grand systemic tonic.

It will relieve headache by removing the cause, whether due to disarrangement of the stomach or constipation.

It will, by following the directions, positively relieve constipation of all forms, due to any cause.

Price per box, 25c, at all druggists. Samples free.

Every Woman Knows That

instead of sallow skin and face blemishes she ought to possess the clear complexion and the beauty of nature and good health. Any woman afflicted or suffering at times from headache, backache, nervousness, languor and depression of spirits—ought to try

BEECHAM'S PILLS

the safest, surest, most convenient and most economical remedy known. Beecham's Pills remove impurities, insure better digestion, refreshing sleep, and have an excellent general tonic effect upon the whole bodily system. They have a wonderful power to improve the general health, while by purifying the blood, Beecham's Pills clear the skin and

Improve The Complexion

Sold everywhere. In boxes, 10c., 25c. No woman should fail to read the valuable directions with every box.

make a boarding-house pay, tried to sell her husband, but strange to say, there were no bargain hunters. And prospective husbands are scarce, too, they say. Being a sensible woman she made the best of the matter by deciding to keep him, so she went back to the boarding-house business. These are great times for the friendless who have money enough to pick up some of the real bargains in slightly damaged families that are advertised from time to time.

The New Haven railroad pail rather a high figure. It seems, for the purpose of "collecting sentiment." The road would find it quite easy to collect sentiment at present, but it would not pay much for it. There's sentiment and sentiment, and the kind that now overstocks the market is not the right variety—from the New Haven's point of view.

If there is anything in the Darwinian theory, the people born a few centuries hence will either have no legs or have them appended as mere ornaments. With the increase of electric cars, automobiles, elevators and other mechanical means of conveyance, legs are becoming unnecessary as means of locomotion.

The citizens of Lowell must not sit back in smug complacency and let the board of trade or other organization do all the work. Civic bodies do their greatest work in showing the rest of the community what they ought to do in order to achieve something.

The one quality that is not lacking in higher political circles these times is courage. If we may take the examples of the president at Washington and the chief executives of Boston and New York as typical.

To the chronic kicker it is well to apply the following old Irish proverb: "This man on the fence is always the best hurler."

We have heard a few preparatory growls to remind us that March comes in like a lion.

We take our hats off to the ground hog as a weather prophet this time.

Seen and Heard

The state house reporter of the Boston Traveler-Herald pays the following compliment to Rep. John J. Gilbride of this city: "Representative Gilbride of Lowell, as clerk of the committee on election laws, finds that his committee is one of the busiest on Beacon Hill, but he has aroused favorable comment by his colleagues on the committee by the way he 'bats up' work."

Just received a postal from our mutual friend, Donald J. McLaughlin, "Hoot Mon" is in Frederick, N. B., and was a few days ago, and here's what he had to say about the capital of New Brunswick: "Shedd park has nothing on the streets here for a skating rink. They're so slippery that it's hardly worth while while sitting up one falls so often."

Mr. Frank Brogan, the genial and

WHAT TO DO FOR NEURALGIA

The one great symptom of neuralgia is pain; the one great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia. Apply heat to the affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot foment, hot water bags, etc., lulls the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside.

Dr. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

trustworthy insurance man, reminds us of the fact that Nathan Crosby who succeeded Joseph Locke and preceded Samuel H. Hadley as justice of the local police court, had the same birthday as Lincoln. Judge Crosby was born in Sandwich, N. H., February 12, 1828 and graduated at Dartmouth college in 1850. He was appointed justice of the Lowell police court in April, 1885 and died in February, 1885.

The following relative to Judge Crosby's appointment to the police court bench, is from Cowley's history of Lowell.

"Since his elevation to our police bench, Judge Crosby has enlightened the asperities of law with the amenities of literature."

The story of the \$100 bank book is known to a few. It is worth telling to many, particularly the young men who are thrifless or who are complaining that there is no chance for a young man to get ahead these days.

This bank book was started in 1894, which was not so very long ago, as men look back upon time today. It was started by a young man who had a responsible position in a factory. He was paid a salary of \$10 a week, which was a very good salary. But he found that he was no better off at the end of the week than at the beginning. He was spending as fast as he was making.

He made a New Year's resolution to start a savings bank account. He deposited \$10, one half his weekly salary. The next week he deposited another \$10, and the third week \$5. The fourth week he deposited nothing at all, and likewise the fifth, sixth and seventh week. The eighth week he began to draw money from the bank and he continued to draw a little at a time until his balance was reduced to about \$1. Then he once more realized that his money was slipping through his hands like water through a sieve and he once more determined to build up a savings bank account.

This time he added to his determination an ambition to invest his savings in some business enterprise. So he began to save money from his weekly salary once more, and he put his savings into the bank. When he had \$30 he invested it in his first business enterprise, in the very industry in which he was employed, not in any get-rich-quick scheme or something else that he didn't know about. He put his money where he could see it, and control it, and he watched it grow. That \$30 invested has grown into a big business today.

When the young man got well established in business, he took \$100 from his profits, and put the money into the savings bank, and the amount was entered on the book that he started when he was working on a salary, and was trying to save a little money so that he would be better off at the end of the week than at the beginning. He put this book into his safe, and he keeps it there. He looks it over when things look dull, and he gets new courage from it, for he believes that if he struggled through those first hard days of saving he can struggle through all of the difficulties of his business today. When any pessimistic persons stop in his office, and complain that there's no chance for a man with little capital today, he pulls out his bank book, and presents it as material evidence that there is still a chance for the man who is willing to work and to save.

LINCOLN THE MAN OF THE PEOPLE

When the North-Mother saw the whirlwind Hour Greatening and darkening as it hurried on.

She left the Heaven of Heroes and came down to make a man to meet the mortal need.

She took the tried clay of the common race; Clay warm yet with the genial heat of Earth.

Dashed through it all a strain of prophetic; Tempered the heap with thrill of mortal tears;

Then mixed a laughter with the serious stuff. It was a stuff to hold against the world.

A man to match our mountains, and our comely stars to look our way and honor us.

The color of the ground was in him the red earth;

The tang and odor of primal things; The radiance and pallor of the flesh;

The gladness of the wind that shakes the corn; The courage of the bird that dares the leaves;

The pity of the snow that hides all scars; The loving kindness of the wayside well.

The tolerance and equity of light; That gives as freely to the shrinking weed.

As to the great oak flaring to the wind—

To the grave's low hill as to the Mat-turborn That shoulders out the sky.

And so he came. From prairie cabin up to capitol, One fair ideal led our chieftain on. Forevermore he turned to do his deed With the fine stroke and gesture of a king.

He built the rail-pile as he built the state, Pouring his every strength through the fiery blow.

The conscience of him testing every stroke; To make his deed the measure of a man.

So came the captain with the mighty heart; And when the step of Earthquake shook the house,

Wrenching the rafters from their ancient hold. He held the ridgepole up, and spiked again.

The rafters of the Home. He held his place. Held the long purpose like a growing tree—

Held on through blaine and faltered not at praise. And when he fell in whirlwind, he went down.

As when a kindly cedar green with boughs—

Goes down with a great shout upon the hills.

And leaves a lone some place against the sky.

—Edwin Markham.

EDITORIAL COMMENT

SPLITTING HAIRS New Bedford Standard: Governor Walsh is right in insisting that men whom he appoints to the bench must be gentlemen. There is a difference between a gentleman and a scoundrel.

Why he should plume himself on making this requirement, since judges appointed by other governors have a wide reputation for being scoundrels, is a question that only gentlemen be admitted to the practice of law it would have been more to the point.

QUITE NEEDED Woonsocket Call: The Norris resolution commands the interstate commerce commission to probe the New England coast, to find out if it has declared itself unable to go. What is all this for? What is to be gained? The talk about getting back some thing out the New England coast just sounds like a far cry. What the

U. S. SENATOR GORE NOW ON TRIAL, AND HIS WIFE WHO WILL AID HIM

Senator and Mrs. GORE
© BY AMERICAN PRESS ASSOCIATION

OKLAHOMA CITY, Feb. 13.—Trial of the \$50,000 damage suit of Mrs. Minnie Bond of this city against United States Senator Thomas P. Gore of Lawton has been opened here. Mrs. Bond charged that the blind senator seized her hand, broke her glasses and cut her cheek in attempting to force his attentions upon her in a hotel room in which she had received him for a conference regarding a political appointment she wanted for her husband. Senator Gore denies each allegation, and his attorneys have taken depositions which indicate that they will question Mrs. Bond's reputation for veracity. Mrs. Gore, the attractive wife of the blind senator, will be called as a witness for him. She asserts her belief in the senator's innocence and denies the truth of the rumor that she will seek a separation from him at the close of the trial.

TOBACCO PLANTS

Afflicted With Mosaic Disease Should be Removed From Field

A serious disease to tobacco plants, which often greatly damages the crop, has been carefully studied by scientists of the department of agriculture. The department has just issued an extensive report describing the nature and

symptoms of the disease and such methods of control as have been found effective. Careful experiment has shown that certain insects spread this disease, and in greenhouses, plants screened with fine cloth and fumigated with a nicotine paper were kept free from it. In the field, the only method of control at present available seems to be the prompt removal of all plants infected with the disease.

Laborers in the operations of worming, suckering and toping tobacco plants may readily communicate infection from diseased to healthy plants, for if healthy plants are brought in contact with the sap of diseased plants the malady is apt to develop. This is in addition to the spread of the disease by insects, and as the infection is so readily carried it is obvious that afflicted plants are always infection

Old People Need A Bowel Stimulant

The Ideal One is a Mild Laxative-Tonic That Will Keep the Bowels Gently Active

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the bowels do not store up the juices that are necessary to prompt digestion. Some help can be obtained by eating easily digested foods and by plenty of exercise, but this later in life is not possible. In fact, the tendency of this remedy is to strengthen the stomach and bowels muscles and so train them to act naturally again, when medicines of all kinds can actually be dispensed with. This is the opinion of many people of different ages, among them Mrs. Mary A. P. Davidson, of University Avenue, San Francisco, Cal. She is 78 and because of her sedentary habits had continual bowel trouble. From the day she began taking Dr. Caldwell's Syrup Pepsin she has had

MRS. MARY A. P. DAVIDSON
no further inconvenience and naturally she is glad to say kind things of this remedy.
A bottle can be bought of any druggist at fifty cents or one dollar. People usually buy the fifty-cent size first, and then, having convinced themselves of its merits, they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Elderly persons of both sexes can follow these suggestions with every assurance of good results.
Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. D. Caldwell, 413 Washington street, Natick, Mass. A postal card with your name and address on it will do.

REMOVE STUMPS

The Problem of Clearing Land—Burning, Blasting and Other Methods

The problem of clearing logged-off land is an important one in New England, and although much of the farming is done upon land formerly occupied by forests, but little information regarding methods and costs of preparing land for the plow has been recorded.

Removing stumps by hand has proven a slow and costly method, and the principal up-to-date methods are burning, blasting and pulling, or some combination of these. Burning is considered the best way of removing pine

stumps, which have a large amount of turpentine, as this greatly assists in the process. The common method of burning, which is rather slow and may be hastened by boring a slanting hole through the stump from the opposite side of the fire hole, is to dig a hole about 12 inches deep with spade or post-hole digger on one side of the stump, as close as possible, and to use this as a furnace for firing the stump. In digging these holes it is necessary that the dirt be removed from as much of the surface of the stump as possible, so as to allow the fire to come in direct contact with the side of the stump for at least six inches. Special machines, known as stump pullers, are provided for boring.

Other methods of burning are to split the stump with a charge of powder and then kindle a fire in the hole thus made, and charring or pitting. The latter, which consists essentially of keeping a smoldering fire around the base of the stump, is reported to be very economical for large stumps. One authority states that removing stumps by boring and burning is decidedly cheaper than by any other method, and as it requires only a small expenditure for machinery, practically no repair bills, and can be operated by a single

individual, it ought to appeal strongly to the smaller farmers of New England.

Scarcely anyone undertakes to clear even a small tract of land without the use of explosives. The common method is to bore a 1-1/2 inch hole from the surface of the ground diagonally downward for 10 to 20 inches and to insert in this from one-fourth to one pound of dynamite. This amount will shatter the general run of stumps and makes the cost of this part of the work from 5 to 20 cents per stump.

After loosening and shattering the stumps by blasting it is necessary to gather them into a pile for burning. This is usually done by means of a capstan or donkey engine. Another type of pulley is the vertical derrick, which has the advantage of applying the pull in the best direction for stumps having long tap roots, but it is objected to on account of having to be moved for each stump.

It is evident that the method to be used should be governed by the character of the stumps, the number on a given area and also by the value of the land, more costly methods being justified for very valuable land.

OUT AGAIN, IN AGAIN
"Mr. Lane called again this morning, sir," said the new office boy, as Mr. Stuart entered the office.
"Did you tell him I'd gone to Europe, as I told you to, Edward?" asked Mr. Stuart.

"Yes, sir," answered the boy. "I told him you started this morning."
"That's a good boy," said Stuart. "And what did he say?"
"He wanted to know when you'd be back," replied Edward, "and I told him 'After lunch,' sir."—Harper's Monthly.

JUNIOR MILITIA

Adj. Gen. Pearson Would Utilize Boy Scouts and Similar Bodies

BOSTON, Feb. 13.—Yesterday Adjutant-General Pearson announced he was about to take steps toward making the Boy Scouts and other semi-military organizations of boys a part of Junior militia of the state, with the ultimate intention of having their members as they become of age enlisted in the regular Massachusetts volunteer militia.

This announcement follows a recommendation made by General Pearson and adopted by Governor Walsh in his inaugural address, that state armories and military property become available under proper restrictions for the use of organizations of boys under the age of 18.

General Pearson said he thought this could be done without in any way brutalizing boys or implanting in them any undue desire of becoming fighters. It is proposed to have the state militia organized into three classes: first,

boys who are trained to obey orders, march and to carry themselves properly; second, juniors who are given commands and continue progressive training; and third, the National Guard, who receive the full training of a soldier, so far as possible.

General Pearson said yesterday: "There has been a great deal of misdirected energy in the military or semi-military training of boys. In the case of the Boy Scouts, some military schools and church brigades, the movement has been connected with the idea that it was unwise to teach boys that the old-fashioned ideal of the heroic soldier was a good ideal.

"I believe the Boy Scout movement was started in England by Baden-Powell as a feature for the reserves and the army, but in this country the movement has become diverted and its promoters look with scant favor on the soldier. I believe the Boy Scouts and other similar organizations should be so trained that their members will acquire those things which are fundamentally necessary for a good soldier, so that when he is older he will gravitate quite naturally into the National Guard, having already been trained to a point far ahead of the average recruit.

"I have believed for some years that one solution of the problem of national defense was to train our boys so they would consider it a great honor to be permitted to wear the uniform of the

GOVERNMENT WILL SUPPLY FISH

With Which to Stock Ponds in the Vicinity of Lowell

New Hampshire Authorities Will Cooperate in Stocking Long Pond

Fish and Game Association Will Hold Important Meeting

WILLIS S. HOLT

Several matters of importance to sportsmen in this section will be taken up at the next meeting of the Lowell Fish and Game association. The meeting will be held the second Tuesday in March and among the important matters to be considered will be the stocking of the ponds in the vicinity of Lowell and the restoration of the fish way at Pawtucket falls.

Willis S. Holt is a very active member of the local fish and game association and he has communicated with Congressman John Jacob Rogers relative to shipments of fish here by the United States government. Mr. Rogers promises to give the matter his personal attention and if the local association succeeds in getting fish from the United States authorities, as well as the state authorities, it is expected that a good supply will be received in this city for distribution in ponds in Lowell, Dracut, Chelmsford, Westford and elsewhere.

Mr. Holt, in his letter to Congressman Rogers, asked the congressman to please furnish application blanks for fish to be used in stocking some of the ponds and Mr. Rogers replied as follows:

Mr. Willis S. Holt, Five Station, Westford St., Lowell, Mass.
Dear Mr. Holt: I take much pleasure in enclosing herewith three blank applications for fish to be used in stocking some of our ponds. I shall be very glad to endorse and file these applications personally, when you are prepared to have me do so.

With best wishes, I remain,
Faithfully yours,
John Jacob Rogers.

New Hampshire Authorities
The blank in question is quite a formidable affair and contains no less than 21 questions having to do with descriptions of the lake, pond or stream to be stocked.

Mr. Holt also addressed a communication to Fish and Game Commissioner Deal of New Hampshire relative to Long Pond, a part of which lies in Pelham.

Mr. Beals said he would be glad to co-operate. In the spring, with the Lowell Fish and Game association in the stocking of this pond and he invited Mr. Holt to visit him at his office in Concord, N. H., for the purpose of taking over the matter.

Mr. Holt brought the matter up at a recent meeting of the local association and arrangements have been made for President Derby and Messrs. Holt and Gonzales to visit Commissioner Beals on Friday, Feb. 20. Mr. Holt states, however, that Friday was not chosen as the day for the meeting because it is a "fish" day, but because it was convenient to all parties concerned.

Fish and Game Commissioners
Mr. Holt also sent a letter to the commissioners on fish and game at the state house, Boston, advising them of Mr. Beals' willingness to cooperate with the local authorities relative to the stocking of Long pond, and received the following in reply:

Mr. Willis S. Holt, Five Station, Westford Street, Lowell.
Dear Sir: Yours of Jan. 8th at hand, and the commissioners have talked over informally the question of restocking Long Pond in the towns of Hudson and Pelham in New Hampshire and the towns of Tyngsboro and Dracut in Massachusetts. You can assure Commissioner Deal of New Hampshire that we shall be glad to cooperate with him in an ample stocking of the pond. It is our desire to give both the winter fishermen through the ice and the summer fishermen a square deal. It is our practice in case a petition is received from the selectmen to stock and close ponds a petition to stock and close ponds is on file in this office, correct in form and substance.

We enclose herewith a permit to place white perch in Forge pond and in Knops pond.

In reference to the fishways at Lawrence and Lowell, we are still of the opinion that until the general conditions in the river are improved it is not necessary to maintain them, as there are no migratory fish to take advantage of them.

Yours very truly,
C. W. Field, Chairman.

The permit, as enclosed, reads as follows:

To whom it may concern:
Whereas, the heretofore given to Willis S. Holt of Lowell, Mass., to deposit white perch in Forge pond in the town of Westford and Littleton, and Knops' pond, in the town of Groton, in accordance with the provisions of chapter 155, acts of 1911.

Commissioners of Fish and Game,
C. W. Field, Chairman.

Big Supply of Perch
From the United States hatcheries in Maryland, Mr. Holt believes that the Lowell Fish and Game association will, as the result of Congressman Rogers' efforts, receive about 1,800,000 small white perch, known as "fry," and these will be distributed in Long pond, Dracut; Long-Sought-For pond, in Westford and Baptist pond in Chelmsford, 600,000 in each pond.

Maintenance of Fishway
While the local association appreciates the fact that the state commissioners on fish and game are desirous of rendering all possible cooperation in the stocking of ponds, the association will not agree with the commission relative to the fishways at Lowell and Lawrence.

Simon B. Harris is considered first class authority on these matters and after going through the law, and perusing it carefully, he said, at a meeting of the Lowell Fish and Game association that the law relative to the maintenance of the fishways is mandatory. He says that the state must maintain them and the association, as a whole, believes that Mr. Harris reads the law aright.

Special Sale of Delicious "Sunkist" Seedless Oranges

Not a seed in "Sunkist." Juicy, rich, healthful oranges—the finest selected tree-ripened fruit grown in the world.

"SUNKIST" oranges are the cleanest of all fruit. Never touched by bare hands—all "Sunkist" pickers and packers wear clean cotton gloves while at work.

U. S. MARINE DISASTER

TO BE COMMEMORATED BY GARFIELD POST, G. A. R. NEXT SUNDAY AFTERNOON

At a meeting of James A. Garfield post, 120, G. A. R., held Wednesday evening, it was voted to attend the Memorial service, in commemoration of the sinking of the battleship Maine, that is to be held in Memorial hall next Sunday afternoon. Other matters were considered and the meeting was declared a success. The Maine was sunk in Havana harbor March 21, 1898, when 300 U. S. marines were lost. On Nov. 27 of the same year the Portland was lost sailing from Boston with 170 souls aboard.

Nature Will Cure Constipation

All she needs is a very little help.

Constipation is caused by accumulated waste in the Colon (Large Intestine), which, under our present mode of living, Nature cannot entirely remove without a little help.

The rank poisons in this waste get into the blood circulation, too, and make us feel depressed, blue, bilious and incompetent—really sick if allowed to go a little too far.

All the help that Nature asks, however, is internal Bathing with Warm Water, applied by the "J. B. L. Cascade." This, in a perfectly natural and rational way, cleans out all the waste and poisons from the Colon, and keeps it as sweet, clean and pure, by occasional use, as Nature demands for a perfectly healthy condition.

So invariably successful has this new and improved method of Internal Bathing proved to be, that over 500,000 Americans are now enthusiastically using it to cure Constipation, ward off disease and keep them bright, vigorous and efficient.

The "J. B. L. Cascade" is now being shown by all Riker-Jaynes Drug Stores. Call and let us explain just how simply it accomplishes these great results.

Also ask us for booklet "Why Man of Today Is Only 50% Efficient."

AN ENJOYABLE AFFAIR

ANNUAL SOCIAL OF SACRED HEART HOLY ROSARY SODALITY A GRAND SUCCESS

The annual social of the Holy Rosary sodality of the Sacred Heart parish was held in the school hall last evening, and despite the cold weather there was a very large attendance. Those who attended were well repaid for the program was one of rare excellence, and each number brought forth prolonged applause. Upon entering the hall each lady was presented a miniature silk flag, in honor of Lincoln, and selections dedicated to the great emancipator were played by the orchestra.

The priests of the parish were in attendance and they too greatly enjoyed the fun. The affair opened with a concert by Foley's and Morn's ladies' orchestra. The selections by the talented young ladies were artistically given and were well appreciated by all.

"The Last Rose of Summer" was excellently given by Mrs. James P. Garretty; several excellent piano selections were played by Miss Helen Wilson. "The Kellys Are All A-Gain" was sung by Mrs. Thomas Powers and it sung by a great hit. "Don't You Wish You Were Back Home Again" by Mrs. William Allen was well received; "A Little Bunch of Shamrocks" was rendered by Mrs. Eugene P. Sullivan, and she was given a great "hand"; "How Terry Saved His Bacon," a recitation by Mrs. Mary Depercher, brought forth considerable applause and laughter. Miss Gertrude Benne acted as accompanist of the evening and her clever playing added much to the success of the program.

After the concert, refreshments were served and then the floor was cleared and dancing was enjoyed, until a reasonable hour. At the close of the affair all voted it a grand success and the committee in charge, headed by President Maria Doherty, was warmly congratulated for the good time provided.

If you want help at home or in your business, try The Sun "Want" column.

TUDOR TEA

Why are there more packages of Tudor Tea sold in Boston than of any other brand?

The transcendent cup quality and delicate flavor of the Tudor Tea are not due to accident but to the infinite pains taken even in the smallest details by those who blend and pack it.

The Tudor Tea is grown in beautiful private estates on the sunny slopes of the high hills of Ceylon.

The small tender leaves of the Tudor Tea are plucked in the early spring while they are full of succulent juices, thus securing the best essence of the Tea in all its fragrance and deliciousness.

And then the Tea is put into small packages especially designed for preserving this native flavor and protecting the Tea from dust and dirt.

NOTE—This ideal parchment lined foil packet protects the Tea better than the pretty containers for which you have to pay at the rate of 10c per lb. for every pound you buy.

Tudor Tea is healthful when made according to directions, and is recommended by physicians.

It contains no coarse tannin-bearing leaves and can be used freely without the slightest ill effect.

Tudor Tea is very economical, as it goes farther than ordinary Teas. In fact, a trial 10c packet will make one hundred cups of the best Tea in the world.

Guarantee: So sure are we that you will like Tudor Tea that we tell your dealer to refund your money if you want it without even the return of the Tea.

JEWELRY SALESMAN LOST

POLICE ASKED TO FIND BOSTON MAN WHO DISAPPEARED ON MONDAY

BOSTON, Feb. 13.—Mrs. John K. Shamlian of Mattapan fears that her husband, a jewelry salesman, who has not been heard from since last Monday, has met with foul play.

Mr. Shamlian left his home at 51 Hiawatha road, Mattapan, last Monday with jewelry valued at \$700, which he planned to see in Lawrence, Mass. to Lawrence, the trail disappeared, and no word of his whereabouts has been received by relatives or friends.

Paul J. Gulesian of Mattapan, a nephew of the missing salesman, said yesterday that he also fears that Mr. Shamlian must be the victim of foul play.

Mrs. Shamlian said yesterday that her husband was a great lover of his home and she can assign no reason for his disappearance other than that some harm has come to him.

The police of Boston and Lawrence are conducting a search for Shamlian, who is 44 years old, 6 feet 3 inches tall and weighs 176 pounds.

UNION MEETING

Methodists Gather at St. Paul's Church to Discuss Financial Plan

A union conference of all the Methodist Episcopal churches in Lowell and surrounding towns was held yesterday afternoon and evening in St. Paul's church in Hurd street. The purpose of the conference was to awaken interest in the new financial plan adopted at the last general conference. It was the fifth and last conference of its kind

held by the district superintendent, Rev. George B. Dean, in the Worcester district. The speakers in the afternoon were Mr. F. D. Howard of Chicopee Falls, who presented the layman's point of view in connection with the new financial plan, and Dr. John Lowe Fort, secretary of the finance commission for the churches in the eastern division, comprising the Atlantic states. The new plan contemplates the raising of the budgets in local churches without the customary deficit, necessitating what is commonly known as an "agony Sunday."

Bishop John W. Hamilton, resident bishop of New England, who as a member of the finance commission, represented the general conference, said that he was present just to show what side he was on. He said that, generally speaking, he did not believe in an "agony Sunday," but it has come to be a necessity for the reason that one-third of all the membership of the M. E. church has been doing all the praying and all the praying, while the other two-thirds look on and are not doing a lot of praying at a baseball game, because they do not inspire the workers, but make it more difficult for them to carry the burdens of the church. Yet these may be as good members as the other third, only we have not learned the genius of putting them all to work. Idleness is the scourge of the Christian church. It is an awful thing to do nothing during the week; but it is worse in the church, to have a lot of people who cannot do anything. The church is just waking up to see that something must be done to arouse the latent talent.

Dr. Fort said there is always a close connection between the dearth of financial resources and the lack of spiritual growth in any church. He said that the real difficulty comes from lack of system and lack of knowledge. The plan proposed, which is to take the place of the old hit-or-miss method, is the official plan of the M. E. church. It involves, first, an adequate educational campaign of four weeks, through literature and from the pulpit. The

features of the plan are: Subscriptions for benevolences and current expenses on a weekly basis, through a personal canvass of all the members, by teams of two, covering all sections where the membership is found. This canvass to be made annually.

The use of a uniform collecting device, such as the duplex envelope.

Two distinct budgets and two treasurers, one for current expenses and one for benevolences, and quarterly remittances of money collected for benevolences.

Dr. Fort cautioned against putting the plan into the hands of pessimists to be worked out, and he gave several examples of churches that have increased both their financial resources and their membership, through the right handling of the new system. In one instance the money raised for current expenses has more than doubled under the new plan, and there was a still larger increase in the subscriptions for benevolent purposes.

RISE IN TEMPERATURE

FORECASTED BY WEATHER BUREAU—MANY FROSTBITES IN BOSTON

BOSTON, Feb. 13.—After rising 20 degrees from the low point of the winter, reached yesterday morning, the temperature fell steadily during the night and early today stood at three degrees below zero. Fire alarms were numerous throughout the night and the firemen were among the worst sufferers from the cold. The hospitals continued to treat many cases of frostbite. The wind was less violent today and the weather bureau forecasted a rapid rise in temperature.

FOR RIVERS AND HARBORS

WASHINGTON, Feb. 12.—The rivers and harbors appropriation bill, carrying a grand total of \$43,000,000 for waterway improvements throughout the country was formally made public today. Chairman Sparkman of the house rivers and harbors committee will report it to the house in a few days and press it to speedy passage, if possible. Last year's rivers and harbors bill carried appropriations aggregating about \$48,000,000. The bill in addition to the large number of appropriations for continuing work already in progress in many states, provides for many new projects, chiefly the New York harbor, for which \$13,400,000 is provided, as the maximum cost for developing the East river and removing Hell gate and other ledges there that threaten navigation; purchase of the Chesapeake & Delaware canal between Chesapeake and Delaware bays, for \$1,300,000, and its development and enlargement to accommodate ocean commerce, and \$7,000,000 straight appropriation for improvement of the Mississippi from its mouth to Rock Island.

The bill does not provide for the proposed waterway from the Delaware bay to New York, upon which the war department had adversely reported. The project is part of the ultimate scheme of intra-coastal waterway from Boston to Deaford, N. C. Both the army engineering board and the rivers and harbors committee agreed that the time was not yet ripe for an appropriation for the proposed waterway.

Among the immediate appropriations to carry on work in the east are: Maine—Portland harbor, \$105,000; St. Croix river, \$34,000. Massachusetts—Boston harbor 35 foot channel \$200,000; Pollock Rip channel \$125,000; New Bedford and Fairhaven harbors \$97,000.

WOMAN SUES SEN. GORE

OKLAHOMA CITY, Okla., Feb. 12.—Mrs. Minnie Bond, who is suing United States Senator Thomas P. Gore for \$50,000 damages for an alleged assault in a Washington hotel, took the witness stand this afternoon and told her version of her meeting with Senator Gore in Washington. The courtroom was crowded, mostly with women.

At the time of the alleged assault the witness said she had telephoned to Senator Gore to come to her hotel, saying she did not like to wait in his office, where there were so many men.

In the talk, she said, the senator asked many personal questions and tried to hold her hand. She alleged the senator took hold of her and tried to pull her toward him and that her glasses were broken in the struggle, cutting her in the face.

At this juncture, the witness said, T. E. Robertson of Oklahoma entered the room, together with James Jacobs and Kirby Fitzpatrick.

She declared the senator followed her and told her to tell the men present there was nothing wrong.

HONOR LINCOLN RAILROAD RULES

Patriotic Exercises in
R. I.—Oration by the
Lieutenant Governor

PROVIDENCE, R. I., Feb. 12.—Although not a legal holiday in this state, Lincoln's birthday was observed throughout the state by patriotic exercises in the schools and meetings of various organizations. The general assembly recognized the anniversary by meeting in grand committee and listening to an oration by Lieut. Gov. Roswell Burdick. Representative John Sullivan of Newport read the Gettysburg address and the regular business was suspended in honor of the event.

SCHOOL DESTROYED BY FIRE
CARIBOU, Me., Feb. 13.—Overheated stoves were responsible for the burning of a two room grammar school building at Stockholm, valued at \$3500, and three potato houses of L. P. Larsson & Co. and E. O. Hedman at Wetland, which were nearly full of potatoes. The loss on the potato houses was estimated at not over \$10,000. The temperature was 30 below.

MONROE WRECK

Captain Johnson Resumed His Testimony Today

PHILADELPHIA, Feb. 12.—Captain E. E. Johnson resumed his testimony today at the investigation into the collision on Jan. 30 of his steamer Monroe of the Old Dominion line with the Nantucket of the Merchants & Miners line, in which 41 lives were lost. He said that, judging by the sound of her whistle in the fog, the Nantucket was about 1000 feet off the starboard bow of the Monroe. Under international rules a vessel meeting another on the starboard bow must give the other vessel the right of way. Under this rule, the Nantucket should have kept her course and speed. Captain Johnson was unable to say whether the Nantucket conformed to this regulation.

CHARGES UNFOUNDED

CHICAGO, Feb. 12.—The Federal grand jury investigating charges concerning government officials with the flight of Jack Johnson, the negro pugilist, to France, concluded yesterday with the announcement from the assistant district attorney in charge of the jury that the charges had not been substantiated.

For days the names of Federal officials had been referred to as having profited in various ways from the munificence of Johnson. Many witnesses were heard by the jurors before the inquiry was closed.

"The action of the jury in voting no bill," said Asst. Dist. Atty. Stansbury, "is a complete vindication of Charles F. De Woody, formerly Chicago head of the department of justice, and of Harry A. Parkin, assistant district attorney, as well as of all other federal officials who have been mentioned. All of the charges have been found to be without foundation."

FIVE CHILDREN

TAYLORSVILLE, Ky., Feb. 12.—Five children, three boys and two girls, were born today to Mrs. Bertha Drury, wife of a Spencer county farmer. The two girls died.

NEW HAVEN LOST MONEY

VICE PRESIDENT SAYS CANCELLATION OF TRAINS DUE TO CHAS. A. PROUTY'S RECOMMENDATIONS

BOSTON, Feb. 12.—In a statement read at a hearing before the public service commission today, Benjamin Campbell, a vice president of the New Haven road, said that the cancellation of train service between Hopkinton, Ashland and Boston was due to recommendations of Charles A. Prouty, former interstate commerce commissioner, coupled with the fact that operation was maintained at a financial loss. The hearing was on the petition of residents and commercial organizations of Newton Highlands and Needham for a restoration of service.

Mr. Campbell said that the service was maintained by agreement with the Boston & Albany railroad, and was abandoned when Commissioner Prouty recommended the annulment of the agreement. In 23 months, Mr. Campbell said, the New Haven company lost \$153,000 in operating the branch.

Telegraphic Brevities

WORCESTER, Feb. 12.—Standard thermometers registered 16 below in Worcester today.

SPRINGFIELD, Feb. 12.—Miss Sarah McGill, 70, was found frozen to death in the kitchen of her home this morning.

WATERBURY, Feb. 12.—Charles Suisman, aged seven, and his five-year-old brother, Joseph, were seriously injured, the former perhaps fatally, by the explosion of the water front in the kitchen range at their home today.

STEVENSVILLE, O., Feb. 12.—Thos. Needham resigned as director of public safety of Stevensville and announced he would return to Chicago, where he will play as catcher in the Chicago National league club.

LONDON, Feb. 12.—Premier Asquith again refused today British official participation in the Panama-Pacific exposition at San Francisco when asked in his house by a committee by Waldorf Astor to reconsider the matter.

DENVER, Colo., Feb. 12.—A direct charge that George Belcher, a detective, was murdered in Trinidad by the United Mine Workers of America at the instigation of an organizer of the union, was made today by A. C. Feltz, superintendent of a detective agency.

WASHINGTON, Feb. 12.—Democrats of the house immigration committee again prevented discussion of the Asiatic exclusion bills by remaining away from the meeting. Secretary Bryan had asked the committee not to agitate the question by discussion while diplomatic negotiations were pending.

SUPPLIES TO POTOMAC
NEW CURLING, N. F., Feb. 12.—Wood supplies were rushed across the ice today to the imprisoned naval tug Polonoie, although her release was not regarded, as probable until there should be a moderation in the weather and a change in the wind. The supplies were sent out to the tug by men and horses from Rocky harbor. The tug today for some distance beyond the Potomac was very dim and heavy gale was blowing directly there from the Gulf of St. Lawrence.

AT Bay of Islands the cargoes of frozen herring in the three ice bound schooners were unloaded today and will be shipped to Gloucester by way of Port aux Basques.

FROZEN TO DEATH
ISLAND FALLS, Me., Feb. 13.—Albert McLaughlin, a farmer, was frozen to death here today while driving to town.

22 BELOW ZERO
LEWISTON, Me., Feb. 12.—The coldest temperature reported here today was 22 below at Barkerville, a suburb.

Athletes and Athletics

The Lowell high school hockey team defeated the Howe school of Billerica at Shedd Park yesterday afternoon, scoring five goals while the visitors were blanked. Asa Hart and Lloyd Meigs featured for the high school. Evidently the boys are going to revive hockey this year and give the followers of the puck chasing sport the opportunity of seeing a few games here in town.

The newly formed basketball league at the Y. M. C. A. should be productive of many good contests ere the season closes. The games will be played on Wednesday night on the floor of the gym and will tend to greatly develop the basketball culture of the association.

Yale turned the tables on Harvard last night in their second hockey game of the season. The blue seven got the jump on their Crimson rivals in the first period and hung to the Harvard forwards in the second period which kept them from overcoming the three goals Yale caged in the first few minutes of play. The score was, Yale 3, Harvard 1.

Matty Baldwin gave Frankie Mack a severe jolting for ten rounds last night in his effort to once more show the boxing fans that he still had the kick in his gloves. Baldwin was lost, however, after Mack got going in the eleventh round and from then on the Charlestown boxer was outclassed. He received the decision for his great showing early in the fight. The bout went fifteen rounds at the Marlborough A. C. of Providence.

If Johnny Evers goes, to the Federals the latter will gain another big boost in prestige. If Evers and Tinker should join hands in Chicago the Cubs would have a poor chance of drawing paying expenses at their gate during the coming season. Murphy will not have any easier path with Tener than he did with Lynch, according to present indications.

The Harvard-B. A. A. 1560 yards relay race which will be run off at the schoolboy games of the Hub athletic club on the 25th will be one of the greatest relays ever furnished at this classic. Bingham, Capper, Tower and Captain Barron will probably be the quartet which will represent Harvard.

Traders and rumors of trades are still coming in from the Federal league managers. They all realize that they have only a short time longer to grab off the pick of the unsigned players of the majors and Class AA teams and are straining every nerve to rounding out their respective teams. As no less a personage than Eddie Collins says, "the majors are still scared blue over the prospects confronting them for the coming season."

Trotting and pacing upon the Merrimack has certainly gotten quite a hold on the public mind here. Several hundred people will turn out on a day as cold as yesterday to witness a card. The wind swept down the river in gusts which will keep the breath from the horses and drivers, but the faithful hangers to their positions and few left before the last heat had been decided.

Dartmouth and Columbia were scheduled to cross sticks today in their annual hockey game at the Harvard rink. The game is one of the features of the Dartmouth winter carnival. The Green team has recovered from its injuries and will tackle the Columbians in its condition.

The Kid McCoy-Georges Carpenter spray over in Paris is certain to draw a big crowd despite the fact that it looks like a frost from this side of the Atlantic. Whatever chance the Kid has got with the French heavyweight we can't see. If he should win there wouldn't be a crinkle in the country give him credit for it. Carpenter, on the other hand, will gain no reputation by defeating a man who has been out of the game for as long a time as McCoy, and is sure to receive a few good wallops himself in the mill. However, the purse is there, and that is all us fighters care about after all.

MEMORIAL TO LINCOLN

GROUND BROKEN IN WEST POTOMAC PARK, WASHINGTON, FOR STATUE OF PRES. LINCOLN

WASHINGTON, Feb. 12.—The national capital today joined in the national celebration of the 106th anniversary of the birth of Abraham Lincoln. The celebration here was marked by the breaking of ground in West Potomac park for the construction of a marble memorial to the martyred president, which, when completed, is to cost \$2,000,000.

The celebration found deeper significance than usual in Washington because this was the last Lincoln's birthday which will see standing two of the most historic of the landmarks connected with the life and death of the Great Emancipator. They are Ford's theatre, where Lincoln was assassinated, and "Lincoln's toyshop," where Lincoln with his little son, Tad, sought relief from the cares of the Civil war in play with lead soldiers.

Because of the needs of the government and the march of commerce, the building inspectors have decreed the passing of these two buildings. Both have been condemned and will be torn down.

One-half of congress halted its grind of business today to pay homage to Lincoln's memory.

In the house the chaplain referred to the martyred president in his opening prayer, and time was set aside for memorial addresses by Representatives Russell of Missouri and Vess of Ohio.

In the senate the Great Emancipator's birthday passed unrecognized.

According to the testimony, John visited many wholesale merchants and placed urgent orders for goods to be shipped to the Henry C. at Lincoln. Police Sergeant Anderson testified that apparently all Mahoney received as a result of his big ordering were frequent invitations to dine with the man with whom he did business. John was held for a continued hearing.

HANDS OFF EVERS

Federals Will Not Try to Get Deposed Cub Manager

NEW YORK, Feb. 12.—A new angle developed in the baseball situation here today when the Federal league's promoters announced that it would not bid for the services of Johnny Evers, deposed manager of the Cubs. C. H. Wegman, the leading backer of the Federal league, stated that his organization, considered Evers under contract with the National league and conforming with the new league's announced policy would make no effort to obtain Evers.

Wegman further stated that the fact that Joseph Tinker had arrived here from Chicago in time for an early morning conference with President Gilmore and himself had no bearing on the Evers situation.

"Tinker came to New York," said Wegman, "but my telegraphed request, bringing some important papers which were needed."

Immediately after making this statement, Wegman, Gilmore and Tinker left their quarters and it was reported they were again viewing possible sites for a baseball park for 1915, if not for this year.

President Gaffney of the Braves reported that he could not get Evers, although he had been looking for him.

The National league and its board of directors were late in entering into executive session and the hour for holding the meeting of the national commission was delayed until 2 p. m. Charles Murphy, president of the Cubs, denied that he had any intention of retiring from professional baseball or that he knew of any move to force him out of the National league. He said:

"I'm in the game to stay. It has become the national pastime to kick Murphy out of baseball at least four times a year and I'm getting used to it."

"As for Evers, I did what I thought was best for the club. He is temperamentally unfit to manage a team—outside of that a very valuable man."

AMATEUR BASEBALL
CHICAGO, Feb. 12.—An effort to organize a national amateur baseball championship series will be made in this city on Feb. 21 at a meeting of delegates from eastern and middle western cities.

INCREASE IN R. R. FREIGHT RATES G.O.P. PLATFORM Suffered 21 Years, Finally Found Relief

Inter-State Commerce Commission Resumed Consideration Today

Louis D. Brandeis Says Small Shippers Are Imposed Upon

WASHINGTON, Feb. 13.—The inter-state commerce commission today resumed consideration of evidence bearing on the suggestion that free service by carriers to large shippers at terminal points who have private terminal facilities accounts at least in part for the conditions upon which the railroads based their demand for a general five per cent. increase in freight rates. In his opening statement, Louis D. Brandeis, counsel for the commission, declared the service gave favored shippers free carriage for their goods which small shippers could not participate in because of the minimum weight restrictions. The service cost the railroads many millions he asserted and inasmuch as the five per cent. increase had in view as a result an increase of railroad revenues of only \$80,000,000 they should be closely scanned.

LOUIS D. BRANDEIS

is made by the carriers were submitted today by counsel for the roads at the request of Mr. Brandeis. She was showing the manner in which the service charges were met by the railroads who pay them to each other where joint hauls are made were introduced by counsel for the roads with copies of the various tariffs showing that each was a duly advertised exemption open to all shippers.

Channing Cox Favors Equal Suffrage Initiative and Referendum

BOSTON, Feb. 13.—Channing H. Cox, republican floor leader of the house, came out for the constitutional convention, equal suffrage, biennial elections, the initiative and referendum and the constitutional tax amendment at the Lincoln club smoker last night.

He revealed a brand new program on the part of the republican leaders with respect to legislation. It means no opposition to several of the most bitterly fought measures of recent years in the legislature.

If the Cox program is carried out there will not even be any waiting for the constitutional convention to consider these things. In that way the program goes a step further than the suggestions contained in the inaugural message of Governor Walsh.

Former Asst. Atty. Gen. of the U. S. William H. Lewis stated that the republican party is out in the cold and in the minority in this state and in the nation because it has betrayed the principles of Abraham Lincoln and his party.

"You prate and prattle," he said, "about this being a government of the people, for the people and by the people, but in reality it is a government of the people, by some of the people for a few of the people. Where a man is denied a voice in the government there, my friends, is despotism. I don't care by which term you call it—republican or democratic."

Mr. Lewis came out for equal suffrage and former State Treasurer Elihu Stoughton stood by Governor Walsh in his advocacy of biennial elections.

THE HOUSE OF LORDS

CONTINUES ITS OPPOSITION TO HOME RULE WITH THE USUAL MAJORITY

LONDON, Feb. 13.—The house of lords adopted an amendment moved by Baron Middleton, to the address in reply to the speech from the throne demanding a general election on the question of home rule for Ireland.

The majority in favor of the amendment was 188, the vote being: For the amendment, 243; against, 55.

The vote followed strict party lines, and showed that the discussion of home rule for Ireland which has lasted 30 years, has not changed the opinion of the Tory majority in the upper chamber.

This result was expected and does not disturb the minority in the least.

MEMORIAL TO NURSES

UNVEILED AT STATE HOUSE—GOV. WALSH AND EX-GOV. GUILD AMONG THE SPEAKERS

BOSTON, Feb. 13.—Eloquent tributes to the nobility, self-sacrifice and patriotism of the army nurses of the Civil war were paid yesterday by Gov. Walsh, ex-Gov. Curtis Guild and others at the unveiling of the army nurses' memorial statue at the entrance to the Hall of Flags in the State House.

The memorial, a bronze group by Bela Pratt, representing a nurse supporting the head of a wounded soldier, rests upon a marble base, which bears the following inscription:

TO THE ARMY NURSES
ANGELS OF MERCY—DURING LIFE AND DEATH
A Tribute of Honor and Gratitude
From the Massachusetts Department
Daughters of the American Revolution
1914

Just outside the Hall of Flags during the ceremonies at six aged army nurses, "veterans" of the Civil war. They were: Mrs. Fannie T. Hazen, president of the Army Nurses' association; Mrs. Helen E. Smith, senior vice president; Mrs. Mary B. Smith, junior vice president; Mrs. Margaret Hamilton, secretary; Mrs. Lovisa Downer, treasurer; and Mrs. J. A. Brown, Mrs. Anna Maria Myles Sprague, a sister of Gen. Nelson E. Miles, was also present.

A large representation of G. A. R. veterans, Sons of Veterans, Daughters of Veterans and state officials attended the ceremonies. The honor of pulling the rope which released the American flag from the memorial, revealing it to the vast throng, devolved upon little Dorothy Standish Lewis of Lynn, a granddaughter of Mrs. Ellen S. Tolman, an army nurse.

The exercises opened with the invocation by Mrs. Ellen M. Goodman, department chaplain of the Daughters of Veterans. Next came the address by the Army Nurses' Memorial association.

Miss Agnes M. McCoy, department president of the Daughters of Veterans, in turn presented the memorial to Gov. Walsh, who received it in behalf of the commonwealth. Next came the actual unveiling, after which Col. J. Payson Bradley, past department commander of the G. A. R., sounded a proclamation on the same bugle which he used in the army of the Potomac as a member of the 1st Massachusetts Heavy Artillery.

After Gov. Walsh's speech of acceptance, addresses on behalf of the Grand Army of the Republic were delivered by Massachusetts Department Commander Thomas J. Ames and Past Department Commander-in-Chief John B. Gilman.

A devotional prayer by Rev. Edward A. Horton, chaplain of the Massachusetts senate, was followed by the speech of ex-Gov. Guild, orator of the day.

After Gov. Walsh's speech of acceptance, addresses on behalf of the Grand Army of the Republic were delivered by Massachusetts Department Commander Thomas J. Ames and Past Department Commander-in-Chief John B. Gilman.

A devotional prayer by Rev. Edward A. Horton, chaplain of the Massachusetts senate, was followed by the speech of ex-Gov. Guild, orator of the day.

After Gov. Walsh's speech of acceptance, addresses on behalf of the Grand Army of the Republic were delivered by Massachusetts Department Commander Thomas J. Ames and Past Department Commander-in-Chief John B. Gilman.

A devotional prayer by Rev. Edward A. Horton, chaplain of the Massachusetts senate, was followed by the speech of ex-Gov. Guild, orator of the day.

Suffered 21 Years, Finally Found Relief

Having suffered for twenty-one years with a pain in my side, I finally have found relief in Dr. Kilmer's Swamp-Root. Injections of morphine were my only relief for short periods of time. I became so sick that I had to undergo a surgical operation in New Orleans, which benefited me for two years. When the same pain came back one day I was so sick that I gave up hopes of living. A friend advised me to try your Swamp-Root and I at once commenced using it. The first bottle did me so much good that I purchased two more bottles. I am now on my second bottle and am feeling like a new woman. I passed a gravel stone as large as a big red bean and several smaller ones. I have not had the least feeling of pain since taking your Swamp-Root and I feel it my duty to recommend this great medicine to all suffering humbly. Gratefully yours,

MRS. JOSEPH CONSTANCE, Annapolis, Md. Personally appeared before me, this 15th day of July, 1911, Mrs. Joseph Constance, who subscribed the above statement and made oath that the same is true in substance and in fact.

WM. MORROW, Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You

Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention The Lowell Sun. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

The Sweeping Alteration Sale at

O'Brien's

ENDS SATURDAY NIGHT

On Monday, workmen will begin alterations on our store. That leaves us only two days of unhampered selling—in which time we hope to make a final clean-up of the winter stocks remaining.

These will be two days of the biggest values of our SWEEPING ALTERATION SALE. New groupings of higher priced lines at still greater reductions have been made to offset the restriction in choice, caused by heavy selling. You can do yourself a good turn by coming here today or tomorrow.

All Our Fine Winter Overcoats and Fancy Suits Now at Two Prices

\$15 to \$25 SUITS and OVERCOATS, now \$20 to \$35 SUITS and OVERCOATS, now

\$11.75 \$16.75

Our entire stock of HEAVY SWEATERS—regularly \$5, \$6, \$7, at \$3.75

\$1.00 and \$1.50 SHIRTS—Negligees, and Stiff Bosoms, at .79c

\$2.00 SOFT HATS at \$1.00

\$2.50, \$3.00 and \$3.50 FANCY VESTS at \$1.65

\$3.00, \$3.50 and \$4.00 TROUSERS at \$2.35

And many small lots of Underwear and Furnishings at similar reductions.

Rep. Brennan Has Bill in Legislature Providing for Finance Commission for County

Representative John P. Brennan has introduced the following act to establish a finance commission for the county of Middlesex:

Section 1. Within 60 days after the passage of this act the governor, with the advice and consent of the council, shall appoint a finance commission to consist of five persons, inhabitants of and qualified voters in the county of Middlesex who shall have been much for at least three years prior to the date of appointment, one for the term of five years, one for three years, one for two years and one for one year, and thereafter as the term of office expires in each year one member for a term of five years. Vacancies in the commission shall be filled for the unexpired term by the governor with the advice and consent of the council. The members of the said commission may be removed by the governor with the advice and consent of the council for such cause as he shall deem sufficient. The chairman shall be designated by the governor. His annual salary shall be \$5,000, which shall be paid in monthly installments by the county of Middlesex. The other members shall serve without pay.

Section 2. It shall be the duty of the finance commission from time to time to investigate any and all expenditures, accounts, and methods of administration affecting the county of Middlesex or any department thereof, that may appear to the commission to require investigation and to report thereon from time to time to the governor or the general court. The commission shall make an annual report in January of each year to the general court.

Section 3. Whenever any pay-roll bill or other claim against the county is presented to the county commissioners, the county auditor, the auditor of county accounts, or the county treasurer he shall if he deems the same to be of doubtful validity, excessive in amount or otherwise contrary to the county's interests refer it to the finance commission, which shall immediately investigate the facts and report thereon, and pending such report payment shall be withheld.

Section 4. The said commission is authorized to employ such experts, counsel and other assistants and to incur such expenses as it may deem necessary, and the same bill shall be paid by said county upon requisition by the commission, not exceeding in the aggregate in any year the sum of \$20,000 or such additional sums as may be appropriated for the purpose by the general court and approved by the governor with the advice and consent of the council.

A sum sufficient to cover the salary of the chairman of the commission and the further sum of at least \$10,000 shall be appropriated each year by the general court for the county of Middlesex.

The commission shall have the same right to incur expenses in the application of its appropriation as if it were a regular department of said county.

Section 5. For the purpose of enabling the said commission to perform the duties and carry on the objects herein contemplated and to enable the governor and general court to receive the reports and findings of said commission as a basis for such laws or administrative orders as may be deemed meet, the commission shall have power to require the attendance of witnesses and the production of books, papers, contracts or documents relating to any matter within the scope of said investigation or which may be material in the performance of the duties imposed by said orders and this act.

Such witnesses shall be summoned in the same manner and paid the same fees as witnesses before the district courts of said county. Each of such witnesses may be represented by counsel who may cross-examine the witnesses for whom he appears. The chairman or any member of the commission may administer oaths to or take the affirmation of witnesses who appear before the commission. The commission may prescribe reasonable rules and regulations for the conduct of hearings and the giving of testimony.

Counsel for any witness at any public hearing may ask him any pertinent questions and may offer pertinent questions subject to cross-examination by the commission and its counsel.

TRAIN KILLS MAINE WOMAN
ROSTON, Feb. 13.—Mrs. Margaret Ross of Presque Isle, Me., mother of James Ross of Division street, Quincy, was struck by a train at the Norfolk Downs railroad station yesterday afternoon receiving injuries from which she died.

The woman, who was 22 years of age, was crossing the New Haven tracks, shielding her face from the wind with her hand. She failed to notice the approach of a train and stepped in front of it.

Mrs. Ross was removed to the City hospital suffering from a broken leg and internal injuries, which resulted in her death a short time later.

\$50,000 DAMAGE SUIT

Courtroom Crowded at Resumption of Hearing of Charges Brought Against Sen. Gore

OKLAHOMA CITY, Feb. 13.—T. E. Robertson, former law partner of Ross Willard, chief of counsel for the plaintiff, was recalled as a witness today in the hearing of the \$50,000 damage suit brought by Mrs. Minnie Bond against United States Senator Thomas P. Gore in the district court here.

Robertson was being questioned by the attorney for Senator Gore when court adjourned yesterday. He admitted enmity toward the senator because the witness asserted Gore had promised to use his influence in behalf of H. A. Rogers of Oklahoma, mentioned as a candidate for the post of secretary of the interior but had failed to do so. Robertson was called as an eye witness to indignities which Mrs. Bond alleged were offered her by Senator Gore in Washington last March and on which her suit is based.

The witness gave practically the same testimony as Kirby Fitzpatrick who preceded him on the witness stand, relating that he witnessed the alleged attack on Mrs. Bond.

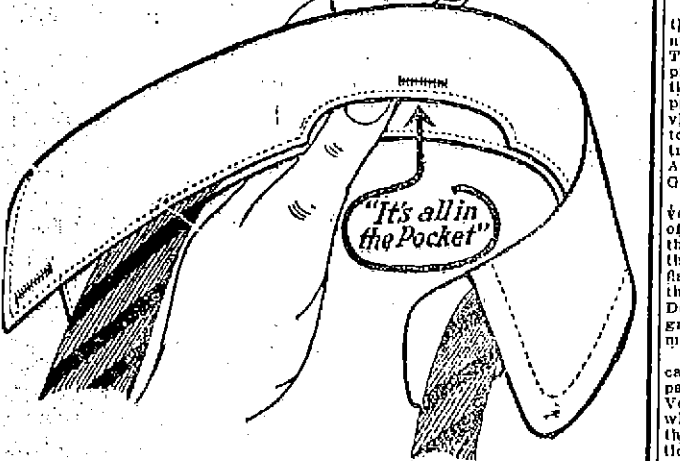

Robertson, Fitzpatrick, Mrs. Bond and Dr. J. H. Earp, another witness for the plaintiff yesterday all declared that they were in Washington to secure appointments to federal positions and all failed. It is the contention of Senator Gore's attorneys that the present suit is a result of a political intrigue.

James Jacobs, former democratic national committeeman from Indian territory, was to be called after Robertson's cross examination is finished. It was in Jacobs' rooms that Mrs. Bond alleges that Senator Gore attacked her.

As on the two preceding days of the trial, the courtroom was crowded today and even standing room was at a premium. Mrs. Gore accompanied the senator to the courtroom and sat beside him throughout the day.

22 HIGH BALLS WIN DIVORCE
BOSTON, Feb. 13.—Mrs. Helen M. French of Brookline, whose husband drank 22 Scotch whiskies in nine and a half hours, according to testimony given by a detective in her divorce suit before Judge King in the court at Dedham yesterday, was given a decree nisi on the grounds of gross and confirmed habits of intoxication from Colonel Milton H. French, a shoe man of Boston.

ONLY ONE "BROMO QUININE"
To get the genuine, call for full name, LANATIVE BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. 25c.

DO NOT FAIL TO SEE THE DEMONSTRATION OF "LOOSCARF" COLLARS in the windows of A. G. POLLARD CO.

Sulpholac The latest scientific treatment for Eczema

You can now obtain this scientific preparation unequalled for the care of the skin.

In the most distressing cases of eczema, acne, pimples, hives, rash and all burning, itching skin affections, many physicians prescribe SULPHOLAC.

SULPHOLAC combines sulphur with one of the most highly prized germ destroyers known to medical science.

SULPHOLAC is a truly scientific remedy for arresting and healing diseases of the skin. At drug stores a good-sized tin with directions for use. Get SULPHOLAC today and see how this cream benefits your skin. For free sample write to Hudson & Co., Inc., 149-151 West 36th street, New York.

MAN FREEZING TO DEATH

Fall River Man Found Dying on Sidewalk With Both Arms and Feet Frozen Stiff

FALL RIVER, Feb. 13.—With the thermometer several degrees below zero, Napoleon Guimond, 38, of 402 East Main street, was found lying on the sidewalk in front of the Davol mill at three o'clock this morning slowly freezing to death. He had laid there for some hours evidently for both arms and both feet were frozen so that they were black and stiff. He was rushed to City hospital in a dying condition.

SHEA IS OUSTED

Mayor Miller Abolishes Office of Superintendent of Streets

QUINCY, Feb. 13.—Mayor Miller of Quincy has at last succeeded in removing Michael E. Shea from the office of superintendent of the street department. To be more exact, he has removed the office from Shea. One of the first acts of Mayor Miller's administration was to request the resignation of Shea, but no attention was paid to his demands. Shea said that if the mayor preferred changes against him he would take it into the court and there would be a long legal tangle. At last the mayor found a method to cut the Gordian knot. He sent the following letter to Michael E. Shea, commissioner of public works:

"Dear Sir—I have this day abolished the office of superintendent of street works, to take effect Feb. 14, at 3 o'clock, and will you please see that no further money is expended in that direction. Yours truly, (Signed) John Miller, Mayor."

Unless Shea takes steps in some unforeseen direction to keep the office from sliding out from under him, he will be a member of the official family circle next Saturday at 3 o'clock.

Don't forget, Div. 11, dance, tonight.

TOO COLD TO WORK

REPORTS OF BREACH OF DISCIPLINE AMONG 700 BOYS AT NAVAL TRAINING STATION

NEWPORT, R. I., Feb. 13.—Reports of a breach of discipline among the 700 boys at the naval training station were brought here from the observation by several persons today. Officers of the station denied that anything in the nature of a mutiny had occurred, and declined to discuss what did take place.

According to unofficial sources, the trouble arose over enrolling the ship on Wednesday and culminated when the apprentices threw down their shovels, baskets and bags and left the bins. The boys insisted that the weather was too cold for such work. The officers, it is stated, began to make a list of the shovels, but abandoned this when they found that the entire party was included.

English Beauty Tells Complexion Secrets

"Ellie" in American Home

Through a fortunate meeting with an English lady, noted for her dazzling complexion, I recently learned the meaning of that old adage, "Beauty is but skin deep." She taught me how to remove my muddy old skin, revealing the young and beautiful skin underneath. The process is so simple, harmless and inexpensive, I'm sure you'll be glad to know about it. Just get an ounce of ordinary medicine and mix it with a store and apply nightly, like cold cream, for a week or so. Every morning in washing off the wax, tiny particles of worn-out cuticle come off, too. The action is so gentle and gradual, there's no discomfort. It's a wonderful treatment, as it not only gets off the faded or discolored skin, but all of its defects, as chaps, roughness, freckles, pimples, blotches, blackheads. I am indebted to the same lady for a remarkable wrinkle-removing formula. One ounce powdered exfolite is dissolved in a half pint, which is used as a face bath. This is so effective that just one application causes the finer lines to disappear, and soon even the deepest ones go.

ANNOUNCEMENT

REGAL JEWELRY CO.

Begs to announce the opening of their new store, Number (5) eight, at 39 Merrimack Square. Opening days are next Saturday, Feb. 14, 1914, and Monday, Feb. 16, 1914. Souvenirs will be given to all who come to visit our new store. Every one is cordially invited and all possible attention will be shown.

TEMPERATURE LAST NIGHT

6 to 12 Below - Today is Much Warmer

Although the mercury was below the zero mark early this morning and stayed close to zero until noon, a rapid rise is predicted and it is believed that the cold spell will soon be broken. The temperature in the different sections of the city varied from 6 to 13 below, according to unofficial reports received at The Sun office.

All day yesterday the thermometers in the central parts of the city did not show a rise of more than 5 above, and after the sun went down another drop was realized; but the cold was not so severe as on the night before. The temperature at midnight was 5 below; 2 a. m., 8 below; 5 a. m., 10 below, and at 7 o'clock it began to rise gradually. Yesterday is said to have been the coldest day that Lowell has experienced during the past 30 years. In some of the suburbs it was necessary to close the schools and the train service in many places was affected more than by any other cold snap for years.

STEAMERS ICE BOUND

THREE STEAMSHIPS PACKED IN ICE IN LAKE MICHIGAN WITHIN SIGHT OF LAND

CHICAGO, Feb. 13.—Passengers and members of the crew of three steamships which became ice bound yesterday in Lake Michigan within sight of Chicago's business district today hoped for a shift in the wind which would blow the packed ice into the lake and allow the vessels to make port.

Two of the steamers, the Kansas and the Illinois, were enroute to Chicago from Milwaukee. They carried 20 passengers and crews numbering 40.

RE-SALE PRICE OF GOODS

CHAMBERS OF COMMERCE BEGAN ITS CONCLUDING SESSION AT CAPITOL TODAY

WASHINGTON, Feb. 13.—The chambers of commerce of the United States began its concluding session here today with a discussion of the maintenance of re-sale prices led by Joseph E. Davies, federal commissioner of corporations.

"The discussion today," said Mr. Davies, "is addressed to the right of the manufacturer to establish at successive stages the re-sale price of the goods of his own manufacture which shall be binding through the various stages even to the extent of being binding upon the retailer in his final re-sale of the goods to the consumer."

"This practice has obtained in the past with reference to patented articles, as well as to those not patented and has developed co-incidentally with the development of modern advertising methods."

"For a number of years it is alleged that the decisions handed down by the lower courts were generally favorable to re-sale price maintenance as the copyrighted and patented articles. In recent decisions of the supreme court of the United States, however, the practice of fixing a re-sale price has been declared illegal."

"It is now urged that this practice should be sanctioned by law and that an express statute should be enacted to give the manufacturers under certain restrictions the right to fix the price at which the articles of their manufacture respectively should be finally sold to the consumer."

"The bureau of corporations is now engaged in making an exhaustive study of the question from an economic point of view. For that reason I express no opinion upon the merits of the question at this time."

ESCAPED FROM PATROL

YOUNG ROBBERS SENT TO PRISON - ONE LEARNED CRIME IN CONCORD, HE SAID

BOSTON, Feb. 13.—With seven court officers grouped about the prisoner's cage in the superior criminal court and a half dozen police inspectors sitting a few feet away, as a reminder of their thrilling escape from a municipal court prison van a few weeks ago, Charles H. Ward, 23, and George A. Ward, 20, stood last night in the cage and received a three to four years' state prison sentence for breaking and entering. A jury, out only 15 minutes, had found them guilty of breaking into the home of Mrs. Edith M. Binney, 138 Marlboro street, and Mrs. Marietta S. Raymond, 91 Huntington avenue, and the theft of \$1,500 worth of jewelry and other things.

Among the \$1,000 loot secured at Mrs. Binney's was a pin reputed to have been worn by Marie Antoinette. This was among the jewelry recovered by Inspectors Kilday and Wise when they arrested Ward and Roman at the latter's room on Shawmut avenue. The inspectors found a loaded magazine gun hanging at the head of the bed the two men were occupying and two more loaded magazine guns beside the men in bed. Guns and the recovered jewelry were exhibited in court.

Roman asked Chief Justice Allen for a chance to avoid state prison.

"I was 17 years old when I went to Concord, your honor," he said, "and I learned of crime here today. I'll go to Deer Island for any number of years cheerfully."

EXPLOSION OF TORPEDOES

SUCCESSFUL EXPERIMENT FROM A LONG DISTANCE BY ULTRA-VIOLET RAYS

FLORENCE, Italy, Feb. 12.—A successful experiment of exploding torpedoes from a long distance by means of ultra-violet rays discovered by Giulio Ulivi was carried out here today. Signor Ulivi having handed over his secret to the Italian government preparations were made for an experiment. Admiral Fornari placed in the river Arno two torpedoes charged with smokeless gunpowder and two others with black gunpowder. The ultra violet ray apparatus was pointed in the tower of the palazzo Caponi, about two miles away, where Signor Ulivi awaited the signal from the naval officers in charge of the experiment.

When the signal was given the apparatus was put into operation and in less than three minutes all four torpedoes exploded.

HEAD SNAPPED OFF BODY

MAN STRUCK BY H. & N. TRAIN AT MELROSE AND THROWN AGAINST POST

MELROSE, Feb. 13.—S. G. Shanghalla was struck by a Boston & Maine express train at the Melrose Highland station today and thrown with such force against a post that his head was snapped from his body. The incident was witnessed by a large crowd of commuters.

FOUR HURT IN TRAIN WRECK
TAMPA, Fla., Feb. 13.—Four passengers were injured, none seriously, when six cars of an Atlantic Coast line train were derailed early today at Gainesville by an unknown cause.

TAFT FOR CLAYTON HILL
WASHINGTON, Feb. 13.—Former President Taft will be heard before the house judiciary committee on Feb. 27 in advocacy of the Clayton Hill designed to effect reform in federal court procedures.

YOUR HUSBAND'S HAIR

Is it falling gradually thinner? If so, tell him of CRUDOL. Have him try it.

CRUDOL is not a liquid hair wash. It's a hair TONIC. It comes in sanitary tubes and is easily applied. Like any highly efficient principle, CRUDOL goes to the roots and helps the hair where it needs help, leaving the scalp clean and clear.

CRUDOL is a crude oil product with every disagreeable feature removed. It is fragrant, refreshing, clean; contains no alcohol and will not change the color of the hair.

CRUDOL destroys dandruff, checks falling hair, prevents itching of the scalp and a luxuriant growth of hair. In tubes only. Never in bottles. Small jars, large size 50c, at drug and department stores everywhere. CRUDOL Products Corporation, 177 Broadway, New York.

GRAND REGAL 40 GIRLS FLEE FROM FIRE

Large Audience Enjoyed the Artistic Work of Pasquale Tallarico

Although the excessive cold may have deterred many tender-skinned people from being present at Pasquale Tallarico's piano recital in Colonial hall last evening, those who were present, and the number was surprisingly large, would no doubt face worse weather conditions rather than have missed it. They had more than simple pleasure in listening for nearly two hours to a modest, unassuming artist, young in years, but remarkably ripened in his powers of accomplishment. The program played was an excellent one which was sure to interest, and afforded the pianist full scope in which to display his technique for unusually fine qualities. From the moment he finished the Bach invention he found himself in the house of his friends. There was some manifestation of nervousness at first and if now and then a faint note was struck, you must remember that Rubinstein himself used to strike them, too; while nervousness itself is a virtue compared with too much assurance, one wears away while the other never does. Mr. Tallarico's performance of the Beethoven Sonata was remarkable and to me was his best work of the evening. Few pianists of reputation even care to render it in public—a fact you should bear in mind as you recall the playing of last evening. What the most captious of critics (but there was none of him there last night) might find would of course be the youth of the artist in attempting to interpret such a work. However, to me, a most loving critic, his work in the Sonata Appassionata was a revelation and a delight. In his Shumann pieces and Liszt's "Liebestraum" he beautifully and sympathetically played, I took infinite pleasure. Nor could you say less of Chopin whom he played with much of the suggestion of De Pachmann but certainly none of that great artist's monkey shins. In his performance of the Chopin "Ballade" and in Liszt's "Gnomes" and the "Second Rhapsodie" he exhibited a wonderful degree of virtuosity and command of his instrument. The Rachmaninoff piece in D minor proved a very effective contribution. It was quite Russian in character, and shutting your eyes you could see clouds of Cossacks flitting across the desolate steppes.

Students at Framingham Escaped Without Injury, But Suffered From Extreme Cold

FRAMINGHAM, Feb. 13.—Forty girls roused from their beds when fire was discovered in Normal hall, a dormitory at the state normal school early today, escaped without injury but suffered severely from the extreme cold. The three story wooden building was destroyed, causing a loss of about \$30,000. The students, who lost their personal effects, were sheltered in another dormitory. Defective heating apparatus is thought to have caused the blaze.

ANNUARY MASS OF REQUIEM

At St. Margaret's church Saturday morning at 7.30 o'clock, a high mass of requiem will be celebrated for the repose of the soul of the late Timothy Hennessy, who died a year ago.

SUSPENSION OF BANK

NEW YORK, Feb. 12.—Suspension was announced today of the Italian banking firm of A. Bolognini & Co., one of the oldest concerns of its kind in the city. It did a large business in foreign exchange and represented Italian steamship lines.

RESCUED WIFE AND CHILDREN

METUEN, Feb. 13.—An attempt to throw out waterpipes started a fire which destroyed the two-story house owned by Edward F. Seales and occupied by Peter F. Graham this forenoon, entailing a property loss of \$3500. Mr. Graham himself rescued his wife and five children, who were in bed when the fire was discovered.

CRUDOL

Is it falling gradually thinner? If so, tell him of CRUDOL. Have him try it.

CRUDOL is not a liquid hair wash. It's a hair TONIC. It comes in sanitary tubes and is easily applied. Like any highly efficient principle, CRUDOL goes to the roots and helps the hair where it needs help, leaving the scalp clean and clear.

CRUDOL is a crude oil product with every disagreeable feature removed. It is fragrant, refreshing, clean; contains no alcohol and will not change the color of the hair.

CRUDOL destroys dandruff, checks falling hair, prevents itching of the scalp and a luxuriant growth of hair. In tubes only. Never in bottles. Small jars, large size 50c, at drug and department stores everywhere. CRUDOL Products Corporation, 177 Broadway, New York.

Backache, urinary disorders, and rheumatism are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause.

The new discovery, Croxone, cures such conditions because it reaches the very roots of the disease. It soaks right into the stopped up, inactive kidneys, through the walls and linings; cleans out the little filtering cells and poisons; neutralizes and dissolves that lodge in the joints and muscles; scratches and irritates and causes rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out, and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from the blood, and drive it out of the system.

So sure, so positive, so quick and lasting are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst case of backache, regulate the most annoying bladder disorders, and overcome the numerous other similar conditions.

It is the most wonderful preparation ever made for the purpose. It is entirely different from all other remedies. There is nothing else on earth to compare with it. It is so prepared that it is practically impossible to take it into the human system without results.

You can obtain an original package of Croxone at trifling cost from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed to cure you.

Snow late tonight and Saturday, with rising temperature, easterly winds.

LOWELL MASS. FRIDAY FEBRUARY 13, 1914

16 PAGES 1 CENT

LIGHT ON OUR CHARTER IS SOUGHT BY OTHERS

Worcester, the city of homes, has raised her tax limit from \$12 to \$15 and Worcester has a valuation of \$175,000,000. By raising the tax limit to \$15 on the thousand she will have somewhere in the vicinity of \$520,000 more to spend than under the old \$12 limit. Increasing the tax limit to \$15 will push Worcester's tax rate up to about \$23 a thousand. It's none of our affair, but it is mentioned only because of the fact that Lowell's tax limit is likely to be boosted, too. The old limit of \$12 has been taken off, and now the sky is the limit. It is almost safe to state that a majority of the municipal

LIQUOR SQUAD REPORTS

Liquor inspectors Alexander Duncan, Gilbert W. Sheridan, Thomas H. Heslin and Philip D. Murphy have reported to Mayor Murphy the results of visits made by them on February 6th, to certain holders of licenses of the first class. The mayor has returned the reports over to the license commissioners and the dealers named in the reports will be given hearings next Tuesday night. The mayor's communication to the commissioners and the reports of the liquor inspectors are appended:

The Mayor's Letter

To John J. Mulvaney, Esq., Chairman of the License Commission, and to the Members of the Commission.

Sir: I hereby submit for your action the enclosed reports submitted to me by the liquor inspectors, containing the results of visits made by them on February 6th, last, to certain holders of licenses of the first class. The inspectors' report will give the material contained in these reports your earliest attention. I beg to remain, Sir, very respectfully,

Donald J. Murphy, Mayor.

Duncan and Sheridan's Report

Lowell, Mass., Feb. 6th, 1914.

Reports of visits made to the following holders of licenses of the first class, on the above date:

Edward F. Blythe & Co., 78 East Merrimack street. In the cellar we found two (2) barrels of empty half pint flasks, and one and a half (1 1/2) barrels of empty pint flasks.

J. H. Callahan & Co., 405 Lawrence

street. Behind the bar we found two empty half pint flasks, and a drawer behind the bar full of empty pint flasks, and one and a half pint flasks.

D. P. Sullivan & Co., 2 Andrews street. In a storeroom leading from the bar room we found one cask of pint flasks of whiskey, and one cask of half pints of whiskey.

F. W. Barrows & Co., 616 Gorham street. In the cellar we found one and a half (1 1/2) barrels of empty pint flasks, and five crates of empty quart bottles.

Washington Hotel, 294 Central street. In the cellar we found three (3) barrels of empty half pint flasks, three (3) barrels of empty pint flasks, and behind the bar there was a drawer full of small corks.

Respectfully submitted,
Alexander Duncan,
Gilbert W. Sheridan.

Heslin and Murphy's Report

Lowell, Mass., Feb. 6th, 1914.

Reports of visits made to the following holders of licenses of the first class, on the above date:

D. J. Cannon & Co., 291 Moody street. In the cellar we found one (1) barrel of empty two (2) quart jugs, two (2) barrels of empty quart bottles, two (2) barrels of empty pint flasks, and two (2) barrels of empty half pint flasks.

Pierre Bourgeois, 263 Moody street. In the cellar we found one and a half (1 1/2) gallons of empty quart bottles and five hundred (500) empty two ounce flasks.

Respectfully submitted,
Thomas H. Heslin,
Philip D. Murphy.

CAPTAIN MATRONI GUILTY OF MURDER

NEW BEDFORD, Feb. 13.—Charles Matroni pleaded guilty of murder in the second degree in killing Annie Walsh on board the barge Snipe at New Bedford two months ago and was sentenced to life imprisonment today.

Matroni had pleaded not guilty to an indictment charging first degree murder but by consent of the district attorney the original plea was withdrawn and the prisoner was permitted to plead guilty to the lesser charge.

THE LEADING MEN AT B. & M. CAR SHOPS

Left to right: E. F. Blythe, L. Moran (general foreman locomotive shop), W. H. Batten, J. W. Perley, C. H. Nutter, Albert Blythe, H. T. Nowell (assistant superintendent), J. E. Ferrin, R. L. Nutter, H. P. Calvert, H. L. Leighton, G. H. Stevens, Oscar Knottner.

Much has already been said and published about the Boston & Maine car shops in Billerica, but very little has been mentioned about the men who are in charge of this immense plant, and it may be of interest to many to know where these men come from and what experience they have had in this particular line of work.

A reporter of The Sun called at the car shops yesterday afternoon and after being cordially received by Asst. Sup't. H. T. Nowell, he was given a permit to go wherever he pleased about the premises and gather what information he could. The Sun photographer was also on the job and he got busy with the officials of the plant and after all had gathered in the office of the company in the administration building, the above photograph was taken. Unfortunately, the superintendent of

AN AUTOPSY PERFORMED KILLED HIS BROTHER ENTIRE CREW DROWNED

UPON BODY OF CLARK MULLHOLLAND, WHO DIED AT CHELMSFORD STREET HOSPITAL

Medical Examiner J. V. Meigs yesterday performed an autopsy on the body of Clark Mullholland of 52 Willie street, who died at the Chelmsford street hospital yesterday forenoon. Dr. Meigs stated that death was due to hemorrhage of the brain.

It is said that Mr. Mullholland was at St. John's hospital some time ago suffering from a scalp wound which he sustained by being hit on the head with a broken glass. He was taken to the Chelmsford street hospital last Sunday and passed away about 10 a. m. yesterday.

EDWARD MANCHESTER WAS SENTENCED TO SERVE 15 TO 18 YEARS IN STATE PRISON

TAUNTON, Feb. 13.—Edward Manchester of Dartmouth was sentenced to serve 15 to 18 years in state prison today following his plea of guilty to manslaughter in connection with the death of his brother Charles last November. Manchester while under the influence of liquor shot his brother during a quarrel. He was indicted for murder last fall.

"The Wounded Heart."

ATTEMPTED ASSASSINATION
VERA CRUZ, Feb. 13.—The attempted assassination of Lieut. Arthur J. Cook, flag lieutenant to Rear Admiral Mayo of the battleship Connecticut, which since its occurrence on Wednesday night had been kept as secret as possible became generally known in the American colony today and caused intense excitement. The police are still searching for the assailant.

MEMBERS OF CHICKEN TRUST
NEW YORK, Feb. 13.—Eleven members of the chicken trust, all of them wealthy, today began serving sentences of three months in jail for violation of the state anti-monopoly law. Their conviction as members of the New York Live Poultry Dealers Assn. was recently sustained by the appellate division and today they were surrendered by their bondsmen.

STEAMER "MY OWN" WRECKED AND EIGHT LOST THEIR LIVES—CAPTAIN SAVED

STONHAM, Eng., Feb. 13.—The entire crew of eight seamen of the steamer "My Own" were drowned today when that vessel was wrecked entering the harbor here. The captain was saved. The steamer was a coasting vessel of 300 tons.

OPEN PORTLAND SCHOOLS

SMALLPOX SITUATION WHICH CAUSED SUSPENSION OF SESSIONS IS CLEARING

PORTLAND, Me., Feb. 13.—The smallpox situation here is clearing in a satisfactory manner, the officials of the board of health announced today. The schools, all of which were closed last week, will be re-opened Monday. The public library will be permitted to attend theatres and motion picture houses again tonight.

CHIMNEY FIRE
A chimney fire in a dwelling on Crowley street gave the members of the Lawrence street firehouse a run this forenoon about 11:15 o'clock. No damage was done.

Third Edition CABARET PERFORMER MADE THINGS LIVELY

Commissioner Charles Morse and his street superintendent, Newell F. Putnam, attended a meeting of the Massachusetts Highway association at the American house, Boston, yesterday, and they enjoyed it immensely. Charlie allows that meetings of the kind in question do not do a fellow any harm and Charlie smiled when he made this statement for he was thinking of something very pleasant.

It wasn't Charlie's fault that Gladys

attended the meeting and if she attempted to kiss Charlie it was simply because Charlie looked good to her. Somebody said that Gladys kissed Jas. H. Sullivan, superintendent of streets of Boston. Not only that, but she sang love songs to Jimmie, including that very "Clinging" ballad, "Love Me While the Loving is Good."

They do tell that while Jimmie's back was turned Gladys kissed Charlie, but Charlie says, "But, but, man, there's nothing to it—but she was quite a slunner, just the same." Now it's the

ROCKINGHAM PARK CO. EXPECTS TO SIGN EVERS

ORDER RESTRAINING E. F. SHARLES FROM FOUZCLOSING A MORTGAGE ISSUED TODAY

BOSTON, Feb. 13.—An order restraining Ed. F. Sharles of Methuen, Mass., from foreclosing a mortgage on Rockingham park, a race track property at Salem, N. H., was issued today by Judge Aldrich of the federal court. The order will hold for two months during which time the owners of the property expect to rearrange the finances of the company.

FRES. GAFFNEY OF BRAYES CONFIDENT THE FORMER CUB DANCER WILL JOIN TEAM

NEW YORK, Feb. 13.—President Gaffney of the Boston Nationals announced after a conference with John Evers, deposed manager of the Chicago Nationals, today, that Evers had promised him a definite answer before sunset as to whether he would accept Gaffney's offer to play second base with the Boston team.

"Do you expect Evers to play with Boston?" Mr. Gaffney was asked.

"I most certainly do," he replied, with a smile.

Gaffney declined to discuss a persistent rumor current after the conference that he had offered Evers a cash bonus of \$5000 in addition to assuming his \$10,000 a year contract with the Chicago club as an inducement to sign with the Braves.

Backers of the Federal league said this afternoon they had been reliably informed that Evers had agreed to sign with Boston.

Arrangements of details of Evers' transfer must be settled by the national commission. It was pointed out that this body would face a delicate situation since many leading baseball men did not believe that it would be for the best interests of organized baseball to permit Charles T. Murphy, president of the Chicago club, to get the services of two such strong players as Evers and Eddo of Boston, in return for Evers.

A meeting of the players' fraternity this afternoon gave rise to a report that the Federal league might be endorsed by that organization.

TOOK POISON BY MISTAKE
STAMFORD, Conn., Feb. 13.—Mistaking tablets of a poisonous nature for those prescribed to relieve headache, Charles D. Lyder, city engineer, died at the hospital here today after a brief illness. He rose during last night to obtain medicine and picked up the wrong vial. Physicians are hopeful for his recovery.

PAVE GORHAM STREET
Commissioner Morse has not given up the idea of paving Gorham street with block paving from Davis square to Manchester street. He said today that he would notify the water department, and the gas company, to get busy in Gorham street and get out of the way of the water and gas pipes when it starts. The Electric Light Co. will not have anything to do in Gorham street as this company laid a conduit there, not long ago. The water department and the gas company, however, will have to lay new pipes there.

WAS MARRIED FIVE TIMES
LEXINGTON, Ky., Feb. 13.—Mrs. Dora Clay Hunt who gained national notoriety 15 years ago when she became the wife of Gen. Cassius M. Clay at that time in his 90th year, died at her home near here today. At the time of her marriage to Gen. Clay, Mrs. Hunt was 16 years old.

The girl left Clay several months after the wedding and since that time has been married four times.

Clay died in 1906.

SO SUNDAY WORK
BOSTON, Feb. 13.—Attorney General Boynton rendered an opinion today that under the present law, an employer is not permitted to require his employees who have worked six working days in a week to assist in making an inventory on Sunday.

The opinion was in answer to a question by the department of labor and industries.

CHILDREN BURNED TO DEATH
PITTSBURGH, Pa., Feb. 13.—Trapped in their burning home here today, Emma and Charles Jenkins, children, were burned to death. Mrs. Jenkins and an older daughter tried to save the children but were compelled to jump from the second story to save themselves.

COUSIN OF PRES. GRANT DEAD
CHARLESTOWN, W. Va., Feb. 13.—Miss Elizabeth Grant, 81, a cousin of President U. S. Grant, died today at her home in St. Albans, W. Va.

REPORTED DEAD

Woman Supposed to Have Died in Woods is Very Much Alive

Miss Delima Joly of 304 Cumberland road, this city, received a telegram this morning announcing the death of her mother, Mrs. Dezdel Dalphon, who for several months has been living at West Groton with her husband. The sad message was quickly sent to other members of the family, but this afternoon it was found that the message came from a joker, and that Mrs. Dalphon is very much alive and is enjoying good health.

Mrs. Dalphon, who can wield an axe as well as the best woodchopper, is fond of living in the woods and accordingly in the early fall she goes to the wilderness with her husband. While at camp she does the cooking and during her spare moments she chops wood. Last September she suffered a bad accident and it was thought at the time she would not recover. The woman was felling a tree, when suddenly the large elm swayed on the wrong side and before Mrs. Dalphon got out of the way she was struck and received a fracture of a leg and arm. She was then 72 years of age and it was feared she would not recover, but fortunately she pulled through and a few weeks ago she resumed her work.

When the telegram was received Miss Joly was overcome and a physician had to be summoned. "Inasmuch as the message was not signed Miss Joly quickly telephoned to Bixby & Weber, grocers at West Groton and after one of the men went to the camp, the cheerful news that Mrs. Dalphon was alive and enjoying the best of health, was transmitted over the telephone to Miss Joly, who was anxiously awaiting the result of her investigation. It is believed that the joke was played by a local party, for inquiries at the Western Union and the Postal Telegraph offices revealed the fact that no telegram had been received for Miss Joly last night or this morning.

SELLING STATE BONDS

BOSTON, Feb. 17.—State Treasurer Mansfield, who declined to sell an issue of \$5,000,000 of state bonds through bankers, began disposing of the securities "over the counter" today and by noon had sold half the issue. Among the first purchasers was Thomas P. Riley, former chairman of the democratic state committee and now assistant attorney general who bought a \$100 bond. The largest purchase was a block of \$100,000. A majority of the applications for the bonds were from savings banks and trustees of estates.

WASHINGTON ON PRESIDENT

WASHINGTON, Feb. 13.—The following statement was issued at the White House at 3:15 p. m.:

"Secretary Tumulty announced this afternoon that agreement to the advice of his physician, the president had decided not to attend the New Jersey reception tonight. The president insisted, however, that the reception be held. The president's cold is satisfactorily responding to treatment but Dr. Grayson believes it is best he remain in his room for the day."

ST. LOUIS SNOWBOUND

ST. LOUIS, Feb. 13.—St. Louis was nearly snowbound today as a result of a blizzard that started late yesterday and which today was at its height. Traffic was entirely tied up.

ARMY CANTEN SCANDAL

WARRANTS ISSUED IN LONDON FOR ARREST OF OFFICERS OF LIPTON LIMITED

LONDON, Feb. 13.—Sharp action was taken today in connection with the British army canteen scandal when warrants were issued for the arrest of James Nease, formerly manager of Lipson Limited at Malta and Archibald Minto, another employee of Lipson Limited, of whom appeared to answer to the summonses sent to them when the case opened.

Mr. Nease is believed to be in Canada while Minto is said to be in France. Altogether nine army officers and eight civilians, all of them employees of Lipson Limited, have been charged

with receiving or giving illicit commissions on contracts for army canteen supplies.

KILLED BY A CHICKEN

WERNERSVILLE, Pa., Feb. 13.—A scratch by one of his fancy chickens caused the death today of Daniel A. Ney, a poultry fancier of this place. Ney was feeding his chickens when one of them flew up and scratched open a birthmark on his forehead. Before medical aid arrived he died.

AMUSEMENT NOTES

THE OPERA HOUSE

The Warner features present Miss Gene Gauntier in three reels of truly fascinating Irish drama at the Opera House today. The castle of an ancient lord and the cottage of a peasant

—the love of a charming colonel and an English nobleman—introduce a picture of Irish life and love, all blended together in a picturesque and intensely realistic Irish love story. This feature one of the best that has ever been produced in the Killarney district of Ireland.

In addition to the above feature will be shown for the first time in this city the new Kalem comedy, "Only One Shirt," with a laugh in every foot of it. Ruth Roland, John E. Brennan and George Larkin, the three famous Kalem fun makers are at their very best in the rip-roaring farce, which must be seen to be appreciated.

KIDNEY THEATRE

"The Understudy," by Gus Clayton, just pushes you up to the very highest pitch of laughing, for while it is ridiculous, it holds certain signs of being pretty nearly the real thing. It is a feature act at the Keith theatre, this week, and it exploits one of the most capable of the younger actresses in the legitimate stage, Miss Malcolm. She plays the part of the comic

spendence school actress who seeks a job with the "To the Tolls of the Temple" company, and, of course, is an utter failure. How she decides to give up the noble profession of acting is told in the piece. Her support is fully adequate. Freeman and Dunham, in songs and dances, are about as elegant youngsters as we have seen here lately. They have made many real friends during their engagement here. The Monette Five, in their new musical act, are prime favorites and contribute as daintily a turn as we have ever known here, while Murray and Mason, in a little bit of everything, are most pleasing. Other good things on the bill are: Five Minutes, women gymnasts; Two Atreids, head-to-head balance; Vanhook and Louie, oil painters; and the Pathé weekly pictures. Just four more performances remain. The box office closes number 15.

AMPHIBIOUS SQUARE THEATRE: Anna Eva Fay, the world renowned orator, will open a week's engagement at the Merrimack Square Theatre next Monday in a brilliant demonstration of mental telepathy. This will be Miss Fay's first appearance since her return from a tour of the world. She was in Dublin, Ireland, during the great strike last December and at that time gave a special performance for Lord and Lady Aberdeen and she was pronounced an advanced pupil in the supernatural acts of the mediums by them. During the coming week she will give performances for the skeptics. This class is met in every city throughout the world. Many go with the expectation of seeing a trap for her, but invariably when their names are called and she repeats their questions and answers them correctly, they are all and all readily admit their wonderful powers to read their innermost thoughts. Miss Fay will appear, matinee and evening, the coming week on an all-star vaudeville program which will be interpreted with many excellent motion picture plays.

Monday in a brilliant demonstration of mental telepathy. This will be Miss Fay's first appearance since her return from a tour of the world. She was in Dublin, Ireland, during the great strike last December and at that time gave a special performance for Lord and Lady Aberdeen and she was pronounced an advanced pupil in the supernatural acts of the mediums by them. During the coming week she will give performances for the skeptics. This class is met in every city throughout the world. Many go with the expectation of seeing a trap for her, but invariably when their names are called and she repeats their questions and answers them correctly, they are all and all readily admit their wonderful powers to read their innermost thoughts. Miss Fay will appear, matinee and evening, the coming week on an all-star vaudeville program which will be interpreted with many excellent motion picture plays.

THEATRE VOYONS: Most people are familiar with the

story of Daniel in the lions' den and the children of Israel in the fiery furnace, but it is now produced by the Vitaphone company of actors and can be seen in motion pictures. This picture will be featured at the Vorons for the next three days and any person who is familiar with the Bible can follow the story from beginning to end as it is being enacted on the screen. The stage settings and detail work are excellent and there is a thrill when Daniel enters and pats the lions in their den; also when the children of Israel enter the fiery furnace with flames bursting all around them. The lesson that you learned when a child and thought improbable, will be made a great deal clearer.

THE OWL THEATRE

A suicide club is formed by a band of well known men in a big city. One young man draws the fatal number and he must die on a certain night. He is in love with a young lady who recovers the feeling, but she in turn is loved by a much older man, who an

finding out that these young people love each other decides to "take" his place in the suicide club. This is the plot of "The Fatal Number" in a nutshell. Many intense dramatic moments are therefore gone through in this four act play, and the acting is superb. Don't forget that the "Fatal Number" is going through her second adventure today and tomorrow, and seeing the success of this special feature we have decided to have this picture shown twice every afternoon and evening to make sure that everyone sees it.

THE KASINO

Kasino skaters always come back. The impulse is irresistible. The music, the skates, the attention given by instructors, the cornicous surface and the great, well ventilated hall—all contribute to ideal conditions for the exercise. Miss Brown's band is making a hit with its up-to-date music. Sessions are held the last three afternoons and evenings of the week.

HEMORRHAGE OF BRAIN

Man Taken From Police Station
to Chelmsford Street Hospital
—In Serious Condition

Lewis P. Caron was taken from the police station to the city hospital on Chelmsford street suffering from a hemorrhage of the brain.

Caron was arrested early this morning on Railroad street by Officer Daniel Lynch and booked for drunkenness at the police station.

When the keeper made the rounds of the cells this morning to arouse the prisoners, Caron failed to respond to the summons. The officer went to the door of his cell and found the man in a semi-conscious condition.

Dr. Tighe was immediately sent for and made a hasty examination of the man.

The physician said at once that Caron was suffering from a hemorrhage of the brain. Dr. Tighe ordered the man taken to the Chelmsford Street hospital for treatment.

Caron's condition at the hospital is considered very critical, although he may recover. Caron lives in Lowell.

Thomas Drumm was released by

Judge Enright yesterday for being drunk but his experience seemed to do him no good. This morning he was in the dock once more charged with the same offense.

The defendant was still partially under the influence of intoxicants. He informed the court that he had a good job waiting for him. Judge Enright decided, however, that a few days' confinement would help Drumm to straighten out and continued his case until Monday.

Lieut. Connors, Sergt. Maguire and Officer Dooley testified that John O'Donnell has been a confirmed tippler and idler for several weeks past. Lieut. Connors said he has been an eye-witness to the Middlesex street district for a long time.

The defendant grew eloquent in his own defense. "Why, judge," he said, "I have been laid up with a sprained ankle for six weeks and the officers are certainly mistaken." The officers, however, were quite certain of O'Donnell's identity and Judge Enright sent the defendant to the state farm.

LIGHT ON CHARTER

Continued

council is in favor of making the tax limit \$14. That would give the present government \$174,000 extra with which to meet current expenses, and, incidentally, would give the tax rate a gentle boost. Did we say gentle? Well, it would probably send the tax rate up to about \$22 and some people think that a fellow owning a little piece of property should be willing to pay any old tax rate despite the cry for economy and low taxes.

Worcester is Quizzical

Worcester, by the way, is contemplating a change in her charter and Mayor Murphy has received a bunch of queries from the relative to our present form of government. The Worcester city charter was adopted 15 years ago and, they do say, it is antiquated in many ways.

From the chairman of some active committee in Worcester, Mayor Murphy has received the following communication:

My Dear Sir—Worcester city charter was adopted 15 years ago and it is antiquated in many ways. On February 29 a hearing is to be held to consider charter revision. We should appreciate very much any information that you would give us. We desire information along these lines:

Why did your city adopt the commission form?

Is it true that run down cities need it more than prosperous communities?

What advantages has it brought

to your city?

Would you citizens return to the two-chamber form?

Other information not covered by above questions would be most gratefully received.

Thanking you very sincerely for any consideration you may show us, believe me,

Very respectfully yours,

George A. Slocum,

Chairman.

Another From Worcester

The secretary of the Worcester chamber of commerce has addressed a letter to Mayor Murphy in which he interposes the mayor relative to the workings of our new charter. The letter:

Worcester Chamber of Commerce,

Feb. 12, 1914.

Hon. Dennis J. Murphy, Mayor,

Lowell, Mass.

My Dear Mr. Mayor—It would be a matter of interest to the chamber of commerce of the city of Worcester if we could ascertain the population of your city and its valuation for the year 1914.

If you have not yet obtained the valuation for the year 1914 will you kindly give me the valuation and the tax rate for the year 1913?

It is absolutely essential for this purpose that I have in mind that I should have your population at the present time. I do not suppose that you will be able to give me the exact population but I would like the closest possible estimate that you can make as it has a distinct bearing on the statistics that I am compiling.

Yours very truly,

Herbert W. Davison,

General Secretary.

Buffalo Hops a Few

The Buffalo chamber of commerce is also anxious to find out how we are getting along with our new charter and to what extent it has brought about hoped for results.

The general secretary of that organization has the following questions on Lowell's chief executive:

Buffalo Chamber of Commerce,

Feb. 12, 1914.

Hon. Honor, the Mayor, Lowell,

Mass.

Dear Sir: We are interested in obtaining some information concerning the commission form of government and would appreciate it very much if you would kindly give us an answer to the following questions as quickly as possible:

What benefits did you plan to effect when you adopted commission form of government?

To what extent have you succeeded in bringing hoped-for results about?

If it is possible to give figures to make comparison between the past methods and the present, will you please do so?

Thanking you for your favor in this matter and assuring you that we will be pleased to reciprocate at any time, I am, very truly yours,

Richard C. O'Keefe,

General Secretary.

DEATHS

LAVIN—Miss Agnes Lavin died this morning at the State hospital in Tewksbury, aged 45 years. She is survived by two sisters, Mrs. Anne Lavin of Lowell and Mrs. Mary O'Neil of Somerville. The body was taken to the funeral chapel of C. H. Molloy on Market street.

FUNERALS

PEPPIN—The funeral of Harry Peppin was held yesterday afternoon from the home of his parents, Joseph and Emily Peppin, 70 Rock street. Burial was in St. Patrick's cemetery in charge of Undertaker C. H. Molloy.

TEAGUE—The funeral of Edward Teague took place yesterday afternoon from the rooms of Undertaker J. F. Rogers. Services were held at St. Peter's church, the officiating clergyman being Rev. W. G. Mullin. The bearers were Messrs. James B. Gorman, Edward O'Brien, John Day and George

Lane. The floral pieces were from the following: The family, Dr. McNally, a friend, Mr. and Mrs. Sullivan, and George Lane. Burial was in the family lot in St. Patrick's cemetery.

SNYDER—The funeral of Dr. David D. Snyder took place from his late home, 20 Canton street yesterday afternoon and was largely attended. The services were conducted by Rev. Sarah Dixon, pastor of the Congregational church of Tewksbury Centre. The flowers were many and beautiful and consisted of pieces from the following: Family, Mrs. Stockman, Dr. C. B. Snyder and family, Miss Rose, and A. L. Siskel, W. A. Stockman of Portland, Me., Mr. and Mrs. E. E. Allendorf, F. S. Clifford and family, Mrs. Simpson, Mr. and Mrs. Grosse, Mr. and Mrs. A. S. Maynard, G. M. Stoddard and family, Mr. and Mrs. J. S. Wotton and Mr. J. Earl Wotton, Mr. and Mrs. John L. Murray, Mr. and Mrs. Percy T. Robinson, Mr. and Mrs. J. F. Walsh, Lowell Dental society, Whist club, Highland club, Essexwood club, Sewing club, Mrs. Dora A. Chase, Mr. and Mrs. Dewar, Miss Alice Dewar, Mr. and Mrs. C. H. McEvoy, Mrs. Ralph Norwood, Mr. and Mrs. W. W. Norwood, Mr. and Mrs. A. H. Norwood, Mr. and Mrs. S. H. Norwood, Mrs. C. H. Wing, Mr. and Mrs. O. A. Brigham, Mr. and Mrs. Simon B. Harris, Mr. and Mrs. W. W. Brigham, Mr. and Mrs. Frank Hanchett, Mr. and Mrs. E. L. Lapoint, Mr. and Mrs. Frank Fulnam, Miss Florence Gilman, Mr. W. S. Shaw and family, Mr. Clough, Mr. and Mrs. W. Murland and Miss Dorothy Lyman, Mr. and Mrs. Gus Byam and family, Mr. George Gregg, Mr. and Mrs. L. A. Derby, Mrs. G. W. Young and Miss Young, Mr. and Mrs. Shelters and family, Mr. Sullivan, Miss Laura, Jennie Maclean, Mr. and Mrs. Eitel.

The bearers were Messrs. Frank Hanchett, George Gregg, Lucius A. Derby and Otto Byam. Burial was in the family lot in the Edison cemetery where the service was held. The funeral was in charge of Mr. Frank Hanchett, under the direction of Undertakers Young & Blake.

FINLAY—The funeral of Mrs. Esther M. Finlay took place this morning at 9 o'clock from her late home, 115 Andrews street and proceeded to the Sacred Heart church where, at 9 o'clock, a high mass of requiem was celebrated by the Rev. John P. Flynn, O. M. I.

Although it was the request of the family not to send flowers there were several beautiful floral tributes sent by the following: George Brennan, Bigelow Carpet Co., Joseph H. Ashworth and family, Mr. and Mrs. L. P. Lappin, Mr. and Mrs. George Underwood, Mr. and Mrs. N. F. Christianson, O'Connor, Mrs. William W. O'Connell, Miss Sadie Kenny, Mrs. Ellen J. Kirwin, Miss Theresa Warren, Mrs. Ellen Kirwin, Miss Annie Magee, Miss Annie Magee, Mrs. Isabel Kennedy, Miss Sarah Cronin, Frank Boyle, Mrs. Mrs. Hester Cooney, Mrs. Minnie Davlin, Miss Sadie Assessor, Miss Essie Keefe, Miss Hannah O'Neil, Miss Mary Kelley, Miss Jennie Goulin, Mrs. Ella Goulin, Miss Mary Sheehan, Miss Clotilda Duplessis, Miss Mary Walsh, Mrs. Ida Morris, Marchants of the Bigelow Carpet Co.

The bearers were Messrs. Jeremiah O'Connor, Christopher Sheridan, Geo. Underwood, T. J. McDonald, Peter J. Finlay and Harry P. Lappin.

The funeral cortege proceeded to St. Patrick's cemetery burial being in the family lot where the prayers were read at the grave by the Rev. John P. Flynn, O. M. I. assisted by Rev. James T. McBurnis, O. M. I. The funeral arrangements were in charge of Undertakers Higgins Bros.

FOLLEN—The funeral of Mrs. Catherine Follen took place this morning from her late home, 32 Pine Hill street, at 9 o'clock, and was largely attended by many sorrowing relatives and friends. At St. Peter's church at 9 o'clock a funeral mass was celebrated by Rev. W. George Mullin. The floral tributes, which were profuse and beautiful showed the high esteem in which the deceased was held by her friends and included plumes inscribed "Mother" from bereaved family; wreath inscribed "Grandma" from grandchildren, and pieces from great grandchildren, Mr. and Mrs. James Conway, Mrs. Graham, C. J. Hood employees, Ryan family, Miss Mary Slattery, Mr. and Mrs. Howard and family, clerk of George Conway's market, J. A. Dalrymple's employees, Glode family, Miss Mary Wood and Mrs. P. Quinn. The bearers were Mr. James H. Shirley, Mr. George Conway, Joseph Conway, Walter Keene, Harry Kennedy and William Kemp. The hearse at the house and church were Mr. George Conway and Mr. James Shirley. Interment took place in the family lot in St. Patrick's cemetery where Rev. W. George Mullin read the committal prayers at the grave. Undertaker John J. O'Connell had charge of the funeral arrangements.

TRANS-ATLANTIC WAR OVER LONDON, Feb. 12.—An indication that the trans-Atlantic passenger war between the German shipping companies had ended was given today when sudden orders were sent by the Hamburg American lines to the British shipbuilding firms to convert the Danubia and other vessels for that company into emigrant liners to stop the alterations and restore the old fittings.

That "Stuffy" Feeling Relieved by Kondon's

Never neglect that first symptom of a cold. Kondon's Catarrhal Jelly will heal and cleanse the passages, giving instant relief. Pleasant, helpful and as harmless as it is effective. 25c and 50c tubes. Get the original and genuine at your druggist's, or write for the sample.

BLEW OPEN SAFE

3 Men Bound Theatre

Officials and Stole

\$2,000

PITTSBURGH, Feb. 12.—Three men gained entrance to the Pitt theatre early today, and, as narrated, binding Emmet Turner, the watchman, and his assistant, Thomas Cuff, carried them to the basement. They then forced the door of the office and working securely blew open the safe. Its contents, amounting to about \$2,000, were stolen.

The police, after an investigation, arrested Cuff, holding him as a suspicious person.

LOWELL EFFICIENCY CLUB

WILL MEET IN BOARD OF TRADE ROOMS NEXT TUESDAY EVENING

The Lowell Efficiency club, recently formed under the auspices of the Lowell board of trade, will hold its 2nd meeting next Tuesday evening at 7.30 o'clock in the board of trade rooms in the Central block. Over seventy members attended the meeting held last week and as no new members will be taken in after next Tuesday it is expected that the number present then will greatly exceed the attendance of the last meeting.

WOULD BE CHAUFFEURS

Five applicants for chauffeurs took the weekly examination at city hall this forenoon. These examinations are given by the state highways commission. The examiner today was, Thos. A. Dolan.

FUNERAL NOTICES

McMAHON—The funeral of Michael F. McMahon will take place Saturday morning at 8.30 o'clock from the funeral chapel of Undertaker Charles H. Molloy on Market street. Funeral high mass will be celebrated at St. Peter's church at 9 o'clock. Burial in St. Peter's cemetery. Funeral arrangements in charge of Undertaker C. H. Molloy.

WELCH—The funeral of William Welch will take place Saturday morning at 8 o'clock from his late home, 40 West Fourth street. Funeral high mass will be celebrated at St. Peter's church at 9 o'clock. Burial will be in St. Patrick's cemetery. Funeral arrangements in charge of Undertaker C. H. Molloy.

MULLIGAN—The funeral of Charlie Mulligan will take place Saturday morning at 8 o'clock from his late home, 82 Willie street. Funeral high mass will be celebrated in St. Patrick's church at 9 o'clock. The burial will be in St. Patrick's cemetery. Funeral in charge of Undertaker C. H. Molloy.

HILLSWORTH—The funeral of Mrs. Daniel Ellsworth will take place on Saturday morning at 8 o'clock from the home of her daughter Mrs. Edward Melms, 13 Shaw street. A requiem mass will be celebrated at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery under the direction of Undertakers Higgins Bros.

STOP CATARRH!

Use Hyomei—Your Breath Is

Unless properly treated this disease often leads to a serious if not fatal result. It is needless to allow catarrh to ruin your health—use Hyomei—it is certainly effective relief for catarrh.

It's the direct-to-the-spot treatment. No household should be without Hyomei. It not only gives quick and lasting relief in cases of catarrh but is one of the surest and most pleasant treatments for head colds, sniffles, or croup of children.

Hyomei is a combination of antiseptic oils—you breathe it—using a small inhaler. The air laden with health-restoring Hyomei soothes, heals and vitalizes the sore, raw and inflamed membrane of the breathing organs almost immediately. There is no other remedy that benefits so surely or so quickly. Money refunded if you are not satisfied.

Do not be without Hyomei another day. Druggists everywhere sell it. Get the complete outfit—\$1.00 size—this contains the inhaler and bottle of liquid.

WE DIDN'T STEAL IT

And we think that the concern from which we bought it is strictly on the level.

BUT

The assorted chocolates that we are offering at 23 cents a pound are certainly some offering. Made up of caramels, nougattes, nut pieces and fruit creams, not just a sprinkling of these on top but a thoroughly honest mixture from top to bottom.

R. J. SPECIAL

Made from tough red rubber, moulded in one piece, without any seams. Complete long rubber rapid flow tubing and three hard rubber highly polished pipes. Reg. \$1 value for **59c**

Round Rubber Invalid Ring

Made of maroon rubber, extra serviceable, will withstand great pressure and are not easily soiled. We have them in sizes from 7 inches to 18 inches in diameter. **1.27 to 2.73**

10% REDUCTION ON ELASTIC HOSIERY

We sell only the very best quality silk and linen webbing. All regular stock are carried in stock, or we will make any piece to order at short notice.

During this sale we will allow 10 per cent. reduction from our regular prices on all purchases. Private fitting rooms in every store with male and female attendants.

31 Stores in New England—94 Stores in United States—119-123 Mer'k St.

RIKER-JAYNES' DRUG STORE

You are **SAFE** when you buy at Riker-Jaynes.

10% REDUCTION ON TRUSSES
Our assortment of the different styles and shapes of trusses is as complete as possible to make. In addition to having experienced truss fitters in every store, all stores are under the supervision of one of the best known truss fitters and orthopedic specialists in this country, a registered physician of high standing, who has left nothing undone to make this branch the most complete in this country. Prices range from **70c to \$6.08**. For this week we will allow 10% reduction from our regular list prices.

"BOOST" BOSTON

Mayor Curley Punishes Bank Which Repudiated Subscription

BOSTON, Feb. 13.—Mayor James M. Curley sprung a sensation in the financial circles of this city yesterday afternoon when he announced that the city's deposits in the State Street Trust company will be withdrawn from that institution.

The mayor stated that he decided to take this action as the result of the repudiation by Allan Forbes, the president of that company, of the \$1000 contribution to the mayor's "Boost Boston" fund which was attributed to Mr. Forbes in the official list of contributors which was issued from the mayor's office.

When Mr. Forbes read yesterday morning that he had been credited with

a contribution of \$1000, he wrote the mayor, stating he had not authorized it and asking that his name and the amount be stricken from the list. Mayor Curley, upon receipt of the letter, called Mr. Forbes on the phone and notified him that city funds would be withdrawn from the bank and that no more city funds would be deposited there.

Not only will Mayor Curley withdraw the city's deposits from the State Street Trust company, which aggregates, it is understood, about \$100,000, but the mayor plans to make good an announcement which he made some time ago that he will also withdraw the city's deposits from every bank in this city which he feels will not do its part to develop Boston commercially and industrially.

In all \$5000 was deducted from the fund yesterday, because subscriptions were not properly authorized. The fund, however, was swelled by contributions amounting to \$4325, making a total net gain for the day of \$4575. The alleged unauthorized contributions have kicked up quite a fuss.

first car rounded a curve the trolley came off, throwing the car into darkness. Conductor William McSwigh hastened back a red lantern. In his hand to warn the motorman of the car behind. The wind blew the lantern out.

Motorman Shuggerly did not see the car ahead in the darkness in time to stop his car. The big semi-convertible crashed into the rear vestibule of the forward car and ploughed ahead nearly six feet through it. Pieces of glass and fragments of timber were thrown among the passengers.

The two women who were injured seriously were riding in the forward car.

ROOSEVELT FOR GOVERNOR
SUGGESTED AS PROGRESSIVE CANDIDATE IN COMING NEW YORK ELECTION

NEW YORK, Feb. 13.—An entire progressive ticket will be placed in the field at the New York state elections next fall. The state committee of the national progressive party decided upon this unanimously at a meeting here yesterday. Theodore Roosevelt was suggested as the progressive candidate for governor.

The former president was not mentioned by name, but was referred to by John S. Van Duzer of Elmira, who launched the boom for "The gentleman in South America."

BAILEY FOR HUNTING
As in everything else, originality counts in hunting jobs.

A few years ago a manager for a wholesale saddle and harness concern lost his job and wanted another in the same line of work. He placed a page advertisement in a journal largely read by the saddle and harness trade. This advertisement recited the applicant's qualifications, his past record and his expectation as to salary. Though the advertisement cost him more than \$75, it gave him his choice of three offers at a compensation 10 per cent. higher than the place from which he had been dismissed.

A street taker who had decided to get into something less nonpacific hit Indianapolis in the middle of winter looking for a job. He spent two weeks in inquiry that proved fruitless. Then he went to the proper city official and secured a street taker's license to work on a certain street.

By following his fable tactics, he soon had plenty of hearers. But instead of trying to sell anything, he asked everybody who listened for a job. The first day didn't net him anything, but before noon of the second day he had been offered employment.

HOW TO COMFORT YOUR BABY
Mrs. A. S. Paine, trained nurse of E. Wareham, Mass., says: "Comfort Powder is the best friend a mother can have to use on her little one. I would not use any other powder in my work as a nurse." The genuine bears the signature of E. S. Sykes.

50 INJURED IN CAR CRASH
BIG SEMI-CONVERTIBLE PLUNGED INTO SMALLER CAR AT SALEM LAST EVENING

SALEM, Feb. 13.—Two women passengers and a motorman were seriously injured and 50 others received minor cuts and bruises when a heavy semi-convertible Salem bound car, No. 1315, crashed into the rear of a car ahead on Highland avenue about half a mile from the high school early last evening.

Miss Mary E. Linchman of 23 Highland park, Pembury and Mrs. Mary Holloway of 4 Wilsey street, sustained severe bruises about the head and possible internal injuries. They were removed to their homes.

The car was extra returning to Salem with employees of the General Electric company in Lynn. Just as the

first car rounded a curve the trolley came off, throwing the car into darkness. Conductor William McSwigh hastened back a red lantern. In his hand to warn the motorman of the car behind. The wind blew the lantern out.

Motorman Shuggerly did not see the car ahead in the darkness in time to stop his car. The big semi-convertible crashed into the rear vestibule of the forward car and ploughed ahead nearly six feet through it. Pieces of glass and fragments of timber were thrown among the passengers.

The two women who were injured seriously were riding in the forward car.

as a auctioneer. He accepted and is still in that business, making money.

A country boy went to an Ohio town to look for work. It was hard to find and he was compelled to accept the job of ringing a bell in front of a cheap eating house for his meals. He

observed that if anybody was attracted by the bell ringing his next move would be to read the menu, which was chalked on a small blackboard propped up against the building.

From this the boy evolved a plan to better himself. He won the confidence of a sign painter and had a sign painted which read: "I'm a country boy, out of work. Who will give me a job?"

He took the sign and after lunch borrowed the restaurant keeper's belt and stood on the curb and rang it. Passersby noticed the boy and the sign and it wasn't long until a drycleaner had given the youth employment.

Have You Stomach Trouble? Is Your Liver Out of Order?

Lassitude—undue fatigue—sleepless nights—low spirits—poor appetite—nervousness—a general feeling that there is nothing good or worth while in the world—are indications that your stomach, liver or bowels are not working naturally.

With your system in its present condition you are very apt to be laid low by more serious ills. Now is the time to right the wrong. Now is the time to bring to your aid

Dr. Pierce's Golden Medical Discovery

(In Tablet or Liquid Form)

This wonderful remedy helps to restore stomach to its natural health and strength and to secure proper flow of the digestive juices, a good appetite and full digestion of the food you eat. It invigorates the liver, regulates the bowels and purifies and enriches the blood.

Dr. Pierce's Golden Medical Discovery is absolutely free from alcohol and injurious drugs. You can take it and be certain you will find it a true blood-maker, tissue-builder, and restorative nerve tonic, and that it will produce no evil after-effect. Thousands—probably many of your own neighbors—are willing to recommend Dr. Pierce's Golden Medical Discovery because it has made them stronger in body, brain and nerve.

You can get Dr. Pierce's Golden Medical Discovery in tablet or liquid form from dealers in medicines—or send 50 one-cent stamps for a trial box of the tablets. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

Dr. Pierce's Common Sense Medical Adviser—a great doctor book—a family book of 1008 pages, cloth bound—answers many important questions regarding sickness. Your free copy will be sent on receipt of 31 one-cent stamps to pay wrapping and mailing charges from Dr. Pierce's Invalids' Hotel, Buffalo, New York.

After 5 Years' Successful Business

At 24 Central St., Lowell

I am Notified by my present Landlord, Mr. Nelson, that I must vacate not later than MARCH 1st. The transformation scene between Mr. Nelson and Mr. Chalifoux announced in last week's papers includes my store as my lease expires February 15, this month.

REMOVAL SALE

I must move and I promise not to carry one yard of my present stock to my future home. Everything must be sold during the next ten days. These goods are all new fall and early spring weights, in grays, browns, fancy mixtures, blues and blacks and all the neutral shades. Not a yard of cloth in stock Feb. 4 will I carry to my new store.

MEN OF LOWELL! Here's something to think about and act upon. Here's a genuine removal sale of good cloth made into custom garments that sets a new record in value giving. Here's a chance to get whatever you want in a suit at a smaller price than you've any right to expect, made any way you want. Three-piece suit, no restrictions on length of coat or size of person ordering—the large man is as welcome as the small.

My doorway will be filled with cuts of these suitings which comprise my stock on hand Feb. 1st, this year. (The price for any style will be

N. B.—

MR. BELSON, my designer, by far the highest priced custom designer employed by any tailor in Lowell and only second to one in New England, is at your disposal; he has pleased the high-brows of New York. Two months ago he signed a three year contract as head designer for my Lowell store. Mr. Belson is a young man of high ideals, possessing a broad sense of the tastes and wishes of the trade. Remember, your suit is fitted to you by Mr. Belson. Under his experienced eye we can guarantee a perfect fit or a new garment for the asking.

LOWELL PLAYERS SIGN UP

Club Rounding Out—Two Positions Remain to be Filled—New Pitcher From Pacific Coast

In spite of the present frosty atmosphere, we beg to inform you fans of the fact that before a couple of months have passed away the pitchers who will form the firing line for Manager Gray this year will be resting right here in this burgh of ours, and that the rounding out of the Lowell Baseball club will be on. Always provided, of course, that there comes a break in the weather between now and that time.

The pitchers who will report here on the 12th of April and who have already signed up are some of them from the staff of last year but the majority of those who will loosen up their whips at Spaulding park will be seen in action for the first time by the local fans.

Pete Wood Signs
The signed contract of Pete Wood was sent in this week to the club's headquarters. Along with the contract came a note from the brother of "Smoky Joe" in which the big fellow stated that he was sure to burn up this circuit next season. If Pete just forgets for a few minutes that he is the brother of "Smoky Joe" he will do much better work on the mound and perhaps will do it without so much procrastination.

He uses his head for the most part and depends upon a slow ball more than upon speed. Maybolen is one grand chap personally, and we hope to see him come back this spring with his warbag full of new tricks.

Memphis Pitcher
Then there is still Memphis to be heard from. The understanding was that Jimmy Gray should have a pitcher in return for Lavigne but that the pitcher must prove satisfactory to the Lowell manager or another one would be forthcoming. Inasmuch as the Memphis club will have to bear the expense of transportation in the advent of their man not suiting Gray it is altogether probable that the pitcher sent on at first will be well worth his salt in the Lowell management. If you remember this was the same sort of deal which was made with the Milwaukee club when Flaherty was sent to that city. Old Reliable Matty Zieser was sent on here and we all know how Mattie acquitted himself before jumping to the Red Sox.

Shanks, the man from Ansonville, Pa. whom Eddie Miller recommended so highly is another boxman who looks good on paper. Besides these pitchers mentioned there are several youngsters on the list who will all be

given a thorough workout in the pre-season games.

The Backstops
Behind the bat Thomas and Waycob will, in all probability, do the bulk of the catching. Waycob wrote on yesterday to Manager Gray from his home in California. Said the former Wichita, Kansas, backstop, "I don't want to go out of the west but suppose I will have to as long as I have been sold to your club. However, I shall play hard baseball for you, Mr. Gray, providing that I determine to go to Lowell. There is just one thing that I want you to do. Your contract is very generous, but I would like to have you send me my expenses for this journey both there and back." Manager Gray sent a letter off posthaste telling Waycob that his conditions would be met.

Jardie is also another catcher who will probably put in a strong bid for a regular berth. There are several more big mitt artists who will attempt to break in with Lowell but the contest will doubtless lie between these three men.

Kelley For First Base
Kelley, the youngster procured from the New York Americans, is the player who is slated to hold down the initial sack this year. Kelley is said to be a wonder and Arthur Irwin, scout for the Yankees, wrote on that if Kelley did not succeed he would return the purchase price to the Lowell club and take up the pitcher. This action certainly shows that the New Yorkers have faith in his ability and it would not be surprising to see him spring a sensation on the "Little old league."

Kelley can grab any kind of a thrown ball, can hit hard and often and is very fast on the bases. That, in reports say all these nice things about him.

Two Positions Vacant
With DeGroot in right field and Burke, the other man received from Wichita in exchange for Clemens, in center field there remains but two positions which are not certain to be filled by players with a reputation for speed, hitting and fielding ability. It is a cinch that the Rubs has at least one more good season left in him and from all accounts Burke is a wonder. The latter can play either the infield or outfield.

Therefore left field and second base have got to be taken care of by either some of the promising rookies or by players who Manager Gray will pick

DOPE AROUND CIRCUIT

Federals After Several New England Leaguers—More Umpires Signed—Other Baseball News

Manager Gray of the Lowell baseball club has gone to New York along with the influx of the major leaguers into the metropolis. The Lowell baseball pilot expects to pick up several promising players who will be left out in the cold when the final lineup of the teams in the two big leagues are decided upon.

This is the manner in which many minor league teams are "made." One of the majors will pick up a good youngster but, on account of the fact that he has not had experience enough, he is turned over to some minor league team or sold outright. Gray reckons many of the major managers on his list of friends and the probabilities are strong that he will return to Lowell with several signed contracts in his possession.

Lineup in Lewiston
League games in Lewiston on all days except holidays will be started at 3:15, according to the present plans. The time for calling the game is one of the most important considerations in the policy of the club and has been given serious attention by the baseball quartet in their discussions. Taking schedules of the trolley lines, the length of the game which is slightly

under two hours, the management at present believes that time to be the most desirable. The time has not been chosen arbitrarily, however.

Player Confident
Mgt. Louis P. Pieper of the Lawrence team has enough signed contracts in his possession to feel perfectly at ease—except pitching material, says the Lawrence Tribune. He has but two fingers in line and both are rookies. Three of last year's string have yet to come across, although Fuller sent word a few days ago that his contract would be here in a few days. Drugg and Layster are the other veterans who have not signed up.

Of the 25 players who, at the present time, constitute the Lawrence roster, 15 have signed, one has accepted terms which is the equivalent, and seven have not signed. Of the seven unsigned, five are pitchers, one a catcher and one an outfielder. The seven unsigned are not hideouts, although in the cases of one or two there may be slight differences to settle.

The seven pitchers whom Manager Pieper has in his list, two signed and five unsigned, are right handers. He has no southpaw to take up the burden where Pat Martin left off. He may

have his troubles getting a postscript or the equal of Martin, but he hopes to secure one from the Boston Red Sox and already he has conferred with President Joseph J. Lannin in regard to the matter.

Of the pitchers, Ripple from New York city, where he worked in the semi-pro ranks, George Egan, also of New York, was recommended by Adrian Schless. Pat Martin recommends Joseph Campbell of Jamaica, N. Y., while Larry Mahoney is sponsor for John Cogan of Cambridge.

Frank Drugg will be behind the bat. Manager Pieper will not use him in the outfield. Galvin and Buxter, who did backstop work here last season, will be back. Leaky and Kelly, two semi-pro boys, are signed. Mgt. Pieper expects at least one other backstop candidate. He may also get a receiver from the Montreal club of the International league.

Harry Lawrence will not wear a Lawrence uniform in 1914. If not traded or sold, he will be released. The same is true of Billy Phoenix. Both have received contracts, but it was a sort of protection for the local club in cases there was a chance to use either or both of them in a trade. Neither will play here.

Of the first basemen, Anderson was here last season. Sprague comes from Ashmole and is to be given a trial on the say-so of Larry Mahoney. Schless recommends Carey of New York. For second, Johnson, whose terms have been accepted was with New London a part of last season. He was recommended by Sam Kennedy. Billy Layster recommends Malloy. Aleck Pearson saw Littleman play third and tipped Pieper off. Littleman comes from Pittsburgh. Malloy lives in Jersey City. Johnson lives in North Greenfield, Conn.

Jack Stafford's find, Cunningham, of Somerville, will try out for short and be a rival for Reed of West Fairlee, Vt., discovered by Treasurer D. A. Noonan.

In the outfield, O'Connell and Layster are from last year's team. For the position vacated by Brugg, there will be Gallagher of Clark Summit, N. J., recommended by Hugh Jennings; Dwyer of Brooklyn, recommended by Pat Martin; Thompson of Wilkesbarre, Pa.

at shortstop, and in 32 games in the outfield his average was .340.

Kilbullen for Pels
Fred Lake's Pittsburg team is apt to be hit a hard blow by the Federal league if the report from Scranton, Pa., is true. According to reliable information from that section of the country, Joe Kilbullen, who last season caught for New Bedford, will sign up with the Federals. Otto Kneabe, manager of the Baltimore team, is the man who would like to have Kilbullen join his team and he has asked Joe to come to Baltimore and talk it over. Kilbullen is reported to have stated that Lake did not treat him right last season and that Lake had a chance to sell him to either Jersey City of the International league or Oakland of the Pacific coast league. Joe must be talking through his hat, or else his friend has got the dope badly mixed. For Lake had nothing to do with the New Bedford team last season. Lake was acting as scout for the Detroit team last season and John O'Brien was manager of New Bedford. Joe must want an excuse to jump.

Three More Umps
Secretary Cooper of the New England league, has signed Umpire Doherty of the Eastern association for the coming season. Doherty was one of the umpires who worked in the Lowell-Hartford championship series, and with the exception of the first battle, performed satisfactorily. He is well liked in the Eastern association, and it is said that he has been secured by the New England league because of better money offer. "Fat" Langan of Providence, R. I., and John Clark of Camden, N. J., formerly of the Tri-State league, are other umpires who have been hooked up.

IN SACO-LOWELL LEAGUE
The team standing and the individual averages in the Saco-Lowell bowling league are as follows:

Team standing:			
	Won	Lost	P.C.
Shop	21	18	60.0
Draftsmen	21	18	62.5
Pattern Job	20	20	50.0
Shoppers	20	20	50.0
Office	18	21	40.0

Individual averages are as follows: Martin 77.4, Demers 72.0, Marshall 71.1, Thurber 69.1, Proux 59.6, Menahan 57.1, Hartall 55.6, Blument 53.3, Sharna 52.5, Shaw 52.2, Grant 50.5, Silcox 48.5, Lake 48.6, Pomeroy 46.1, McKelrick 45.6, Woodman 45.5, Hartwell 45.5, Linscott 45.1, Woodles 44.9, Farrell 44.8, Conley 44.3, Queenan 44.2, O'Neill 44.1, Baker 44.1, Curry 44.1, Brock 44.1, Budd 43.4, Collins 43.2, Desautels 42.9, Cooney 42.8, Goulart 42.2, Desautels 42.1, Boardman 42.0, Hammond 41.1, McNulty 40.5, Phaneuf 39.6, Johnson 38.5, Capt. Sulo 38.2, Desautels 37.3, Taylor 37.3.

DEATH AND SUFFERING IN WAKE OF COLD WAVE

Zero Temperatures Recorded in All Parts of New England Today, but Rapid Rise is Promised—Nine Deaths in New York

BOSTON, Feb. 13.—The second cold wave of the winter which set in on Wednesday night showed signs of breaking today, although below zero temperatures were recorded in all parts of New England except at Nantucket and Block Island.

Northfield, Vt., maintained its place at the head of the low temperature columns in the government records with Greenville, Me., a close second.

It was said at the weather bureau today that an old fashioned snow storm which was raging this morning in Mississippi would bring warmer weather when it reached New England probably tonight or tomorrow.

The minimum temperatures in some New England points last night were:

Northfield, Vt., 21 degrees below

Greenville, Me., 20 below

Burlington, Vt., 10 below

Eastport, Me., 10 below

Coconut, N. H., 8 below
Portland, Me., 4 below
Hartford, Conn., 4 below
Boston, 3 below
Block Island, R. I., 2 above
Nantucket, Mass., 4 above

NINE PERSONS HAVE DIED FROM

THE COLD IN NEW
YORK CITY

NEW YORK, Feb. 13.—New York today was still in the grip of the second cold wave of the winter with its temperature rising slowly at dawn and predictions that it become much warmer before nightfall. But with the relief from the zero weather, the forecasters sounded warnings of an approaching snowstorm from the southwest which is hourly expected to envelop the eastern seaboard.

All day yesterday and last night the temperature hovered around zero.

Death and suffering followed in the wake of the cold wave throughout the entire northeastern half of the country. Nine persons in New York city and vicinity have thus far died and many in hospitals are in critical conditions.

In all sections of New York state and even as far down the coast as Norfolk intense cold is reported.

60 FIRES IN GREATER NEW YORK

IN NINE HOURS KEPT

FIREMEN JUMPING

NEW YORK, Feb. 13.—Fifty fires in greater New York between the hours of 7 p. m. and 4 a. m. drove hundreds of persons into the zero weather and gave firemen one of the busiest nights in the history of the city. No lives were lost, but hundreds of persons are suffering from exposure. A fire in a six-story house containing a Turkish bath establishment and 30 families drove 200 scantily clad tenants into the street. The fire itself was trivial.

building is owned by Mr. Thomas Brennan.

Fire on Lawrence St.

Attempting to heat up the house was undoubtedly responsible for a fire on the home of John F. Brody, at 57 Lawrence street about 7:14 o'clock this morning. A telephone alarm summoned the members of the protective to the scene and the blaze was quickly extinguished, no damage being done. The fire caught from an overheated fireplace.

FIRE ON STEAMER WAVE

CAUSED CONSIDERABLE EXCITEMENT AT NEWPORT, R. I. TODAY

NEWPORT, R. I., Feb. 13.—Fire on the Steamer Wave, the ferry and freight tug attached to the naval torpedo station here caused considerable excitement at the government landing today. The blaze broke out in the pilot house just as the clerks were boarding the boat to go to the station. Overheated steam pipes were responsible.

MORE TROUBLE AT HAITI

NEW PRESIDENT TO PROCEED AGAINST GEN. THEODORE, WHO IS DETERMINED TO FIGHT

PORT AU PRINCE, Haiti, Feb. 13.—General Orestes Zamor, the newly chosen president of Haiti decided today to proceed against General Theodore, who is determined to fight with his rebels. The president's army began its march on Cape Haitien today and at the same time the small government war vessels were ordered to proceed to the same destination.

DANCING CARNIVAL

Under the Auspices of the Warnetta Campers at Associate Hall Tonight

A dancing carnival, under the auspices of the Warnetta Campers will be conducted in Associate hall this evening and all desirous of a good time should take in the carnival. Features, before seen in Lowell will be introduced, and should provide great enjoyment for the spectators as well as the participants. Mober's orchestra will furnish music, and will play special pieces for the new features.

The Warnetta Campers are well known in Lowell, especially in social circles, as only last season they conducted one of the most successful dancing parties ever held in Lowell. On that occasion a "Battle of Music" was the feature, and this was the first time that such a diversion was given here. Since that time several similar battles have been given, so in order to maintain their reputation of furnishing innovations the Warnettas have secured a banner program for tonight and Associate hall should be crowded to the doors.

MATRIMONIAL

The marriage of Mr. Peter Kearney to Miss Mary Dillon took place Wednesday afternoon at St. Peter's rectory, Rev. W. George Mullin officiating. They were attended by Miss Theresa Gargan, sister of the bride, and Mr. George Clark. The bride was gown in white charmuse and carried bride's roses; the bridesmaid wore yellow charmuse and carried yellow roses. A reception was held at the home of the bride, 121 Lawrence street, after which the couple left on the 3:33 train for Boston and New York. They will be at home to their friends after March 1st at 20 Bowden street.

The flag presented to the Ames St. school yesterday afternoon was the gift of the Ladd and Whitney circle, No. 8, Ladies of the G. A. R., and not the relief corps, as was stated yesterday.

HAVE PRETTY HAIR

Soft, Fluffy, Abundant—Use Parisian Sage. It Stops Falling Hair and Itching Scalp.

If your hair is not as soft and heavy as that of some friend, do not despair—do as she does—give it daily attention. Beautiful hair is largely a matter of care. If it is too thin, make it grow. If it is harsh and brittle, soften it up—lubricate it. If you have dandruff it is because the scalp is too dry and flakes off. Freshen up the scalp with Parisian Sage and all dandruff disappears.

Parisian Sage, sold in fifty cent bottles at drug and toilet counters, is just what you need. It quickly stops itching head, cleanses the hair of dust and excessive oil, takes away the dryness and brittleness, makes it seem twice as abundant, and beautifies it until it is soft, fluffy and lustrous. You cannot be disappointed in Parisian Sage. Always sold on money back if not satisfied plan.

RADICAL STEPS

In Elections to Academic Senior Secret Societies at Yale

NEW HAVEN, Feb. 13.—Radical steps for the elimination of alleged objectionable features of the present method of announcing elections to the academic senior secret societies at Yale are proposed by members of the junior class, as the result of a discussion last night at a meeting attended by about 100 juniors, practically a third of the class. Too much publicity, it is claimed, has been given to the tap day exercises, while the spirited contests which have taken place in public between the societies for desirable men has given the societies an undue importance in undergraduate eyes. To curtail the publicity, it is proposed that the place for holding the annual ceremonies be Berkeley oval, a more restricted spot, instead of the traditional corner of the college yard under the spreading maple trees. To eliminate the contests it is proposed that the societies previously agree among themselves as to men and to add in their choice it is further proposed that there be submitted to them a list of seventy members of the junior class, after it has been approved by some responsible person as the choice of the class of those worthy of senior society membership.

CALLS FOR WOMEN SUFFRAGE
TULSA, Okla., Feb. 13.—Oklahoma republicans in state convention here today endorsed the action of the national committee in charging the basis of representation in national convention. The platform adopted calls for women suffrage, a modified recall of judicial decisions, and a workman's compensation law.

"Personally Conducted" Trips to California Combine Comfort and Economy

Of course you have planned to take a California trip sometime, but possibly you have been waiting until you thought you could better afford it. If that is the case, I have some good news for you. Our Personally Conducted Parties to California are especially planned to meet just such requirements. Our parties travel on extra low fare tickets and have comfortable quarters in clean and attractive Pullman Tourist sleeping cars. Your pleasure is looked after all the way by a chosen representative of the "Harrington Route" whose first duty is to relieve you of care and detail, make you feel "at home" and point out and explain each of the thousands of points of interest along the way. The cost of it all is surprisingly low. If you will write, or drop in at the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" parties. Alex. Stocks, New England Passenger Agent, C. & D. & Q. R. R., 281 Washington st., Boston.

AN EXCITING RUNAWAY

Turner Centre Cream Scattered on Bridge Street When Horse Struck Pole in Wild Gallop

A heavy wagon owned by the Turner Centre Creamery was practically wrecked, several gallons of cream were spilled on the sidewalk, and dozens of cream bottles were broken, this morning about 8:45 o'clock, when the horse attached to the wagon became frightened on Bridge street and ran into a telegraph pole while attempting to turn into First street. The wagon was completely overturned and cream and broken glass covered the street and sidewalk in the vicinity.

The horse was left standing near the corner of Bridge and First streets while the driver, Thomas Brown, stepped into a store to leave an order. What caused the horse to start running is not known but it is believed that the noise of the vehicle on the frozen snow frightened the animal and he started at a rapid gallop toward Centralville.

When he reached the corner of Bridge street and Lakewood avenue, a street car conductor stood in the centre of the street with a long stick used to turn the signs on the cars in an attempt to

KITCHEN RANGE EXPLODED

Mrs. Susan Blaisdell Struck by Fragments and Knocked Unconscious—Building Saved

Mrs. Susan Blaisdell of 239 East Merrimack street was struck and knocked unconscious by an oven door about 2:15 o'clock this morning when the kitchen range in her home exploded and blew the large stove to pieces. All the windows in the room were blown out, and considerable damage was done to the furniture and other articles in the kitchen.

The explosion was caused by the blowing out of pipes connected with the stove and Mrs. Blaisdell was the only one in the kitchen at the time. After being struck by the heavy door she shouted for help and other mem-

bers of the family rushed to her assistance but found her unable to give information relative to the accident.

Fire had started in several places on the kitchen floor and a telephone alarm was sent to the fire department but before the members arrived the blaze had been extinguished by the men who had been aroused by the noise of the explosion. Hundreds of fragments of the stove were scattered over the floor and the kitchen was badly wrecked.

A doctor was summoned and Mrs. Blaisdell soon recovered although she was badly bruised and shocked. The

MIDDLESEX STREET CROSSING

It is well that the board of trade and other interested bodies representing the business and civic life of Lowell should be well represented next Saturday at the hearing to be given in this city before the commission on grade crossings. The commission has been created to hear arguments from those communities that already have petitioned or are about to petition for the abolition of such crossings, as to the reasons for the request, and its members should be given a correct impression of the public view in this regard. Public hearings usually do not always bring out a proper expression of public sentiment and though their failure is not taken as indicative of the merits of the question under consideration, it undoubtedly creates a bad impression, and dampens the enthusiasm of those who are striving to achieve any fixed purpose.

As President Harrington of the board of trade stated at the recent meeting of the committee on municipal affairs, highways, transportation and public utilities, even should the commission be favorably impressed with the arguments put forth by the citizens of Lowell as to why the Middlesex street crossing should be abolished at the present time, it would in all probability be many years before the work would be accomplished. Owing to the present financial embarrassment of the Boston and Maine it will frown at anything involving unusual expenditure, but its attitude should not be permitted to affect the merits of the case. Were the commission to decide that the crossing should be abolished as soon as possible, the city would not be unreasonable with the railroad, but would take a consistent stand with regard to the time of starting the work of reconstruction that the change of the crossing would necessitate. What is really necessary is that the unobstructedness of the crossing be brought home to the commission, although on this point no argument would seem to be necessary. What the company has done for Lynn and other cities it should not refuse to do for Lowell.

The arguments for the abolition of the Middlesex grade crossing have been given so often that they are known to the man on the street, but they will come of themselves to anyone who ponders on the effect of the crossing on that section of the city which has to bear with it. The crossing is out of date and out of keeping with the character of the city; it is dangerous; it impedes traffic; it keeps property values in the vicinity low; it prevents the development of Middlesex street; it is an eyesore from the scenic point of view; it gives a bad impression of Lowell to the thousands who pass through going north or south daily. These arguments and many others are sufficiently important to warrant the commission in favoring its immediate elimination. It is for the best interests of those who regard the abolition of the crossing selfishly or unselfishly to go to the hearing on Saturday and present their arguments forcefully, intelligently and convincingly.

CAR SHOP EMPLOYEES

Lowell has had a great deal to say more or less officially about welcoming the hundreds of workers to the new car shops of the Boston and Maine in North Billerica and making them feel at home in their new surroundings, but it is to be feared that the preparations for them have been rather inadequate. Unfortunately too much was left to the initiative of the workers themselves, and though there were registers of available tenements and other necessities, it has been forgotten that the most complete and scientific lists cannot quite atone for the city's apparent lack of interest. One who has lived in the domestic atmosphere of a New Hampshire community will not make up his mind readily about taking up a home here for his family, and even should he desire to live here immediately, it is impossible for him to decide at a moment's notice in which section he ought to reside. There are many other considerations to be considered besides the mere fact of finding a home. The skilled mechanics who have come here from Keene and Concord are a valuable addition to the community and it will be to the advantage of the city to make suitable arrangements for them and for their families. With the present difficulties of the school department and the inadequate school accommodation for our own children in some quarters, the city will have a little trouble in making suitable arrangements for giving school accommodation to the children of the newcomers. Like the housing problem this school question offers a difficulty that has not been satisfactorily met, thus far, and there is room for activity regarding it. Anything done for the accommodation of the fine trained body of men who will make such a notable addition to the population, numerically, socially and industrially, will not be done as a favor but as a debt which Lowell owes to all who come here to swell the ranks of our law-abiding citizens. Railroad men are essentially domestic in their nature and those who

have come to stay will be permanently grateful for any interest which Lowell may show in aiding them to settle here with their families under conditions as favorable as those they leave behind them in New Hampshire.

NATURALIZATION IMPRESSIVE

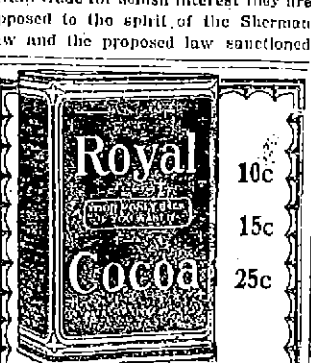

The Lynn News calls attention to the fact that the manner in which citizenship is bestowed upon aliens who have taken the preliminary steps towards naturalization are not much calculated to give them a high regard for the great dignity bestowed on them by the state. Added to the lack of ceremony or dignity is the fact that those who apply for the high privilege are frequently prompted and assisted by wise politicians who make the first consideration of citizenship the ability of him who receives it to vote for his shrewd benefactor. It is not singular that those who thus add themselves to the ranks of American citizens should occasionally regard their acquired dignity too lightly.

In this city there is not only a lack of the dignified formality that should surround the granting of the privilege of citizenship, but the sessions are irregular enough to lead the average man to believe that a naturalization session is squeezed in every little while when other state matters get dull. There is little advertisement of the fact, and poor arrangements are provided for those who apply for first or second papers. It is not unusual for a man to wait several hours round the corridors of the court house in company with others, waiting for the time when the papers are bestowed on him with little ceremony.

If this system is democratic, it is not wisely democratic. There should be some appropriate ceremony surrounding the granting of citizenship papers which would impress on the mind of the applicant that the honor is no light one. In Salem recently fifty men who were eligible to receive their final papers were gathered in the high school hall and were addressed on the privileges and duties of citizenship by former District Attorney White. Following this dignified talk, the papers were presented with appropriate formality. Exercises such as this would go far towards impressing on the mind of the newly made citizen the meaning of the serious ceremony of bestowing citizenship on aliens.

CANNOT FORCE COMPETITION

Arguing that the administration anti-trust program is not drastic enough to be effective in applying the terms of the Sherman act to business, the progressives at Washington are advocating some important changes embodying differences from the proposed measure in degree rather than in principle. Among the tenets published with a great flourish is that there should be no attempt to force competition. Surely at this stage of the game the government knows only too well that any action to "force" competition cannot be forced, and it should not, even if it were possible. If there are monopolies that consciously restrain trade for selfish interest they are opposed to the spirit of the Sherman law and the proposed law sanctioned

by President Wilson, and they should be curtailed or prevented. Competition would naturally follow in many lines, but it cannot be forced. You cannot compel great industries to compete but you can compel them to refrain from killing competition. This is all the government is striving to do, and if it succeeds, it will have worked wonders.

BUSINESS SUPPORTS CURLEY

One of the most remarkable movements started in an important municipality by a new mayor in recent years is the "Boost Boston" movement which Mayor Curley has started on a basis of co-operation that is as inspiring as it is apparently practical. With his characteristic initiative and courage the new executive called a meeting of the heads of Boston's financial, political, industrial and social life together and after pleading for unified effort, he inaugurated a campaign to raise a million dollars for the purpose of making some gigantic improvements and inducing outside industries to locate in Boston. His appeal was responded to generously and in half an hour almost \$50,000 was raised as a nucleus for the fund. The significant thing about the movement is that many of the financial and commercial leaders who have thrown themselves into the movement with enthusiasm were opposed to the new mayor strongly throughout the last campaign. He has already done much to beat down prejudice and to show that he is possessed of the courage of his convictions.

FOR SALE

If one watches the papers closely these times he may be able to get a good bargain in wives or brothers or sons and daughters, for selling off members of families is becoming quite popular. Once a week at least some poor mother advertises the fact—or the newspaper says she does—that she will sell two perfectly good children almost as good as new, to the charitable disposed. A few weeks ago an ambitious woman in Waltham having failed to

SUFFERED SEVERELY WITH ECZEMA

Broke Out in Blisters. Clothes Irritated It. Wanted to be Scratching All the Time. Cuticura Soap and Ointment Cured.

Man Street, N. Sedgewick, Me.—"I had a little girl baby who suffered severely with eczema when about five months old. She broke out in what looked like blisters as big as a pin-head and then they all ran together. Her clothes irritated it where she'd rub and she kept scratching and made awful noises when she would scratch her stomach. If she put her little hands on her face and legs the places would also break out just the same way. She wanted to be scratching about all of the time. Her little stomach was all raw sore. She couldn't sleep at times; she would wake up and cry.

"I tried sweet cream and gold cream, salve and ointment, and I was given some powder to put on her. I began using it and the baby began to cry a good deal of the time. So I happened to read about Cuticura Soap and Ointment and I bought one cake of Cuticura Soap and one box of Cuticura Ointment and they cured her in one month so she is all well." (Signed) Mrs. Dorcas Carter, May 7, 1913.

A single hot bath with Cuticura Soap and a gentle anointing with Cuticura Ointment are often sufficient to afford immediate relief to the most distressing cases of skin and scalp diseases when all else fails. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

PS Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Dandérine Right Now

Thin, brittle, colorless and scraggy hair is mute evidence of neglected scalp, of dandruff—that awful scourge. There is nothing destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die, then the hair falls out fast. A little Dandérine tonight—now—anytime—will surely save your hair.

Get a 25 cent bottle of Dandérine from any drug store or toilet counter, and for the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine downy hair—new hair—growing all over the scalp.

Improve The Complexion

Sold everywhere. In boxes, 10c, 25c. No woman should fail to read the valuable directions with every box.

make a boarding-house pay, tried to sell her husband, but strange to say, there were no bargain hunters. And prospective husbands are scarce, too, they say. Being a sensible woman she made the best of the matter by deciding to keep him, so she went back to the boarding-house business. These are great times for the friendless who have money enough to pick up some of the real bargains in slightly damaged families that are advertised from time to time.

The New Haven railroad paid rather a high figure, it seems, for the purpose of "collecting sentiment." The road would find it quite easy to collect sentiment at present, but it would not pay much for it. There's sentiment and sentiment, and the kind that now overstocks the market is not the right variety—from the New Haven's point of view.

If there is anything in the Darwinian theory, the people born a few centuries hence will either have no legs or have them appended as mere ornaments. With the increase of electric cars, automobiles, elevators and other mechanical means of conveyance, legs are becoming unnecessary as means of locomotion.

The citizens of Lowell must not sit back in smug complacency and let the board of trade or other organization do all the work. Civic bodies do their greatest work in showing the rest of the community what they ought to do in order to achieve something.

The one quality that is not lacking in higher political circles these times is courage. If we may take the examples of the president at Washington and the chief executives of Boston and New York as typical.

To the chronic kicker it is well to apply the following old Irish proverb: "The man on the fence is always the best hurler."

We have heard a few preparatory growls to remind us that March comes in like a lion.

We take our hats off to the ground hog as a weather prophet this time.

Seen and Heard

The state house reporter of the Boston Traveler-Herald pays the following compliment to Rep. John J. Gilbride of this city: "Representative Gilbride of Lowell, as member of the committee on election laws, finds that his committee is one of the busiest on Beacon Hill, but he has aroused favorable comment by his colleagues on the committee by the way he 'cats up' work."

Just received a postal from our mutual friend, Donald J. McDougall, "Foot Man" in Fredericton, N. B., or was a few days ago, and here's what he had to say about the capital of New Brunswick: "Shed park has nothing on the streets here for a skating rink. They're so slippery that it's hardly worth one's while getting up one falls so often."

Mr. Frank Progan, the genial and

WHAT TO DO FOR NEURALGIA

The great symptom of neuralgia is pain; the great cause is lack of nutrition for the nerves, in plain language—starved nerves.

There are two things to do for any form of neuralgia, and for the first affected part to soothe the pain, and feed the nerves by taking a tonic containing the elements needed by them. Heat, as afforded by hot flannel, hot water bags, etc., kills the inflamed nerves into temporary quiet. It does not cure. Not until the nutrition of the nerves is restored will the inflammation subside. Williams' Pink Pills furnish to the blood the needed elements and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood. Remember that.

Neuralgia is a general term. It means inflammation of a nerve. It is given different names according to the nerve affected. Sciatica is neuralgia of the sciatic nerve. Application of heat will soothe the pain in all forms of neuralgia and Dr. Williams' Pink Pills will correct the condition that caused it.

Your own druggist sells Dr. Williams' Pink Pills and the Dr. Williams' Medicine Co., Schenectady, N. Y., will send you a little book on "Home Treatment of Nervous Disorders" for the asking.

trustworthy insurance man, reminds us of the fact that Nathan Crosby who succeeded Joseph Locke and preceded Samuel P. Hadley as justice of the local police court, had the same birthday as Lincoln. Judge Crosby was born in Sandwich, N. H., February 12, 1793 and graduated at Dartmouth college in 1820. He was appointed justice of the Lowell police court in April, 1842 and died in February, 1854.

The following relative to Judge Crosby's appointment to the police court bench, is from Cowley's history of Lowell:

"Since his elevation to our police bench, Judge Crosby has mitigated the asperities of law with the amenities of literature."

The story of the \$100 bank book is known to a few, and it is worth telling to many, particularly young men who are thriftless or who are complaining that there is no chance for a young man to get ahead these days.

This bank book was started in 1891, which was not so very long ago, as men look back upon time today. It was started by a young man who had a responsible position in a factory. He was paid a salary of \$20 a week, which was a very good salary. But he found that he was not getting on at the end of the week than at the beginning. He was spending as fast as he was making.

He made a New Year's resolution to start a savings bank account. He deposited \$10, one half his weekly salary. The next week he deposited another \$10, and the third week \$5. The fourth week he deposited nothing at all, and likewise the fifth, sixth and seventh weeks. The eighth week he began to draw money from the bank and he continued to draw a little at a time until his balance was reduced to about \$1. Then he once more realized that his money was slipping through his hands like water through a sieve and he once more determined to build up a savings bank account.

This time he added to his determination an ambition to invest his savings in some business enterprise. So he began to save money from his weekly salary once more, and he put his savings into the bank. When he had \$30 he invested it in his first business enterprise, in the very industry in which he was employed, not in any get-rich-quick scheme or something else that he didn't know about. He put his money where he could see it, and control it, and he watched it grow. That \$30 invested has grown into a big business today.

When the young man got well established in business, to look \$100 from his profits, and put the money into the savings bank, and the amount was entered on the book that he started when he was working on a salary, and was trying to save a little money so that he would be better off at the end of the week than at the beginning. He put this book into his safe, and he keeps it there. He looks it over when things look dull, and he gets new courage from it, for he believes that if he struggled through those first hard days of saving he can struggle through any of the difficulties of a business today. When any pessimistic persons stop in his office, and complain that there's no chance for a man with little capital today, he pulls out his bank book, and presents it as material evidence that there is still a chance for the man who is willing to work and to save.

LINCOLN THE MAN OF THE PEOPLE

When the Non-Mother saw the whirlwind Hour Greatening and darkening as it hurried on, She left the Heaven of Heroes and came down.

To make a man to meet the mortal need.

She took the tried clay of the common road.

Clay warm yet with the genial beat of Earth.

Dashed through it all a strain of prophesy.

Tempered the heap with thrill of mortal tears.

Then mixed a laughter with the serious stuff.

It was a stuff to hold against the world.

A man to match our mountains, and compel

The stars to look our way and honor us.

The color of the ground was in him the red earth;

The tang and odor of primal things; The residue and patience of the rocks;

The gladness of the wind that slinked the corn;

The courage of the bird that dines the leaves;

The pity of the snow that hides all scars.

The loving kindness of the wayside well.

The tolerance and equity of light That gives as freely to the shrinking weed

As to the great oak flaring to the wind—

To the grave's low hill as to the Marteborn

That shoulders out the sky.

And so he came.

From prairie cabin up to capitol.

One fair ideal led our childhood on.

Forevermore he burned in us the love With the stroke and gesture of a king.

He built the rail-pole as he built the state.

Pouring his every strength through every cry blow.

The conscience of him testing every stroke.

To make his deed the measure of a man.

So came the captain with the mighty heart:

And when the step of Earthquakes shook the Nation

Wrenching the rafters from their ancient hold,

He held the ridgepole up, and spilled again

The rafters of the Home. He held his place—

Held the long purpose like a growing tree—

Held on through blaine and faltered

And when he fell in whirlwind, he went down

As when a kindly cedar green with hoariness

Goes down with a great shout upon the hills,

And leaves a lonesome place against the sky.

—Edwin Markham.

EDITORIAL COMMENT

SPLITTING HAIRS

New Bedford Standard: Governor Walsh is right in insisting that men whom he appoints to the bench must be gentlemen, but there is no reason why he should place himself on making this requirement, since judges appointed by other governors have also been gentlemen. And Mr. Walsh demanded that only gentlemen be admitted to the practice of law it would have been more to the point.

QUIET NEEDED

Woonsocket Call: The Norris resolution commands the interstate commerce commission to probe the New Haven to an extent that it has declared itself unable to go. What is all this for? What is to be gained? The fall about getting back something that the New Haven has lost sounds like a far cry. What the

New Haven needs is a period of quiet, and it needs it badly.

THE GHASTLY

Lowell Journal: Col. Goethals' first movement on assuming command of the Panama zone is to suspend men charged with grafting. John Burke, chief of the commissary department was first to be suspended and other men were placed in charge of the various bureaus in that department. The United States attorney at New York has secured evidence and the grafters are to be prosecuted. Let the good work go on.

COST OF LIVING

Lawrence American: Are there not too many millionaires? Do not some of them get more than a fair profit is there not an unnecessary multiplication of "in-between" interests? Masses of people are engaged in food, hard-working livelihood at handling food. To curtail the system would throw many of them out of what they regard as a just occupation. In a sense they may be parasites in that their services could be dispensed with, but as yet no effective method of simplifying the distributive system has been devised.

THE DRUG HABIT

Burlington Free Press: The arrest of the New York manager of Park

Davis & Co., for sending heroin through the mails is drastic action. But drastic steps are needed to stop the sale of a drug the ravages of which are said to be appalling.

WHAT SAYS HARMONY

Portland Express: Isn't it about time again for some part of New England to come forward with a first-class ghost story? For a long time now we haven't had a real good Yankee spook—Boston Globe.

\$2,000 IN GEMS STOLEN

CHICAGO, Ill., Feb. 13.—Unset diamonds valued at \$2,000 were stolen yesterday from a carriage which stood in front of the store of a West Side jeweler.

The jewels were the property of Horne & Co. of New York city. The diamonds were in a valise which was left in the vehicle when S. P. Bergetti, a member of the Eastern firm, entered the retail store.

Two men seized the hand bag and

BANKER COMING EX-PRES. MELLON

Olat Olsen, cashier of the First National bank of Boston, said to be an expert in income tax matters, will address the members of the Lowell Central bank Friday evening, Feb. 13, at 7.30 o'clock, and tell them how the income tax law affects the men of today.

Olsen was delegated by the First National bank to make a special study of the New law and his talk will undoubtedly be of great interest to the members of the local bank.

The meeting next Friday night is the second in a series of business men's lectures which are being held under the auspices of the executive committee of the board.

SMOTHERED TO DEATH

HAVERHILL, Feb. 13.—An infant of Mr. and Mrs. Louis M. Bates was smothered to death in a bunk in a rude shack at Ward Hill today when Mrs. Bates and several children had found the temperature ten below zero. In her efforts to keep the children from freezing Mrs. Bates last night placed them in the store and the clothing of one of them caught fire, the smoke suffocating the infant.

BADLY BURNED BY NAPHTHA

HAVERHILL, Feb. 13.—Louis Bates, employed at the Gale Shoe Mfg. Co. was badly burned while at work today when naphtha he was using exploded. He is in a dangerous condition at the Hale hospital.

BOSTON, Feb. 13.—Promising protection against embarrassing questions regarding proceedings in other states, the public service commission made another effort today to induce Charles S. Mellon, former president of the New Haven road to testify in the investigation of the road's publicity expenses.

Unless Mr. Mellon or a former president, T. E. Byrnes, reconsiders their decision not to appear, the evidence in the case will be considered closed.

In his reply to the first invitation of the commissioner, Mr. Mellon stated he was about to be tried for manslaughter in Connecticut and was advised by counsel not to leave the state. In the second invitation, Mr. Mellon, the chairman of the commission, Frederick J. MacLeod, stated that there was nothing in the transactions under investigation here that had any bearing upon the responsibility of the executive officers of the road for any accident nor any connection with proceedings relating to the Grand Trunk railroad.

STEAMER BROKE THROUGH ICE

CHICAGO, Feb. 13.—One of the three steamers ice locked off the mouth of the Chicago river fought its way to the harbor today with the aid of two tug boats which broke some of the ice. The tug which broke some of the ice, the Alabama was the fortunate boat. The Arizona and the Kansas remained in the ice.

TRIAL OF CAPT. BERRY

PHILADELPHIA, Feb. 13.—Captain Edward E. Johnston, commander of the Old Dominion liner *Monroe*, sunk in the collision with the *Merchants' and Minors' steamer Nantuxet* off the Virginia coast on Jan. 30 today again took the witness stand in the trial of Captain Johnston today. The *Nantuxet* rebounded quickly and fell in alongside and struck the *Monroe* again broadside on. The second shock appeared to be greater than the first. When the vessels parted again after an interval of 20 seconds the *Nantuxet* floated astern and the *Monroe* forward. Captain Johnston said he believed it would have been impossible to keep the two ships together in order to rescue all passengers and crew had such an effort been made.

Captain Johnston testified he did not signal the chief engineer to start the pumps as he regarded it as useless.

TRADING WAS BRISK

AT OPENING—HIGH PRICES OF AMERICAN STOCKS IN LONDON CAUSED IMPROVEMENT

NEW YORK, Feb. 13.—Materially higher prices of American stocks in London caused a corresponding improvement in the home market at the opening today. Trading was brisk in the early session and although some of the inactive stocks lagged behind, virtually all of the leaders reached better figures. After quotations had been readjusted at the higher range the demand diminished. The market grew dull, although initial gains were held firmly. Union Pacific, Northern Pacific and Western Union rose a point. Rock Island preferred dropped 1 1/2 to 10 1/2, a new low record. The common stock fell 1 1/2.

A number of specialties advanced in the early afternoon but the general market was almost stationary. Consistent strength of steel gave tone to the industrials, seven of which reflected pool operations. The supply of stocks was not large and it was evident that the market had been oversold in spots. Purchases here for foreign account amounted to about 20,000 shares.

The market closed firm. Indications which the list gave of being speculatively sold out influenced a further slight advance in the final hour. Northern western shares, particularly the 11th shares were in favor.

MONEY MARKET

NEW YORK, Feb. 13.—Mercantile paper 3-12 1/2. Sterling easy 60 day bill 132.75 for demand, 133.35; commercial bills 45 3/4, bar silver 57 3/8; Mexican dollars 46. Government bonds steady; railroad bonds steady. Call money steady 1 1/2-1 3/4; time loan, 1 1/2-1 3/4, closing 1 3/4.

Miss Bella Lavigne and H. A. Racicot, respectively. There were other remarks by the choirmaster and others and varied entertainment program followed, those taking part being as follows: Misses Irene Parthenalis, Blanche Levesque, M. Turgeon, Cora Renaud, Bella Lavigne, and Messrs. H. A. Racicot, Edouard J. Grignon, Louis Letendre and Edouard Gaudette, as well as Mrs. Edouard Gaudette. The evening closed with the singing of "O Canada" by the entire gathering, Miss Lavigne presiding at the piano.

SURPRISE PARTY
A pleasant surprise party was given Miss Florence Capper Thursday evening in honor of her 21st birthday anniversary, when a number of her friends gathered at her home, 214 Hill street, and surprised her with a beautiful camera. Mr. Fred Bowyer made the presentation. Miss Capper was taken completely by surprise, but responded very fittingly. Games were played and refreshments served and the party broke up at a late hour, all wishing Miss Capper many happy returns of the day. The affair was in charge of Miss Beatrice Axon and Miss Margaret Forsythe and proved very successful.

JUNIOR MILITIA

Adj. Gen. Pearson Would Utilize Boy Scouts and Similar Bodies

BOSTON, Feb. 13.—Yesterday Adj. Gen. Pearson announced he was about to take steps toward making the Boy Scouts and other semi-military organizations of boys a sort of junior militia of the state, with the ultimate intention of having their members as they become of age enlisted in the regular Massachusetts volunteer militia.

This announcement follows a recommendation made by General Pearson and adopted by Governor Walsh in his inaugural, that state armories and military property become available under proper restrictions for the use of organizations of boys under the age of 18.

General Pearson said he thought this could be done without in any way brutalizing boys or implanting in them any undue desire of becoming fighters. It is proposed to have the state militia organized into three classes: first,

boys who are trained to obey orders, march and to carry themselves properly; second, juniors who are given commands and continue progressive training; and third, the National Guard, who receive the full training of a soldier, so far as possible.

General Pearson said yesterday: "There has been a great deal of misdirected energy in the military or semi-military training of boys in the case of the Boy Scouts, some military schools and church brigades, the movement has been connected with the idea that it was unwise to teach boys that the old-fashioned ideal of the heroic soldier was a good ideal."

"I believe the Boy Scout movement was started in England by Baden-Powell as a feature for the reserves and the army, but in this country the movement has become diverted and its promoters look with scant favor on the soldier. I believe the Boy Scouts and other similar organizations should be so trained that their members will acquire those things which are fundamentally necessary for a good soldier, so that when he is older he will gravitate quite naturally into the National Guard, having already been trained to a point far ahead of the average recruit."

"I have believed for some years that one solution of the problem of national defense was to train our boys so they would consider it a great honor to be permitted to wear the uniform of the

United States. The military training of a boy should not only include drill, marching and routine work, but the teaching of the meaning of the word 'duty,' the upbuilding of the body and brain, and the eradication of selfishness and lawlessness."

SUMMER PLAYGROUNDS

LIST OF PATRONESSES AT THE MERCHANT OF VENICE PERFORMANCE, FEB. 21

Following are the patronesses of the drama "Merchant of Venice" to be given in Colonial hall, Feb. 24th for the benefit of the summer playgrounds: Mrs. Harry Boardman, Miss Gertrude Roddick, Mrs. A. C. Ferrin, Mrs. James J. Kerwin, Mrs. H. N. Jewett, Mrs. Henry H. Harris, Mrs. M. Cassidy, Miss Grace Donovan, Mrs. Frederick Farnham, Mrs. Frank Smith, Mrs. John Morrison, Mrs. Charles Condon, Mrs. John Stott, Mrs. Patrick Glibbidge, Mrs. Frank Stowell, Mrs. Peter Condon, Mrs. George M. Harrigan, Mrs. John J. Hogan, Mrs. James J. McCarty, Mrs. A. G. Pollard, Mrs. E. N. Wier, Mrs. H. J. Molloy, Mrs. J. E. Barr, Mrs. Herbert J. Melis, Mrs. C. E. Upton, Mrs. A. K. Chadwick, Mrs. C. W. Morey, Mrs. Herbert D. Pickering, Mrs. Arthur Burkland, Mrs. Dennis J. Murphy, Mrs. L. H. Carbach, Mrs. Harry A. Greene, Mrs. A. E. Rountree, Miss Grace Ward, Miss Elizabeth Kennedy, Mrs. Arthur Merrill, Mrs. Edward Trull, Miss Olive S. Parsons, Miss Marion H. Miller, Miss Lina Parker, Miss Alice Parker, Mrs. Alice Chase, Miss M. Gage, Mrs. Frank E. Dunbar, Mrs. Arthur T. Sanford, Mrs. Robert Wood, Miss Beale Under, Mrs. Wm. Lamson, Mrs. James Bancroft, Mrs. J. Munn Andrews, Mrs. F. C. Church, Mrs. L. Huntress, Mrs. Charles Knapp, Mrs. George Chandler, Mrs. George F. Richardson, Miss Roberta M. Drannhall, Miss Helen H. Webster, Mrs. James E. Beaton, Mrs. Avery B. Clark, Mrs. Wm. Tolson, Mrs. Tyler Stevens, Mrs. Franklin Nourse, Mrs. Nickerson, Mrs. E. S. Hylen, Mrs. C. B. Redway, Mrs. Bernard, Mrs. C. Skinner, Mrs. Charles T. Billings, Mrs. Mary Hull, Mrs. C. B. Penham, Miss Marian Mack, Miss Adelle Edwards, Miss Marian Greene, Mrs. S. H. Thompson, Miss Mary A. Webster, Mrs. Philip S. Murden, Mrs. Frederick A. Eluther, Mrs. Albert J. Bachelier, Mrs. John Faulkner, Mrs. Robert F. Marden, Mrs. Jason Coffin, Miss Elizabeth Dame, Mrs. A. K. Whitcomb, Mrs. Herbert Barker, Mrs. W. B. Clark, Mrs. C. E. French, Miss Mary Fletcher, Mrs. J. C. Wadleigh, Mrs. John L. Robertson, Mrs. Frank S. Bean, Mrs. A. G. Cunnock, Miss Sara A. Bowen, Mrs. Frank Weaver, Mrs. Joseph B. Eluther, Mrs. E. B. Garvey, Mrs. L. A. Olney, Mrs. John M. Stevens, Mrs. Frank Alger, Miss Fannie Murphy, Mrs. Donald M. Cameron, Mrs. D. L. Page, Miss N. P. H. Robbins, Mrs. Clarence Nelson, Mrs. George Dearborn.

Several matters of importance to sportsmen in this section will be taken up at the next meeting of the Lowell Fish and Game association. The meeting will be held the second Tuesday in March and among the important matters to be considered will be the stocking of the ponds in the vicinity of Lowell and the restoration of the fish way at Pawtucket falls.

Willis S. Holt is a very active member of the local fish and game association and he has communicated with Congressman John Jacob Rogers relative to shipments of fish here by the United States government. Mr. Rogers promises to give the matter his personal attention and if the local association succeeds in getting fish from the United States authorities as well as the state authorities, it is expected that a good supply will be received in this city for distribution in ponds in Lowell, Dracut, Chelmsford, Westford and elsewhere.

Mr. Holt, in his letter to Congressman Rogers, asked the congressman to please furnish application blanks for fish to be used in stocking some of the ponds and Mr. Rogers replied as follows:

Mr. Willis S. Holt, Fire Station, Westford, Mass.: Dear Mr. Holt: I take much pleasure in enclosing herewith application blanks for fish to be used in stocking some of our ponds. I shall be very glad to endorse and file these applications personally when you are prepared to have me do so. With best wishes, I remain, Faithfully yours, John Jacob Rogers.

U. S. MARINE DISASTER

TO BE COMMEMORATED BY GARFIELD POST, G. A. R. NEXT SUNDAY AFTERNOON

At a meeting of James A. Garfield post, 129, G. A. R., held Wednesday evening, it was voted to attend the Memorial service, in commemoration of the sinking of the battleship Maine, that is to be held in Memorial hall next Sunday afternoon. Other matters were considered and the meeting was declared a success. The Maine was sunk in Havana harbor March 21, 1898, when 300 U. S. marines were lost. On Nov. 27 of the same year the Portland was last sailing from Boston with 170 souls aboard.

GOVERNMENT WILL SUPPLY FISH

With Which to Stock Ponds in the Vicinity of Lowell

New Hampshire Authorities Will Cooperate in Stocking Long Pond

Fish and Game Association Will Hold Important Meeting

Several matters of importance to sportsmen in this section will be taken up at the next meeting of the Lowell Fish and Game association. The meeting will be held the second Tuesday in March and among the important matters to be considered will be the stocking of the ponds in the vicinity of Lowell and the restoration of the fish way at Pawtucket falls.

Willis S. Holt is a very active member of the local fish and game association and he has communicated with Congressman John Jacob Rogers relative to shipments of fish here by the United States government. Mr. Rogers promises to give the matter his personal attention and if the local association succeeds in getting fish from the United States authorities as well as the state authorities, it is expected that a good supply will be received in this city for distribution in ponds in Lowell, Dracut, Chelmsford, Westford and elsewhere.

Mr. Holt, in his letter to Congressman Rogers, asked the congressman to please furnish application blanks for fish to be used in stocking some of the ponds and Mr. Rogers replied as follows:

Mr. Willis S. Holt, Fire Station, Westford, Mass.: Dear Mr. Holt: I take much pleasure in enclosing herewith application blanks for fish to be used in stocking some of our ponds. I shall be very glad to endorse and file these applications personally when you are prepared to have me do so. With best wishes, I remain, Faithfully yours, John Jacob Rogers.

The blank in question is quite a formidable affair and contains no less than 21 questions having to do with description of the lake, pond or stream to be stocked.

Mr. Holt also addressed a communication to Fish and Game Commissioner of New Hampshire relative to Long Pond, a part of which lies in Lowell. Mr. Holt said he would be glad to co-operate, in the spring, with the Lowell Fish and Game association in the stocking of this pond and he invited Mr. Holt to visit him at his office in Concord, N. H., for the purpose of talking the matter over. Mr. Holt brought the matter up at a recent meeting of the local association and arrangements have been made for President Derby and Messrs. Holt and Gonzalez to visit Commissioner Beals on Friday, Feb. 20. Mr. Holt states, however, that Friday was not chosen as a "fish" day, but because it was convenient to all parties concerned.

Mr. Holt also sent a letter to the commissioners on fish and game at the state house, Boston, advising them of his plans to visit them and the association with the local authorities relative to the stocking of Long pond, and re-

Why are there more packages of Tudor Tea sold in Boston than of any other brand?

The transcendent cup quality and delicate flavor of the Tudor Tea are not due to accident but to the infinite pains taken even in the smallest details by those who blend and pack it.

The Tudor Tea is grown in beautiful private estates on the sunny slopes of the high hills of Ceylon.

The small tender leaves of the Tudor Tea are plucked in the early spring while they are full of succulent juices, thus securing the best essence of the Tea in all its fragrance and deliciousness.

And then the Tea is put into small packages especially designed for preserving this native flavor and protecting the Tea from dust and dirt.

NOTE: This ideal parchment lined foil packet protects the Tea better than the pretty canisters for which you have to pay at the rate of 10c per lb. for every pound you buy.

Tudor Tea is healthful when made according to directions, and is recommended by physicians.

It contains no coarse tannin-bearing leaves and can be used freely without the slightest ill effect.

Tudor Tea is very economical, as it goes farther than ordinary Teas. In fact, a trial 10c packet will make one hundred cups of the best Tea in the world.

Guarantee: So sure are we that you will like Tudor Tea that we tell your dealer to refund your money if you want it without even the return of the Tea.

Nature Will Cure Constipation

All she needs is a very little help.

Constipation is caused by accumulated waste in the Colon (Large Intestine), which, under our present mode of living, Nature cannot entirely remove without a little help.

The rank poisons in this waste get into the blood circulation, too, and make us feel depressed, blue, bilious and incompetent—really sick if allowed to go a little too far.

All the help that Nature asks, however, is internal Bathing with Warm Water, applied by the "J. B. L. Cascade." This, in a perfectly natural and rational way, cleans out all the waste and

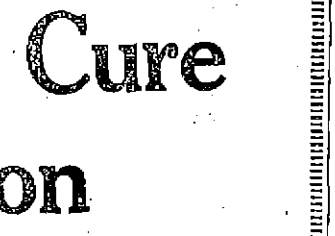

poisons from the Colon, and keeps it as sweet, clean and pure, by occasional use, as Nature demands for a perfectly healthy condition.

So invariably successful has this new and improved method of Internal Bathing proved to be, that over 500,000 Americans are now enthusiastically using it to cure Constipation, ward off disease and keep them bright, vigorous and efficient.

The "J. B. L. Cascade" is now being shown by all Riker-Jaynes Drug Stores. Call and let us explain just how simply it accomplishes these great results.

Also ask us for booklet "Why Man of Today Is Only 50% Efficient."

AN ENJOYABLE AFFAIR

HEART HOLY ROSARY SODALITY A GRAND SUCCESS

The annual social of the Holy Rosary sodality of the Sacred Heart parish was held in the school hall last evening, and despite the cold weather there was a very large attendance. Those who attended were well repaid for the program was one of rare excellence, and each number brought forth prolonged applause. Upon entering the hall each lady was presented a miniature silk bag, in honor of Lincoln, and selections dedicated to the great emancipator were played by the orchestra.

The priests of the parish were in attendance and they, too, greatly enjoyed the fun. The affair opened with a concert by Foley's and Moran's ladies' orchestra. The selections by the talented young ladies were artistically given and were well appreciated by all.

"The Last Rose of Summer" was excellently given by Mrs. James C. Garvey, several excellent piano selections were played by Miss Helen Wilson.

"The Kellys Are at It Again" was sung by Mrs. Thomas Powers and it made a great hit. "Don't You Wish You Were Back Home Again" by Mrs. William Allen was well received. "A Little Bunch of Shamrocks" was rendered by Mrs. Eugene P. Sullivan, and she was given a great hand.

"How Terry Saved the Bacon" a recitation by Mrs. Mary Depotcher, brought forth considerable applause and laughter. Miss Gertrude Rounie acted as accompanist of the evening and her clever playing added much to the success of the program.

After the concert, refreshments were served and then the floor was cleared and dancing was enjoyed until a seasonable hour. At the close of the affair all voices in a grand success and the evening in charge, headed by President Maria Deberry, was warmly congratulated for the good time provided.

If you want help at home or in your business, try The Sun "Want" column.

JEWELRY SALESMAN LOST

POLICE ASKED TO FIND BOSTON MAN WHO DISAPPEARED ON MONDAY

BOSTON, Feb. 13.—Mrs. John K. Shanahan of Mattapan fears that her husband, a jewelry salesman, who has not been heard from since last Monday, has met with foul play.

Mr. Shanahan left his home at 51 Hiltwaite road, Mattapan, last Monday with jewelry valued at \$200 which he planned to sell in Lawrence. Traced to Lawrence, the trail disappeared, and no word of his whereabouts has been received by relatives or friends.

Paul J. Gulesian of Mattapan, a nephew of the missing salesman, said yesterday that he also fears that Mr. Shanahan must be the victim of foul play.

Mr. Shanahan said yesterday that her husband was a great lover of his home and she can assign no reason for his disappearance other than that some harm has come to him.

The police of Boston and Lawrence are conducting a search for Shanahan, who is 41 years old, 5 feet 9 inches tall and weighs 175 pounds.

UNION MEETING

Methodists Gather at St. Paul's Church to Discuss Financial Plan

A union conference of all the Methodist Episcopal churches in Lowell and surrounding towns was held yesterday afternoon and evening in St. Paul's church in Hurd street. The purpose of the conference was to awaken interest in the new financial plan adopted at the last general conference. It was the fifth and last conference of its kind

held by the district superintendent, Rev. George B. Dean, in the Worcester district. The speakers in the afternoon were Mr. E. D. Howard of Chicopee Falls, who presented the layman's point of view in connection with the new financial plan, and Dr. John Lowe, secretary of the finance commission for the churches in the eastern division, comprising the Atlantic states.

The new plan contemplates raising of the budget in local churches, without the customary dog and, necessitating what is commonly known as an "agony Sunday."

Bishop John W. Hamilton, resident bishop of New England, who, as a member of the finance commission, reported the general conference, said that he was present just to show what side he was on. He said that, generally speaking, he did not believe in an "every-member canvass," but it has come to be a necessity for the reason that one-third of all the membership of the M. E. church has been doing all the paying and all the praying, while the other two-thirds sit and are not as good as a lot of rotters at a baseball game, because they do not inspire the workers, but make it more difficult for them to carry the burden of the church. Yet these may be as good members as the other third, only they have not learned the genius of putting their all to work. Indeed, as the morgue of the Christian church, it is an awful thing to do nothing, anywhere; but it is worse in the church, to have a lot of people who cannot do anything. The church is just waiting up to see that something must be done to arouse the latent talent.

Dr. Fort said there is always a close connection between the death of financial resources and the lack of spiritual growth in any church. He said that the real difficulty comes from lack of system and lack of knowledge. The plan proposed, which is to take the place of the old lot-or-more method, is continued to treat many cases of frost-bite. The wind was less violent today, and the weather bureau forecasted a rapid rise in temperature.

features of the plan are: Subscriptions for benevolences and current expenses on a weekly basis, through a personal canvass of all the members, by teams of two, covering all sections where the membership is found. This canvass to be made annually.

The use of a uniform collecting device, such as the duplex envelope.

Two distinct budgets and two treasurers, one for current expenses and one for benevolences, and quarterly remittances of money collected for benevolences.

Dr. Fort cautioned against putting the plan into the hands of pessimists to be worked out, and he gave several examples of churches that have increased both their financial resources and their membership, through the right handling of the new system.

One typical case the money raised for current expenses has more than doubled under the new plan, and there was a still larger increase in the subscriptions for benevolent purposes.

RISE IN TEMPERATURE

FORECASTED BY WEATHER BUREAU—MANY FROSTBITES IN BOSTON

BOSTON, Feb. 13.—After rising 20 degrees from the low point of the winter, reached yesterday morning, the temperature fell steadily during the night and early today stood at three degrees below zero. Fire alarms were numerous throughout the night and the firemen were among the worst sufferers from the cold. The hospitals continued to treat many cases of frost-bite. The wind was less violent today, and the weather bureau forecasted a rapid rise in temperature.

200 ARRESTS AFTER RIOTS

TOKIO, Feb. 12.—Serious riots started by citizens of the Japanese capital as a protest against the levying of increased taxation led to sharp fights between the police and the public and the arrest of 200 people in the lower section of the city at midnight. The disorders were quickly suppressed by a body of 500 policemen who by free use of their sabres dispersed the mob.

In pursuance of its determination to stifle rigorously any street demonstrations, the authorities today ordered

the arrest of a number of editors of opposition papers which have agitated opposition, and at the same time suppressed their newspapers. Mass meetings have been called for today and tomorrow to insist on the resignation of the cabinet and to protest against the harness used in the suppression of popular demands. The recent disorders in the house of representatives in connection with the Japanese naval scandals caused the resignation today of its speaker, Kikuo Doka who said he felt himself personally responsible for the incidents in parliament.

THE LEADING MEN

Continued

the shops as well as some of the foremen and assistant foremen were not present.

The paymaster was around yesterday afternoon and for nearly an hour it was a general procession from the various buildings to the locomotive shop, where the pay was distributed. The men were called to the office by means of different signals given out by the large whistle on the power house. All men wore a happy smile for it is understood that they are well paid for their services.

The entire shop is now in charge of Asst. Supt. H. T. Nowell, who will have full swing until March 1, when the superintendent, Thomas Jennings, will take up his new duties. Mr. Jennings is a resident of Concord, N. H., where for the past two years he has held the position of superintendent of the large plant of the Boston & Maine. This gentleman has had considerable railroad experience. For a number of years he was connected with the Central Vermont, and in 1893 he accepted the position of superintendent of the car shops of the old Pittsburg railroad, which later combined with the Boston & Maine. Some years ago he was appointed superintendent of the car shop at Keene, N. H., a position he held until three years ago, when he was transferred to the Concord plant. Mr. Jennings has also had railroad experience on the Erie railroad. He will come to Billerica on March 1, when the shop at Keene, N. H., will be closed, and his position at Concord will be taken up by the superintendent of the Keene shop.

Asst. Supt. H. T. Nowell is also a resident of Concord, N. H., but he is soon to make his home in this city. He started work for the Boston & Maine in 1901 in the shops at Concord, where he learned the business. Three years ago he was transferred to the Billerica plant where he was put in charge of the tool equipment. He is a very young man and very capable. It was he who picked out all the machine tools for the large Billerica plant, and two months ago the officials of the company recognized in Mr. Nowell a very efficient and capable worker and his reward for faithful service was his promotion to assistant superintendent of the largest plant of its kind in New

England. He is constantly on duty and until the arrival of the superintendent he has full swing.

The general foreman of the locomotive plant is L. Morgan, who for a number of years has held the position of foreman of the engine house of the Boston & Maine at Pittsburg. When the Billerica shop is running full force Mr. Morgan will have about 700 men to look after, and although he has been on the job but two weeks the men think a lot of him, for he is a "fine fellow," as the employees term it.

D. H. O'Neil of Concord has charge of the erecting shop with about 300 men in his employ. He has been with the Boston & Maine for the past ten years and about 18 months ago he was appointed assistant foreman of the Concord plant.

The holtermakers, who will number about 150, will be in charge of Oscar Knoebler, who comes from Manchester, N. H., where for the past 30 years he was in charge of the Manchester Locomotive Works. He took up his new duties last Monday.

The machine shop with about 250 men is in the care of Roy L. Nutter of Concord. Mr. Nutter has been in the employ of the company for the past ten years as machinist, tool maker and assistant foreman. He came to Billerica last August and it was under his direction that the machinery was installed.

Albert Blythe of Keene, N. H., has been appointed foreman of the blacksmith shop and his force will consist of about 100 men. Mr. Blythe learned the business with Superintendent Jennings on the Central Vermont railroad and from there he went to the Keene shop as foreman.

C. L. Copp of Concord is the boss painter and he will have supervision over about 75 men. For the past 40 years Mr. Copp has been connected with the B. & M. and up to the time of his transfer to the Concord shop he was located at the Lawrence plant of the company. He will start on his new duties in April.

The car department with a force of about 350 men will be in charge of D. H. Pine, who a short time ago was appointed general foreman. For the past three or four years Mr. Copp has held the position of general place work inspector and his home is in Pittsburg. He will assume his new duties on April 1st.

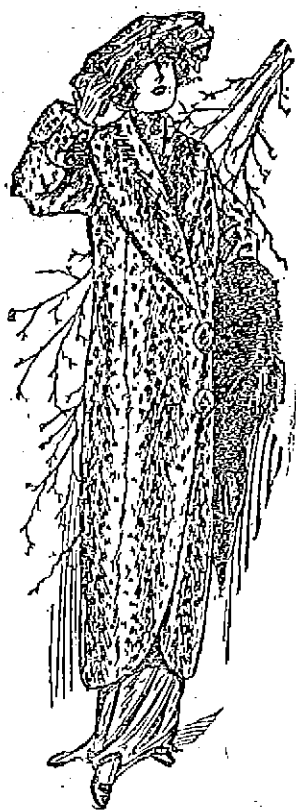

C. H. Nutter will have charge of the blacksmiths in the locomotive shop, about 80 in number. Mr. Nutter is assistant foreman of the blacksmith shop at Concord and has had 12 years' experience in this particular line of work.

The other assistant foremen are as follows: J. W. Perley, Concord, chief draftsman; J. E. Ferrin, Concord, assistant machine shop foreman; H. E. Calvert, Concord, tool room foreman; G. E. Stevens, Concord, assistant holtermaker foreman; T. F. Blythe, Keene, assistant machine shop foreman; W. H. Batten, Keene, assistant erecting shop foreman; H. L. Leighton, assistant erecting shop foreman.

The writer on his return trip from the car shops boarded an electric car at High street, Billerica, with about 50 employees of the shop, who make their homes in this city, and all but two were reading The Sun, and words of praise could be heard for Lowell's greatest newspaper from all the passengers. They especially commented on the photo of the large locomotive which appeared on the front page of yesterday's issue of The Sun, and this

STOCK TAKING SALE IN FULL SWING

few men who were photographed on the large machine, chance to be among the group in the car and they immediately expressed their admiration of the excellent picture. The men are all intelligent and high class workmen, but many of them are somewhat disappointed at the conditions under which they have to live at present but this is to be expected as they came here at the worst time of the year. When the weather is milder and the spring opens things will be very much different.

CABARET PERFORMER

Continued

day's best bet that you want to know who Gladys is. Well, her full name is Gladys Lloyd and she's a cabaret performer and the highway men invited her to the luncheon yesterday.

Charlie Morse says it was a caution the way Gladys juggled Jimmie Sullivan. It seems that Supl. Sullivan is the retiring president of the association. He has a ruddy complexion by nature, which Charlie says was heightened for the time being when Gladys playfully placed her arms about his neck, snuggled her face down close to his and warbled the ditty about loving. Charlie says there was a burst of hearty applause from the assemblage of New England highway experts, 200 strong, when this part of the program was being enacted.

Among those who were at the head table were Col. William D. Sohler, the newly elected president of the association; George C. Warren, president of the Warren Bros. company; Street Superintendent Morse of Lowell; Ross of

Newton, Jones of Waltham and others.

The Beautiful Gladys

The luncheon had not been in progress long before Miss Lloyd entered. She walked about the tables, singing and then, at the suggestion of some member of the association, proceeded to the head table where she did or did not salute Superintendent Sullivan with a kiss or kisses.

Later other young women appeared and sang, pausing now and then at tables to give their music better effect. Others who had a part on the vocal program included George Whitaker, Councilman William H. Doyle of Malden, "Eddie" Quinn, superintendent of streets of Cambridge; Frank McDonough, and others.

Moving Picture Show

After the dinner had been thoroughly discussed and the cabaret girls had gone their way, moving pictures were shown to illustrate the method of laying bitulthie pavements throughout the country. George Warren, president of the Warren Brothers company, delivered the lecture that described the method in detail, and Mr. Morse says it was the finest illustration of its kind that he has ever seen.

The election of officers resulted as follows: President, Colonel William D. Sohler, of Boston; vice president, Louis Rourke, commissioner of public works, Boston; secretary, John M. McCarty, Natick; directors, Richard A. Jence of Waltham, Edward W. Quinn, of Cambridge.

Colonel Didn't See Gladys

Commissioner James H. Carmichael was in Boston yesterday, too, but he

didn't see Gladys Lloyd. The colonel and Chief Saunders of the fire department attended a meeting of the Massachusetts Fire Chiefs' association at Clark's hotel. If the colonel had attended the meeting of the highway association the chances are that Miss Lloyd wouldn't have had any eyes for Messrs. Sullivan and Morse.

The colonel, however, had the honor of being elected an honorary member of the Fire Chiefs' association and he was called upon for a speech. Chief Saunders is authority for the statement that Commissioner Carmichael made a pronounced hit. He entertained his remarks with anecdotes that kept the fire chiefs in uproarious laughter and they extracted from him a promise that he would strain a point to attend the monthly meetings of the association. There were remarks by a number of the chiefs present. No papers were read.

Grade Crossing Hearing

The special commission on grade crossings will come to Lowell tomorrow for the purpose of hearing arguments, pro and con, on the abolition of the grade crossings in Middlesex and Fletcher streets. The Lowell board of trade will be represented and the representatives will present arguments as to why the crossings should be abolished. The hearing will begin at 10 a. m.

Visit Hospital Sites

Members of the state board of health will also visit Lowell tomorrow for the purpose of looking over sites for contagious hospitals. They are expected to arrive here about 10 o'clock and members of the municipal council will accompany them to the various sites offered for a contagious hospital.

EXPLOSION KILLS FIVE ANOTHER STRIKE

POWDER WORKS AT KENVILLE, N. J. WRECKED—TONS OF POWDER BLEW UP

KENVILLE, N. J., Feb. 13.—Five employees of the Hercules Powder works were killed in an explosion which last night destroyed the packing house of the plant, where tons of powder were ready for shipment to Mexico. So complete was the destruction that none of the officials of the plant would even guess at the cause of the explosion. Practically all the inhabitants of this place are employees of the powder works.

WARM WEATHER COMING

PREDICTION FROM THE WEATHER BUREAU AT WASHINGTON FOR NEW ENGLAND STATES

WASHINGTON, Feb. 13.—Snow and cold today and tonight, and warmer tomorrow was today's prediction from the weather bureau for New England.

ALPHONSE BERTILLON DEAD
PARIS, Feb. 13.—The death occurred here today of Alphonse Bertillon, creator of the Bertillon system of criminal identification.

Gardens of Fall River Mill Quit for Second Time in Two Weeks

FALL RIVER, Feb. 13.—The card room help in the Peccasset mill went out on strike this morning in consequence of a change in working conditions and falling off in pay. This is the second strike of carders within two weeks, the strikers claiming that the mill officials failed to remedy conditions as they had promised. About 50 carders left their work and, unless a settlement is arrived at least 1050 hands will be affected.

P.O. APPROPRIATION BILL

WASHINGTON, Feb. 13.—With the \$310,000,000 postoffice appropriation bill up, the senate committee on appropriations reported an amendment today to prevent further changes in rates or extension of the parcel post without congressional authority.

Weiner's Fur Store Removal Sale

Starts Tomorrow Morning at 9 and Will Be Continued for Five Days, Ending Thursday, Feb. 19, at 6 P. M.

Our entire stock of Fine Furs, Trunks, Bags, Suit Cases and Leather Novelties must be sold before we take up the occupancy of our new store.

It will be a big undertaking, the changing of the location of our store, and we intend to reduce the labor and trade inconvenience as much as possible. Therefore, every piece of the stock has suffered a price reduction of from 25 per cent. to 50 per cent.

The time for STORING YOUR FURS will soon be here. We will store furs for 3 per cent. of their value during the summer.

If You Want Bargains Come to This Sale

REMEMBER, WE GUARANTEE EVERYTHING SOLD IN OUR STORES TO BE AS REPRESENTED. WEINER'S FUR STORES.

This is a bona fide removal sale. After March 1st our address will be 228 Merrimack St., the store formerly tenanted by the Boston Cloak & Suit Company.

WEINER'S FUR STORE

Lawrence, Haverhill

151 CENTRAL ST., LOWELL

Est. 1900, Fel. Con.

Athletes and Athletics

Al Shubert gave Joe Boudreau a bad licking last night at the Union club in Lawrence throughout the entire twelve rounds of their bout. Shubert tore into the Medford fighter with both hands and beat him at his own game. Any scrapper who can hit faster at close range than Boudreau has got him beaten and this is just what Shubert did last night. The decision was unquestioned.

Johnny Boyle and Eddie Flynn, the Lynn two-fisted fighters, have been matched to meet in Lawrence over the dozen session route. The two met once before and boxed a draw. The local boy has a battle arranged with Frankie Mack for the 24th. If Johnny can get an even break with the Beaumont kid his reputation will take a big jump.

If indications are any criterion Hugh Duffy is going after the New England league pennant hard this coming season. Duffy must have handed out a pretty penny to our old friend Loneran, and has several pitchers in now for rather expensive players. His salary list last season was sliced way down but this year you can lay a wager on Hughie will be in the fight for fair. If he runs unopposed more than he did during last season what will we do with him?

George Lyons was signed up by Manager Gray yesterday. He is only a youngster with little experience and hails from Hardwick, Vt. The father of George was once the star player of the champion Baltimore club and the Lowell manager thought he would give the offspring a chance to make good.

The Dartmouth baseball team has written the local club asking for a game here on April 13th. In view of the fact that the players do not report until the 12th there is not much likelihood of arrangements being consummated. If possible, however, the Green club will be seen here later on in the month.

Another episode which arrived at baseball headquarters yesterday was from a semi-pro club in Nashua and asked for a game in the up-river city on Fast day, April 16th. This is always quite a holiday in the New Hampshire cities and the fans turn out well. Last year Duffy made a big killing.

BASEBALL WAR Y.M.C.I. LEAGUE

Rival Forces Remain in New York—Egan Sold to Brooklyn

NEW YORK, Feb. 13.—The rival baseball forces remained in town today with each side apparently waiting on the other for some aggressive move. The rumor will not down that the purpose of the Federal managers in coming to New York was to make arrangements for a club within the confines of Greater New York. It was reported today that announcement to this effect would be made tonight and that the Federal League officers had interested capital here.

The announcement that the national commission had decided to bar any ball players who jumped a signed contract or the reserve rule and that the Players' fraternity, headed by Dave Phelan, would work with the big leagues in this respect did not disconcert the Federal managers. They were angry at Fulton, however, and said he had aimed a blow at the very principle of his organization.

Ban Johnson said the disbarment rule will be strictly enforced and that other war measures against the Federals had been planned and would be made public when occasion for their use develops.

Johnny Evers, the deposed manager of the Chicago Nationals is expected to decide in the course of the day whether he will go to the Boston Nationals or with the new organization. There was a report late last night that Joe Tucker, his one-time partner in the Chicago club, had succeeded in signing Evers for the Federal League for three years at \$10,000 a year, but this was denied by President James A. Gilmore of the Federal league. Evers has sent for his lawyer, who lives up-state and for his contract.

The Brooklyn club probably despairing of winning Tinker away from the Federals, has closed an option with the Cincinnati club for Dick Egan. The war was (1909). Egan will probably fill the gap at shortstop for the Brooklyn.

C.M.A.C. HAD WALKAWAY

RAN UP SCORE OF 21-2 IN BASKETBALL GAME WITH CRESCENTS LAST NIGHT

The Crescent basketball team went down to defeat last night before the onslaught of the husky C. M. A. C. The winners were masters of proceedings at all times and never gave their opponents a chance to win.

All of the C. M. A. C. members played well, their team work and individual floor work speaking for itself. Breton, Boule and Carpenter did the bulk of the scoring. The lineup:

C. M. A. C. CRESCENTS
Boule rf lg Caveney
St. Jean, Lavallee lf rg McCaffrey
Carpenter, Lamoureux c e Whitaker
Payette lg lf Clark
Breton rg lf Hutton

Summary: The score: C. M. A. C. 24; Crescents 2. Baskets from the floor: Boule 3, Breton 4, Lavallee 2, Carpenter 2, Caveney. Officials: Bellette, C. LeBlond, scorer, A. F. ette. Time: 20 minutes. Time: Two 20-min. periods.

DISCOVERS NEW PLANET
WINCHESTER, Feb. 13.—(By) Joel H. Metcalf, a minister and astronomer, has another asteroid to add to the known planets of the solar system which brings his record for such discoveries up to 40, out of the 800 bodies known to exist between the orbits of Mars and Jupiter. The newly found planet is estimated to be 500 miles in diameter and ranks among the larger class of asteroids.

ing in Manchester on Fast day with his Portland players.

Jimmy Clabby was given the decision over "Sailor" Petroskey at the end of their 20 round bout in Vernon, Cal. yesterday. Clabby was the favorite as he had once before sent the former "able seaman" down to defeat. Clabby won the bout after being outclassed up to the twelfth session.

Our old friend, Eddie McGamwell, would like to take his turn at bat in this league again, according to a letter from him to the Lowell manager. Eddie liked Lowell as well as he was liked by the local fans and wanted to be remembered to all of his friends here. McGamwell was a great first baseman in his day but as a baseball star is in the descendant now. For a gentlemanly player, whether on the field or off, it is very hard to beat the ex-Lowell first baseman.

It looks as though little Abe Kiviat was not in condition for his Hunter Mile over in New York. After winning the Hunter mile at the B. A. A. games without much trouble, the Irish-American crack lost out in a far slower race to a man whom he can whip ahead of at most any distance. It was a big surprise to the track followers of the Metropolis.

The Pilgrims got one bad beating last night at the hands of the Cleveland seven in their hockey game at the Arena. Outskated and beaten in every other department of the Canadian sport, the Boston team was lost. The Cleveland team is the best looking aggregation, bar none, that has been seen at the Hub rink this season.

Clyde Engle finally signed up with the Red Sox after searing Bill Carrigan nearly to death with threats of a jump to the Federals. Engle would have made a big asset for any of the Feds and knew it. It is certain that the big fellow's contract for the coming season calls for a material raise over his last year's figure.

Arthur Lavigne has not yet signed his contract with the Memphis team, and says that he will not do that until things settle down. He has a decided jump in their figures. Jimmy Gray should worry now that he has the neat sum of \$2000 reposing in the treasury of the Lowell Baseball club.

BASEBALL WAR Y.M.C.I. LEAGUE

Blacks Took a Game From the Grays Last Night

The Blacks and Grays played off the second game held thus far in the Y. M. C. I. basketball league, the Blacks winning the contest by the score of 16 to 15. The game was well attended.

Murphy, the Blacks' left forward played a great game. He was all over the surface and caught the ball no less than eleven times. Murphy's team work was also good. McDermodt and Dow were factors in their team's win.

For the Grays McGowan left forward and Lepper did the bulk of the scoring. Harrington and Chappelle each snatched the ball in once. The lineup and summary:

BLACKS GRAYS
Murphy, lf rg Lepper
McDermodt, Calman, rf lg Stowell
Clark c e Harrington
Dow, lg lf Chappelle
Curtin, rg lf McGowan

Score: Blacks 16, Grays 15. Baskets from the floor: Murphy 11, McDermodt 4, McGowan 3, Lepper 2, Chappelle, Harrington and Dow. Points on fouls: Blacks 4, Grays 1. Officials: Clark, referee; Kennelick, scorer; Harrington, timer. Time: Three 15 minutes periods.

LOST FAST GAME
Employed Boys' Five Beaten by All Saints' Basketball Team of Lawrence
—Score 25-23

The All Saints team of Lawrence took the basketball aggregation of the local Employed Boys into camp last night when the latter team went down the river and attempted to add another victory to their string.

The contest was very close and exciting throughout. First one team would be in the lead and then the other would force ahead. The final result was 25 to 23 in favor of All Saints. Greenwood, Mitchell and Lister played the best game for their respective teams. The lineup and summary:

EMPLOYED BOYS ALL SAINTS
Greenwood, rf lg Dixon
Mitchell, lf rg Jackson
Willie, P. Hall, c e Crowther
Angus, lg lf Hutton
J. Wells, lf rg Duncanson

Score: All Saints 25, Employed Boys 23. Baskets from the floor: Greenwood 4, Mitchell 4, Lister 6, Brashaw 2, Jackson 3, Dixon 2, J. Wells, Crowther. Points on fouls: Greenwood 3, Mitchell 2, Brashaw 2. Officials: Bellette, referee; Crowther, timer. Time: Two 20-minute halves.

NO CABINET MEETING

PRESIDENT WILSON'S COLD PREVENTED HIM FROM GOING TO HIS ROOM TODAY

WASHINGTON, Feb. 13.—Although President Wilson was better today he kept to his room and a cabinet meeting was cancelled. Mr. Wilson expected to leave his room tonight and meet about 450 guests at a special New Jersey reception. With the exception of the democratic national committee and cabinet officials, only New Jersey delegates will attend the New Jersey delegates at the Baltimore convention.

their alternate, the New Jersey electors, democratic state committee, democratic leaders in the legislature, Governor Fielder, former Governor Taylor, the New Jersey congressional delegation and editors of New Jersey newspapers.

If you want help at home or in your business, try The Sun "Want" column.

LEADERS LOST

Merrimacks Defeated T. & S. Team in Manufacturers' League

The F. M. C. A. league rolled off two games last night on their alleys, the Merrimacks taking their contest from the Wannanaclets, and Inguis winning from the Coosaukees. Jones and Johnson were tied for high honors in the first string and Grant's total of 297 was the best in the second string.

The Merrimacks took their contest from the Tremont & Suffolk bowlers last night in the Manufacturers' league. The game was close throughout, but eight pins separating the two teams at the conclusion. Chouinard was high man.

The First Baptist rollers took their Baraca league game from the Highland M. E. Ave without any difficulty. All five of the winners rolled about the same and displayed a steadiness which rolled up a total of 1429. Bowen was high man. The scores are as follows:

Y. M. C. A. LEAGUE
Inguis—Grant 297, Greenwood 249, Dow 232, Callahan 257, Kittredge 281; totals 1352.
Coosaukees—Bowen 298, Knight 289, Keough 265, Taitley 284, Kirby 256; totals 1392.

Sloux—R. Johnson 268, Gumb 268, Smith 261, C. Johnson 240, Sub 218; totals 1355.
Wannanaclets—Duzzell 251, Duncan 221, Sticks 232, Kelley 243, Mulaniff 269; totals 1257.

MANUFACTURERS' LEAGUE
Merrimacks—Chouinard 238, Armstrong 278, McNeil 268, Panten 257, Sweeney 247; totals 1300.
Tremont & Suffolk—Manning 259, C. Farrell 214, Whalen 257, Jodoin 273, McDermodt 234; totals 1257.

BARACA LEAGUE
First Baptist—Willis 251, Turner 275, Harron 257, Chapman 288, Bowen 289; totals 1429.
Highland M. E.—Harrison 378, Maguire 257, Heathwaite 262, Holden 264, Abbott 252; totals 1314.

ROYAL SCHOOLS MEET
Lawrence High Will Meet Lowell High on the Local Track Tomorrow Night
—Close Meet Expected

The track meet between the two great schoolboy rivals, Lowell high and Lawrence high, will be run off at the high school annex on tomorrow night and one of the largest crowds which has ever fixed the capacity of the hall is expected by the management.

In spite of the fact that the local boys have walked with their downriver opponents for the past few years without any visible effort, the supporters of the Lawrence team think that they have at last got together an aggregation of track and field stars who can take the measure of the Lowell athletes. Capt. Bowers and his men, however, hold an altogether different opinion on the matter and claim a victory by a small margin.

The Lawrence team attempted to substitute the standing high jump in place of the mile run, but the local management would not consider this change. Lawrence has a star jumper in Capt. Burckel and good performers in Todd, Everett and Marsden, but their distance men are weak. Such a shift in events would certainly have

been all in favor of the Lawrence team.

The Lowell team is in top condition. Such stars as Captain Bowers, Libbee, Davis, Cunningham, Heathcock, Taylor, Larrett, Delorme and Cahill are feeling fit for the struggle and will trot onto the track in the best of shape. The entries for the various events from both teams are as follows:

30 Yard Dash
Lawrence: Gordon, Higgins, Delaney, Perry, Redman, Kennis, Marsden, Burckel, Crompton.
Lowell: Libbee, Taylor, Muleahy, Cahill, Cunningham.

1000 Yard Run
Lawrence: Cummings, Kenney, Leveille, Crompton, Ferguson.
Lowell: Bowers, Larrett, Cheney.

300 Yard Run
Lawrence: Delaney, Kennis, Perry, Schwarzenburg, Marsden.
Lowell: Cahill, Leforme, Taylor, Heath, Muleahy.

High Jump
Lawrence: Burckel, Todd, Everett, Marsden.
Lowell: Mulvaney, Buchanan, Mulvaney, Melony.

600 Yard Run
Lawrence: Higgins, Redman, Abernoble, Maynor, Powers.
Lowell: Bowers, Higgins, Downing, Marsden.

Shot Put
Lawrence: Burckel, Fleming, Marsden, Perry.

ONE KILLED, FIFTY HURT

FREIGHT TRAIN STRUCK A LARGE SLEIGH RETURNING FROM A DANCING PARTY

KINGSTON, N. Y., Feb. 13.—Fifty persons were injured and one was killed when a freight train on the Wallkill Valley railroad struck a large sleigh in which they were returning

early today from a dance at Blinnwater, five miles south of here. Three of the injured received fractured skulls.

The other injuries were not serious except those of William Anderson, the driver, who had his left foot cut off and several ribs broken.

Raymond Wood, a bookkeeper, was killed. Arthur Rowland, a bank clerk; Julius Mosser, railroad clerk and Miss Nellie Zimmerman, a clerk, had their skulls fractured and may die. All members of the party reside in Kingston.

The dance, given by a club of young women employed in a Kingston department store, ended at a late hour.

The train carried the whole party to Kingston.

and in a temperature several degrees below zero, the dancers bundled into an immense four-horse sleigh and started to return.

The accident occurred half a mile from the dance hall. The approach to the Wallkill Valley railroad crossing is hidden by steep banks on both sides of the track and the dancers did not hear the locomotive or see it until the sleigh was on the tracks.

The next instant the locomotive struck the rear end of the conveyance, hurling the occupants in every direction.

The train carried the whole party to Kingston.

MAN FREEZING TO DEATH

Fall River Man Found Dying on Sidewalk With Both Arms and Feet Frozen Stiff

FALL RIVER, Feb. 13.—With the thermometer several degrees below zero, Napoleon Guimond, 38, of 402 East Main street, was found lying on the sidewalk in front of the Davol mill at three o'clock this morning slowly freezing to death. He had laid there for some hours evidently for both arms and both feet were frozen so that they were black and stiff. He was rushed to City hospital in a dying condition.

SHEA IS OUSTED LT. GOV. BARRY

Mayor Miller Abolishes Office of Superintendent of Streets

QUINCY, Feb. 13.—Mayor Miller of Quincy has at last succeeded in removing Michael E. Shea from the office of superintendent of the street department. To be more exact, he has removed the office from Shea. One of the first acts of Mayor Miller's administration was to request the resignation of Shea, but no attention was paid to his demands. Shea said that if the mayor would take it into the court and there would be a long legal tangle. At last the mayor found a method to cut the Gordian knot. He sent the following letter to Michael E. Shea, commissioner of public works:

"Dear Sir—I have this day abolished the office of superintendent of streets, to take effect Feb. 14, at 12 o'clock, and will you please see that no further money is expended in that direction. Yours truly,"

(Signed) "John Miller, Mayor."

Unless Shea takes steps in some unforeseen direction to keep the office from sliding out from under him he will cease to be a member of the official family circle next Saturday at 12 o'clock.

BOSTON, Feb. 13.—Lieut. Gov. Barry was the chief speaker at a luncheon of the Massachusetts Real Estate Exchange in the City club yesterday. He endorsed Mayor Curley's plan to raise money to boom Boston and warned his hearers not to expect too much of Gay, Walsh in a single year.

He said: "I expect wonderful good from the development of our resources in western Massachusetts. I believe that immigrants, instead of being sent to the great states of the west, should be kept in Massachusetts to till the land and develop our resources."

"It is to be regretted that the legislation of the past has been largely in the interest of certain wealthy families. I think an effort has been made to crystallize the wealth of Boston, for example, in certain sections to the detriment of others. I believe that the great terminal on Summer street is wrongly located, and that it was so located to enhance the value of certain lands."

"I believe that the taxes in the downtown section are 50 per cent. too low, while landholders in sections not midway are, in my opinion, taxed too much."

"I think this community is maintaining 20 per cent. too many persons in its institutions. From 5 to 10 per cent. of those in our insane asylums have come here from Virginia, New York and other states to be maintained at our expense."

TOO COLD TO WORK

REPORTS OF BREACH OF DISCIPLINE AMONG 700 BOYS AT NAVAL TRAINING STATION

NEWPORT, R. I., Feb. 13.—Reports of a breach of discipline among the 700 boys of the naval training station were brought here from the reservation by several persons today. Officers of the station denied that anything in the nature of a mutiny had occurred, and declined to discuss what did take place.

According to unofficial sources, the trouble arose over the issue of the boys' uniforms and culminated when the apprentices threw down their shovels, buckets and bags and left the bins. The boys insisted that the weather was too cold for such work. The officers, it is stated, began to make a list of the strikers, but abandoned this when they found that the entire party was included.

English Beauty Tells Complexion Secrets

"(Miss) in American Home"

Through a fortunate meeting with an English lady, noted for her dazzling complexion, I recently learned the full meaning of the old adage, "Beauty is but skin deep." She taught me how to remove my muddy old skin, revealing the young and beautiful skin underneath. The process is so simple, harmless and inexpensive. I'm sure you'll be glad to know about it. Just get an ounce of ordinary medicinal soap, such as you find in any drug store and apply nightly. Like cold cream, for a week or so. Every morning in washing off the wax, tiny particles of soap-out come off too. The action is so gentle and gradual, there's no discomfort. It's a wonderful treatment, as it not only gets rid of the faded or discolored skin, but rid of its defects, as blemishes, freckles, pimples, blotches, blackheads.

I am indebted to the same lady for a remarkable wrinkle-removing formula. One ounce powdered saville is dissolved in a half pint which is used as a face bath. This is so effective that just one application causes the wrinkles to disappear, and soon even the deepest ones go.

GOLD MODERATES

Temperature Last Night 6 to 12 Below - Today is Much Warmer

Although the mercury was way below the zero mark early this morning and stayed close to zero until noon, a rapid rise is predicted and it is believed that the cold spell will soon be broken. The temperature in the different sections of the city varied from 6 to 12 below, according to unofficial reports received at The Sun office.

All day yesterday the thermometer in the central parts of the city did not show a rise of more than 5 above, and after the sun went down another drop was realized; but the cold was not so severe as on the night before. The temperature at midnight was 6 below; 2 a. m., 8 below; 5 a. m., 10 below; and at 7 o'clock it began to rise gradually. Yesterday is said to have been the coldest day that Lowell has experienced during the past 30 years. In some of the suburbs it was necessary to close the schools and the train service in many places was affected more than by any other cold snap for years.

STEAMERS ICE BOUND

THREE STEAMSHIPS PACKED IN ICE IN LAKE MICHIGAN WITHIN SIGHT OF LAND

CHICAGO, Feb. 13.—Passengers and members of the crew of three steamships which became ice bound yesterday in Lake Michigan within sight of Chicago's business district today hoped for a shift in the wind which would blow the packed ice into the lake and allow the vessels to make port.

Two of the steamers, the Kansas and the Arizona, were enroute to Chicago from Milwaukee. They carried 20 passengers and crews numbering 40.

ESCAPED FROM PATROL

YOUNG ROBBERS SENT TO PRISON - ONE LEARNED CRIME IN CONCORD, HE SAID

BOSTON, Feb. 13.—With seven court officers grouped about the prisoner's cage in the superior criminal court and a half dozen police inspectors sitting a few feet away, as a reminder of their thrilling escape from a municipal court prison van a few weeks ago, Charles Roman, aged 23, and George A. Ward, 20, stood last night in the cage and received a three to four years state prison sentence for breaking and entering. A jury, out only 15 minutes, had found them guilty of breaking into the home of Mrs. Edith M. Binney, 138 Marlboro street, and Mrs. Marietta S. Raymond, 94 Huntington avenue, and the theft of \$1300 worth of jewelry and other things.

Among the \$1000 loot secured at Mrs. Binney's was a platinum ring, which was worn by Marie Antoinette. This was among the jewelry recovered by inspectors Kilday and Wise when they arrested Ward and Roman at the latter's room on Shawmut avenue. The inspectors found a loaded magazine gun hanging at the head of the bed the two men were occupying and two more loaded magazine guns beside the men in bed. Guns and the recovered jewelry were exhibited in court.

Roman asked Chief Justice Aiken for a chance to avoid state prison.

"I was 17 years old when I went to Concord, your honor," he said, "and I learned of crime I learned there. I'll go to Deer Island for any number of years cheerfully."

EXPLOSION OF TORPEDOES

SUCCESSFUL EXPERIMENT FROM A LONG DISTANCE BY ULTRA-VIOLET RAYS

FLORENCE, Italy, Feb. 13.—A successful experiment of exploding torpedoes from a long distance by means of ultra-violet rays discovered by Giulio Ulivi was carried out here today. Signor Ulivi having handed over his report to the Italian government, preparations were made for an experiment. Admiral Serravallo placed in the river Arno two torpedoes charged with smokeless gunpowder and two others with black gunpowder. The ultra violet ray apparatus was placed in the tower of the palazzo Capponi, about two miles away, where Signor Ulivi awaited the signal from the naval officers in charge of the experiment.

When the signal was given the apparatus was put into operation and in less than three minutes all four torpedoes exploded.

HEAD SNAPPED OFF BODY

MAN STRUCK BY B. & M. TRAIN AT MELROSE AND THROWN AGAINST POST

MELROSE, Feb. 13.—S. G. Shanahan was struck by a Boston & Maine express train at the Melrose Highland station today and thrown with such force against a post that his head was snapped from his body. The incident was witnessed by a large crowd of commuters.

FOUR INJURED IN TRAIN WRECK

TAMPA, Fla., Feb. 13.—Four passengers were injured, none seriously, when a train from an Atlantic Coast line train was derailed early today at Gainesville by an unknown cause.

TAKE FOR CLAYTON HILL

WASHINGTON, Feb. 13.—Former President Taft will be heard before the House Judiciary committee on Feb. 27 in advocacy of the Clayton bill designed to effect reforms in federal court procedures.

LINES HIS POCKET WITH YOUR SKIN

That is What An Unscrupulous Dealer Does if He Succeeds in Selling You a Substitute For Resinol

Over eighteen years of constant use by physicians and public have shown that Resinol stops itching instantly, and quickly heals turning, itching, skin eruptions. We have thousands of unsolicited testimonials that prove it.

Most druggists are only too glad to sell Resinol to their customers because they know that it will give satisfaction. But a few unscrupulous dealers offer, in its place, ointments which resemble Resinol closely enough in name or appearance to deceive the unwary.

"They claim these are 'just the same as Resinol' or 'just as good as Resinol.' But they're NOT. They are crude imitations, often cheaply made and of little or no healing power. The dishonest dealer wants to sell these imitations instead of Resinol because HE can make a few cents more profit and not because they will do your skin any good."

We publish this to warn our customers, many of whom write that they have been deceived by imitations of Resinol. If anyone tries this trick on you, insist on seeing a jar of genuine Resinol also. Compare the two ointments and decide for yourself if the "substitute" is "just the same as Resinol." Resinol is never sold in bulk, only in opal jars with the name blown in the bottom. Each jar comes in a blue carton which it is unlawful to handle for less than 50c and \$1. For trial size, free, write to Dept. 42-R, Resinol, Baltimore, Md.

RE-SALE PRICE OF GOODS

CHAMBERS OF COMMERCE BEGAN ITS CONCLUDING SESSION AT CAPITOL TODAY

WASHINGTON, Feb. 13.—The chambers of commerce of the United States began its concluding session here today with a discussion of the maintenance of re-sale prices led by Joseph E. Davies, federal commissioner of corporations.

"The discussion today," said Mr. Davies, "is addressed to the right of the manufacturer to establish at successive stages the re-sale price of the goods of his own manufacture which shall be binding through the various stages even to the extent of his final binding upon the retailer in his final re-sale of the goods to the consumer."

"This practice has obtained in the past with reference to patented articles, as well as to those non-patented and has developed co-existent with the development of modern advertising methods."

"For a number of years it is alleged that the decisions handed down by the lower courts were generally favorable to re-sale price maintenance as the copyrighted and patented articles. In recent decisions of the supreme court of the United States, however, the practice of fixing a re-sale price has been declared illegal."

"It is now urged that this practice should be sanctioned by law and that an express statute should be enacted to give the manufacturer under certain restrictions the right to fix the price at which the articles of their manufacture respectively should be finally sold to the consumer."

"The bureau of corporations is now engaged in making an exhaustive study of the question from an economic point of view. For that reason I express no opinion upon the merits of the question at this time."

Don't miss, Div. II, A. O. H., tonight.

RESCUED WIFE AND CHILDREN

METHUEN, Feb. 13.—An attempt to burn out the two-story house owned by Edward F. Seales and occupied by Peter F. Graham this forenoon, entailing a property loss of \$3500. Mr. Graham himself rescued his wife and five children, who were in bed when the fire was discovered.

SUSPENSION OF BANK

NEW YORK, Feb. 13.—Suspension was announced today of the Italian banking firm of A. Bolagnani & Co., one of the oldest concerns of its kind in the city. It did a large business in foreign exchange and represented Italian steamship lines.

ANNIVERSARY MASS OF REQUIEM

At St. Margaret's church Saturday morning at 1:30 o'clock, high mass of requiem will be celebrated for the repose of the soul of the late Timothy Hennessy, who died a year ago.

YOUR HUSBAND'S HAIR

Is it getting gradually thinner? If so, tell him of CRUDOL. Have him try it.

CRUDOL is not a liquid hair wash; it is a hair TONIC. It comes in sanitary tubes and is easily applied.

Like any highly efficient principle, CRUDOL goes to the roots and helps the hair where it needs help, leaving the scalp fragrant and clean.

CRUDOL is a cricle oil product with every disagreeable feature removed. It is fragrant, refreshing, cleanses, contains no alcohol and will not change the color of the hair.

CRUDOL destroys dandruff, checks falling hair, prevents itching of the scalp and, by encouraging the root, promotes a luxuriant growth of hair.

In tubes only. Never in bottles. Small size 25c, large size 50c, at drug and department stores everywhere. CRUDOL Products Corporation, 177 Broadway, New York.

Cheapness Is Not Based On What You Pay But On What You Get For What You Pay.

GRAND RECITAL 40 GIRLS FLEE FROM FIRE

Large Audience Enjoyed the Artistic Work of Pasquale Talarico

Students at Framingham Escaped Without Injury, But Suffered From Extreme Cold

FRAMINGHAM, Feb. 13.—Forty girls roused from their beds when fire was discovered in Normal Hall, a dormitory at the state normal school early today, escaped without injury but suffered severely from the extreme cold. The three story wooden building was destroyed, causing a loss of about \$50,000. The students, who lost their personal effects, were sheltered in another dormitory. Defective heating apparatus is thought to have caused the blaze.

Sleep Disturbing Bladder Weakness Backache-Rheumatism, Quickly Vanish

Even Most Chronic Sufferers Find Relief After a Few Doses Are Taken

Backache, urinary disorders, and rheumatism are caused from weak, inactive kidneys, which fail to filter out the impurities and keep the blood pure, and the only way on earth to permanently and positively cure such troubles, is to remove the cause.

The discovery, Croxone, cures such conditions because it reaches the very roots of the disease. It works right into the stopped up, inactive kidneys, through the walls and linings, cleans out the little filtering cells and glands; neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles to scratch and irritate and cause rheumatism; it neutralizes the urine so it no longer irritates the tender membranes of the bladder, and cleans out, and strengthens the stopped up, lifeless kidneys so they filter and sift all the poisons from the blood, and drive it out of the system.

So sure, so positive, so quick and lasting are the results obtained from the use of Croxone, that three doses a day for a few days are often all that is required to cure the worst case of backache, rheumatism, the most annoying bladder disorders, and overcome the numerous other similar conditions.

It is the most wonderful preparation ever made for the purpose. It is entirely different from all other remedies. There is nothing else on earth to compare with it. It is so prepared that it is practically impossible to take it into the human system without results.

You can obtain an original package of Croxone at trifling cost from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give desired results, regardless of how old you are, how long you have suffered, or what else has failed to cure you.

FIGHT GOLD AND FLAMES

Scores of Fires in Greater Boston Kept Department Busy—Much Suffering and Heavy Losses

BOSTON, Feb. 12.—More than a score of fires in Greater Boston yesterday brought suffering, large property losses and death before fire-fighting forces, braving the bitter wind which sent the mercury to its lowest point in 15 years, could overcome the riot of the flames.

In Boston and all the surrounding cities and towns, firemen, ice clad and exhausted with the tasks put upon them, closed a day which will go down in history.

If Mothers Only Knew

How frequently children suffer from worms they would take more precautions against this common ailment of childhood. Grown folks also have worms very frequently. Signs of worms are: Deranged stomach, furred tongue, belching, variable appetite, increased thirst, acid or heavy breath, nausea, enlarged liver, enlarged abdomen, variable bowel action, pale face of leaden tint, bluish rings around eyes, itching of nostrils, languor, irritability, disturbed sleep, grinding of teeth, irregularity of pulse.

Over 60 years ago my father discovered the formula of Dr. True's Elixir, the Family Laxative and Worm Expeller. This remedy has a world-wide reputation as the one safe and reliable remedy for worms and stomach disorders. At dealers, 50c, 50c and \$1.00. Advice free. Write me.

Auburn, Maine. Dr. True

BEST LAXATIVE FOR BOWELS—"CASCARETS"

When Constipated, Headachy, Bilious, Breath Bad, Stomach Sour

Get a 10c box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passage every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your druggist. Millions of men and women take Cascarets now and then and never have headache, biliousness, coated tongue, indigestion, sour stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.

THE HONEY BOYS

Lowell Performers Made Big Hit in Wakefield Last Night

"The Honey Boy Minstrels, of this city, journeyed to Wakefield last evening, where they gave a delightful presentation of their new skit, "Uncle Joe's Jubilee Birthday at Silby Farm," the occasion being the second annual concert and ball of Wakefield lodge of Eagles. The boys made a hit and from the curtain raiser until the grand finale, "I Love You Just Like Lincoln Loved the Old Red, White and Blue," they received rounds of applause from the audience.

Although the soloists and chorus have been heard in this city they have never been heard to better advantage than last night and much credit is due Director William H. Way and Edward Hanley, supervisor, for the fine entertainment. The work of the end men and the soloists was particularly good, and all were obliged to respond to encourage.

Shortly after midnight the Honey Boys and a great many other Lowellites who were present boarded a special car and arrived in this city during the early hours of the morning.

Those who took part in the entertainment were: Messrs. Paul Coleman, Andrew Doyle, James Shugrue, Jackson Palmer, Thomas McCarlin, Joshua Chapman, Thomas Beane, Guy Johnson, Nicholas Stedley, William Carr, John Wilby, James Lyon, Edward Hanley and the Paragon Four. Numbers were also given by Messrs. Molloy and Bechard, basses, Messrs. Olson, Gargan and Boyle, tenors.

DEATH DUE TO COLD

MAN WHO WALKED INTO WARM ROOM IN BOSTON THIS MORNING, DROPPED DEAD

BOSTON, Feb. 13.—Patrick McManus, 62, who the police believed lived somewhere on Cambridge street, West End, died suddenly this morning from exhaustion and the cold.

McManus walked into the basement apartment of Patrick J. Mullen at 9 Auburn street, West End, at 5:15 this morning, and walked over to the kitchen to get a glass of water. Suddenly he dropped dead.

The police of the Joy street station were notified and the body was removed to the North Grove street morgue to await claimants and for the investigations of the medical examiner.

Willmot H. Harris, 30, of 56 Perkins street, East Somerville, who has been employed as a freight brakeman on the Boston & Maine railroad, is at the Massachusetts General hospital in a dying condition.

Harris was overcome by a numbness from the effects of the extreme low temperature at 3:30 this morning while riding on the top of a freight train at Myrtle wharf. He fell to the tracks and was possibly fatally injured. He sustained a fracture of the skull and numerous other injuries. He was removed to the hospital and immediately was placed under treatment. His name is on the dangerous list. There was slight hope of his recovery this morning.

CHANGES BY WEDDING

Father—Juno, are that young man's intentions serious?

Daughter—I think so, pa; he says our carriage should be easily transported into a garage, and the attic would make a dandy billiard room and bowling alley.—Boston Post.

CHARLES K. DARLING, Clerk.

By John E. Gilman, Jr., Deputy Clerk.

INCOME TAX LAW

Treasury Officials Issue Booklet to Clear Up Misunderstandings

WASHINGTON, Feb. 13.—After weeks of study of the complexities of the income tax law, treasury officials have issued a 90-page booklet, christened it "Regulations No. 35," and sent it forth to collectors of internal revenue in the expectation that it will clear up many of the misunderstandings concerning the law which have arisen throughout the country.

It takes 23 pages of the book to set forth the law itself, but 60 pages are used in telling how the net income to be taxed is ascertained by the taxpayer, when and where tax must be paid, what penalties will be imposed for non-payment, what exemptions and deductions will be allowed. Many pages are devoted to an explanation of that part of the law imposing a one per cent tax on the income of all corporations, which replaces the old corporation tax.

Although officials are confident that this booklet will prove a guide to taxpayers which will settle many apparently difficult problems, there will be other regulations in the future when new points are raised. The book does not contain a new set of regulations, but it is a compilation in compact form of the ones already issued, with explanations of points never before discussed. Under the law, partnerships are not subject to the tax, but the regulations provide that annual profits from a partnership paid to members shall be included in their returns and where such profits are undistributed and unpaid, they must be ascertained and included in the individual return for taxation just the same.

It is made clear for the first time that persons who have a net income of less than \$2,000 all derived from investments and upon which the tax has been withheld at the source, shall not be required to make any return, and that persons who are required to pay the tax on the net income for the part of the year in which the deceased was alive.

Where persons taxable refused to make the proper list or return or failed to return the proper collector of internal revenue shall also be liable for the return for such persons and the tax shall be assessed on this return, with a 50 or 100 per cent penalty added. Returns must be verified by oath or affirmation. Returns shall be sent by the collectors to the commissioner of internal revenue in Washington by registered mail. Taxes unpaid after June 30 shall bring a penalty of 6 per cent, after ten days' notice and demand by the proper collector, and increased at the rate of one per cent a month from the date due. Returns shall be made to collectors before March 1, every year.

In dealing with the corporation feature, it is explained that all returns shall be public records subject to inspection on order of the president of the United States under rules prescribed by the secretary of the treasury. Copies of returns can not be sent to any person except the corporation or its attorney, but on request of the governor, officers of a state which imposes a general income tax, may have access to returns by corporations doing business in that state. United States district attorneys may, under certain restrictions, have access to the returns. Disclosure by any collector or other employee of the United States, of any information however, set forth in any return of annual net income, is made a misdemeanor, punishable by a fine of \$1000 and one year's imprisonment, and if the person found guilty is a United States employee he will be dismissed and thereafter be incapable of ever holding office under the government.

COMMERCIAL HEARING

WASHINGTON, Feb. 13.—Interstate commerce commission hearings in several cities east of the Mississippi river were suggested today during the controversy between Commissioner Harlan and the so-called free service rendered by carriers to shippers at terminal points.

Protest against a limitation of no more than three days of hearings, now in progress, was made by representative of merchants' associations and warehousemen's leagues. Commissioner Harlan assured the latter that opportunity would be given for all sides in the dispute to be heard. He would not say, however, where the hearings might be held.

Old People Need A Bowel Stimulant

The Ideal One is a Mild Laxative-Tonic That Will Keep the Bowels Gently Active

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating well selected foods and by plenty of exercise, but this latter is tedious to most elderly people. One thing is certain, that a state of constipation would always be avoided as it is dangerous to life and health. The best plan is to take a mild-laxative as often as is deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physic salts and pills be avoided, as they do but temporary good and are so harsh as to be a threat to a delicate system.

A much better plan and one that thousands of elderly people are following is to take a gentle laxative-tonic like Dr. Caldwell's Syrup Pepsin, which acts as a healthy like nature and is not harmful. In fact, the tendency of this remedy is to strengthen the stomach and bowel muscles and to train them to act naturally again when medicine of all kinds can usually be dispensed with.

This is the opinion of many people of different ages, among them Mrs. Mary A. P. Davidson of Unionville, Mo., who writes: "I have used your bottle of Unionville, Mo., San Francisco, Cal. She is 78 and because of her senility has had continual bowel trouble. From the time she began taking Dr. Caldwell's Syrup Pepsin she has had no further inconvenience and naturally she is glad to say kind things of this remedy."

A bottle can be bought of any druggist at fifty cents or one dollar. Proceed usually take the fifty cent size first, and then, having convinced themselves of its merits, they buy the dollar size which is more economical. Results are always guaranteed or money will be refunded. Elderly persons of both sexes can follow these suggestions with every assurance of good results.

Families wishing to try a free sample bottle can obtain one by sending an address label to Dr. W. B. Caldwell, 415 Washington street, Monticello, Ill. A certain restriction, have access to the returns. Disclosure by any collector or other employee of the United States, of any information however, set forth in any return of annual net income, is made a misdemeanor, punishable by a fine of \$1000 and one year's imprisonment, and if the person found guilty is a United States employee he will be dismissed and thereafter be incapable of ever holding office under the government.
